A Date with Death
Louis Sia, 2002. A Date With Death is a novel dealing with two former lovers whose relationships were embroiled in both lust and hate encounters after a one-night stand. Toto, a former drug trafficker, turned over a new leaf and became a reborn Christian contributing to the building of a new Church and setting up a legitimate tin manufacturing company. Molly Tam, an arms dealer with a dark secret past, had connections with the United States Senators, Congressmen, and battleships. Commanders contravened with shipments of military hardware from the States to the Tamil Tigers in Jaffna. Molly capitalized on the only asset she knew to procure favours from the top brass in the States and enlisted the Tamil Tigers to help her evil cause. Their interests conflicted and churned into hatred, resulting in a war when a subordinate of Toto was caught trafficking in heroin, a trap deliberately weaved by his ex-lover. A continuous chain of revenge from both camps leads to numerous deaths. The adventures take the players to far-flung places in South Africa and Texas to those closer to home including Thailand, Vietnam, and the Philippines. One of Molly Tam's captives, a fortune teller who raped her, was satanically eliminated by Land Eating Piranhas fondly termed The Black Widows, originating from the thick vegetations of Jaffna.

Inside The Black Vault
John Greenewald, Jr., 2019-04-08. The evidence in this book may not ultimately give you the smoking gun you are looking for on your journey, but I guarantee it will give you a box of bullets when you find it. In 1996, John Greenewald Jr. began researching the secret inner workings of the U.S. Government at the age of fifteen. He targeted such agencies as the CIA, FBI, Pentagon, Air Force, Army, Navy, NSA, DIA, and countless others. Greenewald utilized the Freedom of Information Act (FOIA) to gain access to more than two million pages of documents. This archive includes information relating to UFOs, the JFK Assassination, chemical, biological, and nuclear weapons, and top secret aircraft. He took the millions of pages and, over the course of more than two decades, has built an archive known around the world as The Black Vault. Inside The Black Vault: The Government's UFO Secrets Revealed takes you on a journey within the secret world of unidentified aerial phenomenon that has plagued the military since at least the 1940s. Declassified records prove that the UFO topic is one of the most highly

classified and most elusive subjects the U S Government has ever dealt with Each chapter explores various agencies and their documents and Greenewald breaks down the meaning of why some of the most important documents are relevant to proving a massive cover up Along with declassified documents Greenewald outlines the struggle it took him to get them No other topic has proven so difficult in more than 8 000 FOIA requests that he has filed He explores why that might be and meets skeptics and debunkers head on outlining why some of their more prominent rebuttals for it all cannot be true *TID.*,1960 **Civilian Power Reactor Program** U.S. Atomic Energy Commission,1960 **The Insiders' Chronicle** ,1992
