Contractor Tess Covington has spent her entire life as a regular, non-shifter human, so after she lands in the Denver ER with flu-like symptoms, it comes as a complete shock to be told that no, she's not sick; she's actually a late-presenting omega wolf shifter. With her family in dire financial straits and a contract for her own television show on the line, she can't afford not to complete the renovation job she came for. And given that her newly emerged wolf is in danger of going into heat, she'll just have to do her best to follow the doctor's advice to keep away from alpha shifters. Set on avoiding each other as much as possible, they find things unexpectedly starting to heat up between them enough to thaw even the frostiest of hearts. Though even with the pair going head over paws for each other, there's no changing that their fling has an expiration date. The more time they spend together, the more they realize they're playing a dangerous game, one where the only thing on the line is their hearts.
