

TIPS TO MAKE STUDYING LAW EASIER

- 💡 When you study, focus on only studying. Multitasking can handicap learning as your attention is split between each task.
- 💡 Instead of re-reading information again and again, close your eyes and recite as much as possible from memory. This can cement long-term memorization.
- 💡 If available, take practice tests. One study showed that students retained 50% more of the material if they tested themselves after learning something.
- 💡 You can prevent yourself from forgetting up to 80% of the material by reviewing a lecture or study content within 24 hours.
- 💡 Consider exercising before your next study session. It may help make your mind more alert, and give you the endurance you need to study for several hours.
- 💡 Become more efficient when studying with flashcards by using the Leitner System. Repeat flashcards that you have difficulty with more often than those you have memorized.
- 💡 Instead of trying to memorize information, make connections between the material's ideas. This may help you remember more material in less time.
