Twenty-Eight Years in Wall Street Henry Clews, 1999-01-01 This Elibron Classics title is a reprint of the original edition published by Irving in New York 1888 **Wall Street in History** Martha J. Lamb, Martha Joanna Lamb, 2005-01-01 Wall Street is more than just the crossroads of money and power It is also the location of a long and interesting history of revolutionary decisions political events and financial growth Historian Martha Lamb looks at Wall Street in all its primitive picturesque political social and monetary aspects She begins with the development of the site by Manhattan settlers a site she describes as a tangle of underbrush wild grape vine and tree animated with untrained bears of a shining pitch black color hungry wolves noisy wild cats and sly raccoons A primitive fence was built along what is now Wall Street and the place has become one of the most widely known and remarkable localities in the civilized world Lamb also examines personalities such as John Jay and political events such as the American Revolution and the adoption of the Constitution MARTHA J LAMB was a historian who was also active in charitable organizations Best known for the two volume *History of the City of New York* published in 1877 81 she also published children's books novels short stories and magazine articles She was the editor of the *Magazine of American History* as well In Chicago where she lived for eight years she founded the Home for Friendless and Half Orphan Asylum and was secretary of the first Sanitary Fair in 1863 **Wall Street in History** Martha Joanna Lamb, 1883

Wall Street in History (Classic Reprint) Mrs. Martha J. Lamb, 2015-07-12 Excerpt from *Wall Street in History* The papers which form this volume were written by request for the May June and July numbers of the *Magazine of American History* of the current year The purpose in their production was to give the busy reading public a concise authoritative and informing account of the rise and development of Wall Street No similar sketch having ever appeared in print touching in historic continuity the salient features of the famous locality from its first brush fence to its present gold vaults the whole field of inquiry must necessarily be explored for the material which was finally gathered from an almost infinite variety of fragmentary and original sources The wealth thus exhumed in the way of fact and incident would have filled

many volumes But for the general convenience and in order to meet the popular demand for much in a small compass the labor of condensation has been cheerfully performed that the many sided subject in all its primitive picturesque political social and monetary aspects may be presented in one brief comprehensive and rapid survey The first chapter Covers the century of settlement and savage warfare inclusive of the period when New York for nearly fifty years was actually a walled city The second chapter is devoted to the vicissitudes of Wall Street in the exciting times of the Revolution and to its history as the seat of fashion aristocracy and the State Government and also as the seat of the National Government for six eventful years with President Washington a familiar figure in his chariot drawn by six horses The third chapter treats of the financial institutions which have made the street famous throughout the civilized world About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Observations Upon the Natural History of Epidemic Diarrhoea (Classic Reprint) O. H. Peters, 2018-02-06 Excerpt from Observations Upon the Natural History of Epidemic Diarrhoea The causative agencies from which springs the plentiful harvest of child mortality in large cities may be conceived as a felted mass of rootlets almost inextricably intertwined Those of poverty bad housing bad feeding and neglect may be severally recognized but the extent of their interrelations with actual respiratory and alimentary disease those to which the greater part of the mortality is referred can be traced only with difficulty It is the object Of this work to aid In the labour of cutting away the matrix and entangling fibres and to lay bare the hidden ramifications of at least one important causative agency epidemic diarrhoea This affection if we accept provisionally the more novel and generally favoured conception As to its nature is revealed as something very like an ordinary infectious disease and one which permeates all classes while the excessive mortality it gathers round itself in urban centres must be regarded as something superadded owing to the vicious circle it forms with those baneful conditions of slum life mentioned above On the other hand its peculiarly intimate association with the circumstances of domestic life from the continual faecal pollution of the interior of the household by infants and others tends to make it more so than other affections of the kind peculiarly a class disease and an especial scourge of dirty neighbourhoods Dirty towns may however be saved from excessive mortality by a high percentage of breast feeding A notable point in the interesting comparison that can be drawn between diarrhoea and typhoid fever is that in accordance with their peculiarly opposite age incidence curves the marked and habitual depositing of infectious excreta within the household in the former disease may make the question of water closet versus conservancy pan a matter of far less importance than in the latter About the Publisher Forgotten Books publishes
