Vulnerability And Violence The Impact Of Globalisation:

Vulnerability and Violence Peadar Kirby, 2006 An innovative and rigorous book Fred Halliday Fortnight

Vulnerability and Violence Peadar Kirby, 2005-12-20 Vulnerability is now a key term in globalisation studies It is used to describe how globalisation impacts on individual security local communities and even global flows of trade finance and investment Yet there has been little attempt to interrogate the term and what it is trying to express about globalisation Peadar Kirby examines what is really meant by vulnerability and links it to new forms of violence that have resulted from decreased security and social cohesion He argues that vulnerability and violence are characteristic features of a new world order dominated by neoliberal globalisation Illustrating his argument with a wealth of examples taken from all over the world from the sudden collapse of the middle class in Argentina to increased levels of poverty internationally he offers a robust theoretical grounding that will be of use to anyone studying vulnerability and violence and their relation to contemporary globalisation

The Routledge International Handbook of Globalization Studies Bryan Turner, Robert Holton, 2015-12-22 The second edition of the Routledge International Handbook of Globalization Studies offers students clear and informed chapters on the history of globalization and key theories that have considered the causes and consequences of the globalization process There are substantive sections looking at demographic economic technological social and cultural changes in globalization The handbook examines many negative aspects new wars slavery illegal migration pollution and inequality but concludes with an examination of responses to these problems through human rights organizations international labour law and the growth of cosmopolitanism There is a strong emphasis on interdisciplinary approaches with essays covering sociology demography economics politics anthropology and history The second edition has been completely revised and features important new thinking on themes such as Islamophobia and the globalization of religious conflict shifts in global energy production such as fracking global inequalities fiscal transformations of the state and problems of taxation globalization and higher education and an analysis of the general sense of catastrophe that surrounds contemporary understandings of the consequences of a global world

Vulnerable Consumers and the Law Christine Riefa, Severine Saintier, 2020-10-27 This book charts the difficulties encountered by vulnerable consumers in their access to justice through the contributions of prominent authors academic practitioners and consultants in the field of consumer law and access to justice It demonstrates that despite the development of ADR access to justice is still severely lacking for the vulnerable consumer The book highlights that a broad understanding of access to justice which encompasses good regulation and its public enforcement is an essential ingredient alongside access to the mechanisms of traditional private justice courts and ADR to protect the vulnerable consumer Indeed many of the difficulties are linked to normative obstacles and lack of access to justice is primarily a vulnerability in itself that can exacerbate existing ones In addition because it may contribute to pushing already vulnerable consumers into social exclusion it is not simply about economic justice but also about social

justice The book shows that lack of access to justice is not irreversible nor is it necessarily linked to consumer apathy New technologies could provide solutions The book concludes with a plea for developing inclusive justice systems with more emphasis on public enforcement alongside effective courts systems to offer the vulnerable with adequate means to defend themselves This book will be suitable for both students and practitioners and all those with an interest in the justice system

Redirecting Human Rights A. Gear, 2010-04-09 Against the backdrop of globalization and mounting evidence of the corporate subversion of the Universal Declaration of Human Rights paradigm Anna Gear interrogates the complex tendencies within law that are implicated in the emergence of corporate humanity Gear presents a critical account of legal subjectivity linking it with law's intimate relationship with liberal capitalism in order to suggest law's special receptivity to the corporate form She argues that in the field of human rights law particularly within the Universal Declaration of Human Rights paradigm human embodied vulnerability should be understood as the foundation of human rights and as a key qualifying characteristic of the human rights subject The need to redirect human rights in order to resist their colonization by powerful economic global actors could scarcely be more urgent *Research Anthology on Child and Domestic Abuse and Its Prevention* Management Association, Information Resources, 2022-03-11 Every day both adults and children are victimized in unhealthy relationships Domestic and child abuse have surged during the COVID 19 pandemic as potential escapes from abuse at home were stripped away Abuse is a raging global issue however with enough research policy and social activism society can aid in the prevention of child and domestic abuse The *Research Anthology on Child and Domestic Abuse and Its Prevention* discusses the prevalence of domestic abuse as well as the exploitation of children both at home and beyond It further presents emerging practices in technology social work and criminology to prevent the further exploitation and victimization of adults and children in abusive situations Covering topics such as foster children gender based violence and trauma analysis this major reference work is an indispensable resource for social workers lawmakers government organizations non profit organizations psychologists therapists sociologists libraries students and educators of higher education criminologists leaders in law enforcement researchers and academicians IBSS: Sociology: 2007 Vol. 57 Compiled by the British Library of Political and Economic Science, 2008-11-06 A classic of animation education since it first published in 1981 For more than 25 years copies of *Timing for Animation* have been sitting dog eared and spine split on desks and workstations around the world wherever animation is produced All you need to breathe life into your animation is at your fingertips All the vital techniques employed by animators worldwide are explained using dozens of clear illustrations and simple straightforward directions Learn how animations should be arranged in relation to each other how much space should be used and how long each drawing should be shown for maximum dramatic effect Fully revised and updated the second edition includes timing for digital production digital storyboarding in 2D digital storyboarding in 3D the use of After Effects and much much more *Timing* shows weight mood and power and can make or break an animation get it right the first

Social Welfare & Social Development in South Africa Leila Patel,2005 The White Paper for Social Welfare adopted by Parliament in 1997 provided a policy framework to shift social welfare from meeting the needs of a small minority to a social development perspective This policy change has required the complete overhaul of th e current welfare system with far reaching implications for human and financial resources policy and legislative reform in line with the new constitution and the Bill of Rights changes in institutional arrangements and trade offs between different sectors and interests in society In the past social work education was not developmentally orientated and tended to borrow uncritically from North American and European theory and practice There was a lack of South African and African literature in the field of welfare and development In addition to the need for the renewal of social work education in South Africa there was also a need for the re orientation of existing social workers to implement new welfare thinking and to app r a ise theory and practice critically

Women in Action ,2005 The Security Intersection Greg Mills,2005 The rising influence of non state actors in the management of international relations reflects both the increasing importance of economic affairs in a rapidly integrating and financially interdependent world and the emergence of so called new issues that have to be factored into any foreign policy the promotion of human rights and democracy humanitarian concerns drug abuse and trafficking the spread of contagious diseases including HIV AIDS transnational crime the safeguarding of the environment poverty the combating of terrorism the proliferation of weapons of mass destruction illegal weapons trafficking and issues surrounding gender equality Security Intersection offers an analysis of the policy options we might employ in providing and managing local regional and global security and examines the security issues involved in nation building especially with regard to Iraq

but also concerning intervention elsewhere and security issues with regard to terrorism People, States and Regions Anne Hammerstad, 2005 This book assesses the achievements of Southern African security integration in a comparative perspective Edited by Dr Anne Hammerstad it highlights some of the main challenges facing SADC and suggests some potential ways they could be overcome by learning from other regional initiatives It argues that of the regional organisations reviewed SADC could in particular benefit from emulating some of the practical policies developed by the Organisation for Security and Co operation in Europe to build and strengthen democratic governance and the rule of law in member states SADC would also do well to take a closer look at ECOWAS's border approach to dealing proactively with political crises in the West African region The book compares the vision of the SADC's regional security integration scheme set out in various regional agreements with its reality Then it places SADC's security integration efforts within the greater picture of the transformation of Africa's security architecture Lastly it reviews SADC's efforts in a global comparative perspective by looking at the efforts of other regional organisations such as the OSCE and the ASEAN Publisher description **Challenges to Global Security** Hussein Solomon, 2008 Ours is an age of great upheaval where change sometimes appears to be the only constant Three of the most important forces driving such change are globalization regionalization and democratization This substantial work makes a concerted attempt to understand these forces and to show how they impact on the vitally important question of global security The volume brings together a wide range of scholars who hold diverse views and who collectively make a very significant contribution to current discourses within international relations and contemporary geopolitics Such is the book's breadth that it covers every region of the world addressing in turn security problems in the USA Latin America South Asia South East Asia Europe Russia and environs the Middle East and Africa Each discourse receives substantial coverage from economics and politics to religion religious fundamentalism and human rights Challenges to Global Security offers one of the richest comparative volumes yet to be published on the subject and will have strong appeal to students scholars and policymakers in the fields of international relations ethics and politics
