Unser Freund Peregrin Ina Seidel, 1956 *The German Novel, 1939-1944* H. Boeschstein, 1949-12-15 This book begins the large task of sorting out the vast number of German literary works which the war has piled up before us The author has culled over four hundred novels and critical works and by indicating the numbers and content of the more significant novels and some of their stylistic characteristics he has shortened the task of future research If this investigation provides a fair indication it appears that the widely held conviction that German publishers brought out nothing but trash during the war years is mistaken By now students of literature should be in a sufficiently intelligent and tolerant mood to accept some detailed evidence and to begin to scrutinize it objectively The present study is intended as a step in that direction **Culture in Exile** Elisenda Marcer, 2024-12-03 This edited book breaks new ground by bringing together research on inner and territorial exile in the context of National Socialism in Germany and the Franco regime in Spain and in proposing an integrated model of exilic cultural production Original contributions explore previously neglected aspects of the inner and territorial exile cultures focusing on the specificity of the national settings including Catalonia whilst also seeking to place research findings within a conceptual framework of exile which views the experiences and cultural manifestations of inner and territorial exiles not as polar opposites but as interactions of response to fascist dictatorship This book will be of interest to scholars and students of German Studies Hispanic Studies comparative literary and cultural studies and modern history more broadly **Flight of Fantasy** Neil H. Donahue, Doris Kirchner, 2003 After the end of Nazi era many German writers claimed to have retreated into Inner Emigration This book presents the complexity of Inner Emigration through the analysis of individual cases of writers who under constant pressure from a watchful dictatorship to conform and to collaborate were caught between conscience and compromise Catalog of Copyright Entries.
