No Impact Man Colin Beavan, 2009-09-01 Bill McKibben meets Bill

Bryson in this seriously engaging look at one man's decision to put his money where his mouth is and go off the grid for one year while still living in New York City to see if it's possible to make no net impact on the environment In *No Impact Man* a guilty liberal finally snaps swears off plastic goes organic becomes a bicycle nut turns off his power and generally becomes a tree hugging lunatic who tries to save the polar bears and the rest of the planet from environmental catastrophe while dragging his baby daughter and Prada wearing Four Seasons loving wife along for the ride And that's just the beginning In other words no trash no toxins in the water no elevators no subway no products in packaging no air conditioning no television What would it be like to try to live a no impact lifestyle Is it possible Could it catch on Is living this way more satisfying or less satisfying Harder or easier Is it worthwhile or senseless Are we all doomed or can our culture reduce the barriers to sustainable living so it becomes as easy as falling off a log These are the questions at the heart of this whole mad endeavor via which Colin Beavan hopes to explain to the rest of us how we can realistically live a more eco effective and by turns more content life in an age of inconvenient truths *Dissent*, 2008 *Z Magazine*, 2008 *Book Review Index - 2009 Cumulation* Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year *Toolbox for Sustainable City Living (a Do-it-ourselves Guide)* Scott T. Kellogg, Stacy Pettigrew, 2008 A radical how to for creating locally based ecologically sustainable cities **Urban Ecosystem Justice** Scott Kellogg, 2021-09-22 Merging together the fields of urban ecology environmental justice and urban environmental education *Urban Ecosystem Justice* promotes building fair accessible and mutually beneficial relationships between citizens and the soils water atmospheres and biodiversity in their cities This book provides a framework for re centering issues of justice and fairness in sustainability discourse while challenging the profound ecological alienation experienced by urban residents While the urban sustainability movement has had many successes in the past few decades there remain areas for it to grow For one the benefits of sustainability have disproportionately benefited wealthier city residents with concerns over equity justice and social sustainability frequently taking a back seat to economic and environmental considerations Additionally many city dwellers remain estranged from and unfamiliar with ecological processes with urban environments often thought of as existing outside of nature or as hopelessly degraded Through a citizen centered lens the book offers a guide to reconciling these issues by demonstrating how questions of equity access and justice apply to the biophysical dimensions of the urban ecosystem soil water air waste and biodiversity Drawing heavily from the fields of urban ecology environmental justice and ecological design this book lays out a science of cities for people a pedagogical platform that can

be used to promote ecological literacy in underrepresented urban communities through affordable and decentralized means This book provides both a theoretical and practical field guide to students and researchers of urban sustainability city planners architects policymakers and activists wishing to develop reciprocal relationships with urban ecologies
