Toxic Terror! Robin Twiddy,2019-12-15 Angelina Butterworth couldn't understand why people kept polluting our planet until the day she discovered it was the diabolical plan of aliens bent on destroying Earth In this entertaining and instructive narrative readers will be on the edge of their seats as they find out if Angelina can escape the slimy tentacles of the evil Toxlings while learning what people can do in real life to stop our world from becoming an actual toxic wasteland This valuable volume shows that science fiction can teach us important facts and even help save our planet **Toxic Terror**

Jonathan B. Tucker,2000-02-28 In depth case studies of twelve terrorist groups and individuals who from 1946 to 1998 allegedly acquired or employed CBW agents Policymakers scholars and the news media have been alarmed by the potential for chemical and biological weapons CBW terrorism and the U S Congress has allocated billions of dollars for counterterrorism and consequence management programs Driving these concerns are the global spread of scientific knowledge and technology relevant to CBW terrorism and the vulnerability of civilian populations to chemical and biological attacks Notably lacking from the analysis however has been a careful assessment of the terrorists themselves What types of terrorist groups or individuals are both capable of acquiring chemical and biological weapons and motivated to use them and for what purposes Further what types of toxic agents would probably be produced and how would they be delivered Answers to these questions would enable policymakers to prepare for the most likely contingencies To this end *Toxic Terror* provides in depth case studies of twelve terrorist groups and individuals who from 1946 to 1998 allegedly acquired or employed CBW agents The cases were researched from primary sources including court documents interviews and declassified government files By comparing the twelve cases the book identifies characteristic motivations and patterns of behavior associated with CBW terrorism and provides an empirical basis for prudent cost effective strategies of prevention and response **Facts Vs.**

Likar,2011-04-07 The first book to thoroughly address the topic this volume examines the ideologies tactics and goals of environmental terrorists and offers a security planning methodology to defend against their attacks To counter eco terrorism we must understand why it occurs *Eco Warriors Nihilistic Terrorists and the Environment* is a comprehensive examination of the vulnerability of the natural environment of its nexus with the strategic goals of terrorists and of a security planning methodology that can prevent or ameliorate environmentally linked attacks The first book to comprehensively address the prevention of

environmentally focused terrorism this work looks at the environment and the private and government facilities that impact it as assets to be protected Focusing on the capability of lone wolf terrorists and small self radicalizing cells to commit effective violent acts security expert Lawrence E Likar furnishes personality and operational profiles of both nihilistic and eco warrior terrorists showcasing an essential component of the behavioral science based security planning methodology he promotes Most critically the book addresses the gap in current security planning methodology and literature and it reveals novel intelligence gathering techniques operational procedures and countermeasures designed to defend against attacks

Terrorism, Asymmetric Warfare, and Weapons of Mass Destruction Anthony H. Cordesman, 2001-11-30 There is a wide spectrum of potential threats to the U S homeland that do not involve overt attacks by states using long range missiles or conventional military forces Such threats include covert attacks by state actors state use of proxies independent terrorist and extremist attacks by foreign groups or individuals and independent terrorist and extremist attacks by residents of the United States These threats are currently limited in scope and frequency but are emerging as potentially significant issues for future U S security In this comprehensive work Cordesman argues that new threats require new thinking and offers a range of recommendations from expanding the understanding of what constitutes a threat and bolstering Homeland defense measures to bettering resource allocation and improving intelligence gathering and analysis No pattern of actual attacks on U S territory has yet emerged that provides a clear basis for predicting how serious any given form of attack might be in the future what means of attack might be used or how lethal new forms of attack might be As a result there is a major ongoing debate over the seriousness of the threat and how the U S government should react This work is an invaluable contribution to that debate

Disaster Nursing and Emergency Preparedness for Chemical, Biological, and Radiological Terrorism and Other Hazards Tener Goodwin Veenema, 2003-08-18 This comprehensive textbook is designed to prepare any nurse to provide health care under disaster conditions The content ranges from general principles of disaster preparation and management to management of specific types of disasters Natural and environmental disasters are amply discussed However the special emphasis of the book is response to disasters caused by biological chemical and radiological agents Vital information on post disaster restoration of basic public health psychological effects and establishing communication is provided Each chapter is prefaced with Key Messages and Learning Objectives and followed by Study Questions and Internet Activities Numerous case studies bring the reader into contact with professionals from organizations crucial to the U S disaster response The Appendix includes an extensive listing of Internet resources

Technological Dimensions of Defence Against Terrorism U.F. Aydoğdu, 2013-10-25 The technological developments of recent years have influenced both the threat of terrorist attacks and the defence against them and continue to be the focus of attention Terrorist groups are not slow to exploit new technological developments and adapt them to their own ends and the forces of counterterrorism cannot afford to fall behind in their understanding of potential threats This book presents the proceedings of the NATO Centre of

Excellence Defence against Terrorism COE DAT Advanced Research Workshop Technological Dimensions of Defence against Terrorism held in Ankara Turkey in November 2011 Seventeen expert speakers from four countries military and civilian practitioners business leaders researchers and academics delivered a series of papers in sessions on understanding the challenges the role of technology in terrorist attacks and the role of technology against terrorist attacks The topics covered include a brief history of terrorism and technology technological advances and the impact on terrorism and counterterrorism efforts the role of the commercial world in the defence against terrorism transportation technology and its effects on the nature of terrorist attacks terrorist threats to critical energy infrastructure technology and protection systems The book is a significant contribution to the field of counterterrorism and will be of interest to all those whose work involves the relationship between technology and terrorism **A Reader for the Politically Incorrect** George Zilbergeld,2003-10-30
