Contested Karoo: Interdisciplinary perspectives on change and continuity in South Africa's drylands Cherryl Walker,M Timm Hoffman,2024-05-15 This inter disciplinary collection explores significant land use changes in South Africa s semi arid Karoo region and their implications for social justice and the environment across different scales It brings together recent scholarship by established and younger researchers in both the social and the natural sciences to examine the ways in which the Karoo is being reconfigured as a new resource frontier and the tensions and contestations that result Along with ongoing mining major investments in astronomy notably the Square Kilometre Array radio telescope in renewable and non renewable sources of energy solar wind potential shale gas mining in biodiversity conservation and commercial game farming are reshaping land use and authority in this vast and long marginalised area While promising significant benefits to society at large these developments are built on older histories of dispossession and extractivism histories that many Karoo residents fear are being reproduced in new forms today Collectively these dynamics place this unique region at the centre of national and global concerns around climate change the politics of

knowledge production the conservation of threatened biodiversity and the meaning and possibility of sustainable development These issues are explored through a series of case studies of selected developments complemented by chapters providing more historical context and general overviews While challenging perceptions of this region as a peripheral wasteland this collection raises conceptual and policy questions that resonate far beyond the Karoo itself It also highlights the importance of interdisciplinary collaboration in research aimed not only at understanding but also at responding appropriately to the mounting challenges of our time

South Africa's High-Stress Security Environment Gerhard Schoeman, 2024-10-11 This book presents valuable insights into the realities faced by security personnel as they deal with life threatening situations in a high stress security environment The causes and consequences of stress are explored followed by a comprehensive discussion of coping strategies and the negative consequences of not being able to cope effectively In this book a scientifically tested accessible model is also developed which provides a visual overview of the stress management process and captures the flow between stressors personality and coping strategies South Africa's High Stress Security Environment is a helpful guide for anyone who wants to gain a wider understanding and appreciation of the challenges and the courage of security personnel which we often take for granted Print edition not for sale in Sub Saharan Africa

The Oxford Handbook of Evolutionary Medicine Martin Brüne, Wulf Schiefenhövel, 2019-01-31 Medicine is grounded in the natural sciences where biology stands out with regard to our understanding of human physiology and the conditions that cause dysfunction Ironically though evolutionary biology is a relatively disregarded field One reason for this omission is that evolution is deemed a slow process Indeed the macroanatomical features of our species have changed very little in the last 300 000 years A more detailed look however reveals that novel ecological contingencies partly in relation to cultural evolution have brought about subtle changes pertaining to metabolism and immunology including adaptations to dietary innovations as well as adaptations to the exposure to novel pathogens Rapid pathogen evolution and evolution of cancer cells cause major problems for the immune system Moreover many adaptations to past ecologies have actually turned into risk factors for somatic disease and psychological disorder in our modern worlds i e mismatch among which epidemics of autoimmune diseases cardiovascular diseases diabetes and obesity as well as several forms of cancer stand out One could add depression anxiety and other psychiatric conditions to the list The Oxford Handbook of Evolutionary Medicine is a compilation of up to date insights into the evolutionary history of ourselves as a species exploring how and why our evolved design may convey vulnerability to disease Written in a classic textbook style emphasising physiology and pathophysiology of all major organ systems the Oxford Handbook of Evolutionary Medicine is valuable reading for students as well as scholars in the fields of medicine biology anthropology and psychology

Doctoral Education in South Africa Nico Cloete, Johann Mouton, 2015-12-08 Worldwide in Africa and in South Africa the importance of the doctorate has increased disproportionately in relation to its share of the overall graduate output over the past decade This heightened attention has not only been

concerned with the traditional role of the PhD namely the provision of future academics rather it has focused on the increasingly important role that higher education and particularly high level skills is perceived to play in national development and the knowledge economy This book is unique in the area of research into doctoral studies because it draws on a large number of studies conducted by the Centre of Higher Education Trust CHET and the Centre for Research on Evaluation Science and Technology CREST as well as on studies from the rest of Africa and the world In addition to the historical studies new quantitative and qualitative research was undertaken to produce the evidence base for the analyses presented in the book The findings presented in Doctoral Education in South Africa pose anew at least six tough policy questions that the country has struggled with since 1994 and continues to struggle with if it wishes to gear up the system to meet the target of 5 000 new doctorates a year by 2030 Discourses framed around the single imperatives of growth efficiency transformation or quality will not however generate the kind of policy discourses required to resolve these tough policy questions effectively What is needed is a change in approach that accommodates multiple imperatives and allows for these to be addressed simultaneously Acta Theriologica ,2014 Contextualising Educational Studies in India Pradeep Kumar Choudhury,Suresh Babu G.S,2021-06-10 This volume presents an interdisciplinary framework to map out contemporary educational studies in India Based on conceptual tools quantitative methods and ethnographic accounts drawn from extensive fieldwork it addresses emerging discourses on educational policies their operation in the everyday functioning of institutions and actual practices in teaching and learning Individual chapters discuss the intersectionality in the current educational system of region gender class caste and minorities With comparative perspectives and case studies from across states including under studied rural and urban regions of India the book explores a wide range of issues affecting the educational system including socioeconomic and gender inequalities the educational status of tribal settlements in the hinterlands and their respective urban areas the marginalisation of minorities challenges in accessing educational avenues and choices and the model for imparting vocational education and training It navigates complex sites of discrimination and exclusion in the institutional spaces of the educational system and assesses the consequences of market dynamics and ideological undercurrents Presenting first hand information from the field it evaluates educational policies practices and research investigates challenges and failures provides suggestions and fosters critical thinking for a knowledge society The findings in this book will be of interest to researchers scholars and teachers of education economics sociology urban education and the politics of education as well as of public policy governance and development studies It will also be useful to research institutions policymakers educationists social scientists education professionals and governmental and non governmental bodies working on education *Political Transition and Inclusive Development in Malawi* Dan Banik,Blessings Chinsinga,2016-06-10 Malawi is among the few countries in sub Saharan Africa that has witnessed significant improvements in relation to meeting the Millennium Development Goal MDG targets It exhibits some of the main challenges facing African

democracies while they attempt to consolidate the benefits of democratisation Political Transition and Inclusive Development in Malawi critically analyses opportunities and constraints related to the impact of democracy on development in one of the world's poorest countries The book explores how and to what extent processes related to democratic and economic governance can be strengthened in order to make political and administrative authorities more responsive to development needs It also considers characteristics of successful implementation of public policy and the effective and timely delivery of basic services in local contexts increased citizen participation and dialogue with local government authorities factors that enable civil society organisations to hold political and administrative officials to account and better utilisation of academic research for improved evidence based policy formulation and implementation This volume will be of great interest to scholars in development studies African studies politics law and anthropology as well as policymakers and those interested in democracy governance human rights and the implementation of anti poverty programmes development administration and decentralisation
