Zitty ,2007 Vans Warped Tour Greg Robison,2008-08-15 The Vans Warped Tour is a massive ten stage traveling punk music festival that also features alternative entertainment skate and bike ramps and booths selling food gear and assorted other items The tour attracts more than 750 000 fans in 50 cities across North America This book gives readers an insider s view of the tour the musicians who play at it the people who make it happen year after year Busted Busted (Musical group),Peter Robinson,2003 With guitar driven punk pop to rival top US groups like Blink 182 and Wheatus Busted were a breath of fresh air when they burst onto the scene in 2002 with the catchy single What I Go To School For followed by Year 3000 Busted aim to be the natural antidote to choreographed boy bands and this book offers a scrapbook of the group s personal rock n roll memorabilia reflecting their rapid rise to fame Surfing shooting pool football gigging a series of snapshots of life in young bright guitar driven Britain in 2003 Every tale is told by the lively Busted 18 year olds Mattie Charlie and James oozing wit style and charm Added to the mix are exclusive photographs of the band in recording and television studios on the road and live on stage during their first tour in May 2003 **The Long and Winding Road** Ronnie J. Phillips,2017 Since the earliest troubadours traveling from town to town to perform has been the primary way that musicians have made a living In the 21st century the rise of the Internet and digital music has meant a decline in recording royalties and touring has become increasingly important to a musician s total income Organizing a tour can be a complicated process and there are components that can be controlled by the tour manager hiring the staff booking hotels and so on and those that cannot Not controllable is uncertainty of the weather and unseen disasters But also important in the efficiency and profitability of a tour is the state of technology For the tours we examine it is the transportation technology and the type of venues that are available to the artist that are crucial The research question addressed is given changes in musical tastes and the technology of transportation and venues are tours today as efficient as those three quarters of a century ago We provide case studies of tours from different time periods and musical styles to provide a preliminary answer to this question using

miles traveled and time spent on the road as measures of efficiency Our hypothesis is that tours are most efficient when given that management has enough experience there is an appropriate transportation technology and appropriate sized and equipped venues We find that in general touring has been efficient measured in these terms Big Bands mostly utilized trains and buses as a means of getting to the many ballrooms in small and large towns throughout the country During the early rock and roll era of the 1950s buses and on occasion trains were used as the means of travel between the various venues Today touring is by a combination of planes and buses traveling along interstate highways and between airport hub cities This paper examines big band tours of Glenn Miller and Lawrence Welk and the modern touring of The Beatles Paul McCartney and the Drive By Truckers These tours are then compared with the infamous Winter Dance Party in 1959 during which three of the stars of the tour died in an airplane crash Buddy Holly J P The Big Bopper Richardson and Ritchie Valens We find this latter tour to be relatively inefficient by our measures and attribute this to the limitations of transportation and the availability of venues
