The Writing of the Gods Edward Dolnick, 2022-11-22 Carved in ancient Egypt the Rosetta Stone carried the same message in different languages in Greek using Greek letters and in Egyptian using picture writing called hieroglyphs Until its discovery no one in the world knew how to read the hieroglyphs that covered every temple and text and statue in Egypt Dominating the world for thirty centuries ancient Egypt was the mightiest empire the world had ever known yet everything about it the pyramids mummies the Sphinx was shrouded in mystery Whoever was able to decipher the Rosetta Stone and learn how to read hieroglyphs would solve that mystery and fling open a door that had been locked for two thousand years Two brilliant rivals set out to win that prize

Photographing Tutankhamun Christina Riggs, 2020-09-19 They are among the most famous and compelling photographs ever made in archaeology Howard Carter kneeling before the burial shrines of Tutankhamun life size statues of the boy king on guard beside a doorway tantalizingly sealed in his tomb or a solid gold coffin still draped with flowers cut more than 3 300 years ago Yet until now no study has explored the ways in which photography helped mythologize the tomb of Tutankhamun nor the role photography played in shaping archaeological methods and interpretations both in and beyond the field This book undertakes the first critical analysis of the photographic archive formed during the ten year clearance of the tomb and in doing so explores the interface between photography and archaeology at a pivotal time for both Photographing Tutankhamun foregrounds photography as a material technical and social process in early 20th century archaeology in order to question how the photograph made and remade ancient Egypt in the waning age of colonial order **The Cairo Genizah and the Age of Discovery in Egypt** Rebecca J. W. Jefferson, 2022-01-27 The Cairo Genizah is considered one of the world's

greatest Hebrew manuscript treasures Yet the story of how over a quarter of a million fragments hidden in Egypt were discovered and distributed around the world before becoming collectively known as The Cairo Genizah is far more convoluted and compelling than previously told The full story involves an international cast of scholars librarians archaeologists excavators collectors dealers and agents operating from the mid nineteenth to the early twentieth century and all acting with varying motivations and intentions in a race for the spoils Basing her research on a wealth of archival materials Jefferson reconstructs how these protagonists used their various networks to create key alliances or to blaze lone trails each one on a quest to recover ancient manuscripts Following in their footsteps she takes the reader on a journey down into ancient caves and tombs under medieval rubbish mounds into hidden attic rooms vaults basements and wells along labyrinthine souks and behind the doors of private clubs and cloistered colleges Along the way the reader will also learn about the importance of establishing manuscript provenance and authenticity and the impact to our understanding of the past when either factor is in doubt
