Torture And State Violence In The United States A Short Documentary History

Jeffrey Crouch, Mark J. Rozell, Mitchel A. Sollenberger

Torture And State Violence In The United States A Short Documentary History:

Torture and State Violence in the United States Robert M. Pallitto, 2011-11-01 The war on terror has brought to light troubling actions by the United States government which many claim amount to torture But as this book shows state sanctioned violence and degrading cruel and unusual punishments have a long and contentious history in the nation Organized around five broad thematic periods in American history colonial America and the early republic slavery and the frontier imperialism Jim Crow and World Wars I and II the Cold War Vietnam and police torture and the war on terror this annotated documentary history traces the low and high points of official attitudes toward state violence Robert M Pallitto provides a critical introduction historical context and brief commentary and then lets the documents speak for themselves The result is a nearly 400 year history that traces the continuities and changes in debates over the meaning of torture and state violence in the U S and shows where state actions and policies have pushed and exceeded constitutional and international normative limits Rigorously researched and sometimes chilling this volume is the first comprehensive reference work on state violence and torture in the U S

America at War with Itself Henry A. Giroux, 2016-08-22 From poisoned water and police violence in our cities to gun massacres and hate mongering on the presidential campaign trail evidence that America is at war with itself is everywhere around us The question is not whether or not it s happening but how to understand the forces at work in order to prevent conditions from getting worse Henry A Giroux offers a powerful far reaching critique of the economic interests cultural dimensions and political dynamics involved in the nation s shift toward increasingly abusive forms of power His analysis helps us to frame critical questions about what can and should be done to turn things around while we can Reflecting on a wide range of social issues Giroux contrasts Donald Trump s America with Sandra Bland s to understand who really benefits from politically fueled intolerance for immigrants communities of color Muslims low income families and those who challenge state and corporate power A passionate advocate for civil rights and the importance of the imagination Giroux argues that only through widespread social investment in democracy and education can the common good hope to prevail over the increasingly concentrated influence of extreme right wing politicians and self serving economic interests Praise for America at War with Itself This is the book Americans need to read now No one is better than Henry Giroux at analyzing the truly dangerous threats to our society He punctures our delusions and offers us a compelling and enlightened vision of a better way America at War with Itself is the best book of the year Bob Herbert Distinguished Senior Fellow at Demos and former Op Ed columnist for the New York Times In this current era of corporate media misdirection and misinformation America at War with Itself is a must read for all Americans especially young people Henry Giroux is one of the few great political voices of today with powerful insight into the truth Dr Giroux is defiantly explaining against the grain what s REALLY going on right now and doing so quite undeniably Simply put the ideas he brings forth are a beacon that need to be seen and heard and understood in order for the world to progress Julian Casablancas In

America at War with Itself Henry Giroux again proves himself one of North America's most clear sighted radical philosophers of education culture and politics radical because he discards the chaff of liberal critique and cuts to the root of the ills that are withering democracy Giroux also connects the dots of reckless greed corporate impunity poverty mass incarceration racism and the co-opting of education to crush critical thinking and promote a culture that denigrates and even criminalizes civil society and the public good His latest work is the antidote to an alarming tide of toxic authoritarianism that threatens to engulf America The book could not be more timely Olivia Ward Toronto Star America at War with Itself makes the case for real ideological and structural change at a time when the need and stakes could not be greater Everyone who cares about the survival and revival of democracy needs to read this book Kenneth Saltman Professor University of Massachusetts Dartmouth Author of The Failure of Corporate School Reform Henry A Giroux's most recent books include The Violence of Organized Forgetting and America's Addiction to Terrorism A prolific writer and political commentator he has appeared in a wide range of media including the New York Times and Bill Moyers

From Slave Ship to Supermax Patrick Elliot Alexander, 2018 Introduction antipanoptic expressivity and the new neo slave novel Talking in George Jackson's shadow neoslavery police intimidation and imprisoned intellectualism in Baldwin's If Beale Street could talk Middle passage reinstated whispers from the women's prison in Morrison's Beloved Didn't I say this was worse than prison the slave ship Supermax relation in Johnson's Middle passage Tell them I'm a man slavery's vestiges and imprisoned radical intellectualism in Gaines's A lesson before dying Epilogue the prison classroom and the neo abolitionist novel

US Human Rights Conduct and International Legitimacy V. Keating, 2014-02-05 Was the Bush administration was successful in legitimating its preferences with habeas corpus torture and extraordinary rendition As American transforms in the post Bush era scholars have begun to assess the post 9 11 period in American foreign and domestic policy asking difficult questions regarding torture and human rights

Encyclopedia of Criminal Justice Ethics Bruce A. Arrigo, 2014-07-17 Federal state county and municipal police forces all have their own codes of conduct yet the ethics of being a police officer remain perplexing and are often difficult to apply in dynamic situations The police misconduct statistics are staggering and indicate that excessive use of force comprises almost a quarter of misconduct cases with sexual harassment fraud theft and false arrest being the next most prevalent factors The ethical issues and dilemmas in criminal justice also reach deep into the legal professions the structure and administration of justice in society and the personal characteristics of those in the criminal justice professions The Encyclopedia of Criminal Justice Ethics includes A to Z entries by experts in the field that explore the scope of ethical decision making and behaviors within the spheres of criminal justice systems including policing corrections courts forensic science and policy analysis and research This two volume set is available in both print and electronic formats Features Entries are authored and signed by experts in the field and conclude with references and further readings as well as cross references to related entries that guide readers to the next steps in their research journeys A Reader's Guide groups related

entries by broad topic areas and themes making it easy for readers to quickly identify related entries A Chronology highlights the development of the field and places material into historical context a Glossary defines key terms from the fields of law and ethics and a Resource Guide provides lists of classic books academic journals websites and associations focused on criminal justice ethics Reports and statistics from such sources as the FBI the United Nations and the International Criminal Court are included in an appendix In the electronic version the Reader s Guide index and cross references combine to provide effective search and browse capabilities The Encyclopedia of Criminal Justice Ethics provides a general non technical yet comprehensive resource for students who wish to understand the complexities of criminal justice ethics

America's War against Global Jihad William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America s crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington s counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad s words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats

The Unitary Executive Theory Jeffrey Crouch, Mark J. Rozell, Mitchel A. Sollenberger, 2020-11-30 I have an Article II Donald Trump has announced citing the US Constitution where I have the right to do whatever I want as president Though this statement would have come as a shock to the framers of the

Constitution it fairly sums up the essence of the unitary executive theory This theory which emerged during the Reagan administration and gathered strength with every subsequent presidency counters the system of checks and balances that constrains a president's executive impulses It also the authors of this book contend counters the letter and spirit of the Constitution In their account of the rise of unitary executive theory over the last several decades the authors refute the notion that this overweening view of executive power has been a common feature of the presidency from the beginning of the Republic Rather they show it was invented under the Reagan Administration got a boost during the George W Bush administration and has found its logical extension in the Trump administration This critique of the unitary executive theory reveals it as a misguided model for understanding presidential powers While its adherents argue that greater presidential power makes government more efficient the results have shown otherwise Dismantling the myth that presidents enjoy unchecked plenary powers the authors advocate for principles of separation of powers of checks and balances that honor the Constitution and support the republican government its framers envisioned A much needed primer on presidential power from the nation's founding through Donald Trump's impeachment **The Unitary Executive Theory A Danger to Constitutional Government** makes a robust and persuasive case for a return to our constitutional limits **In the Shadow of the Great Charter** Robert M. Pallitto, 2015-04-17 In the Supreme Court's 2008 ruling on whether Guantanamo detainees could be barred from U S courts Justice Anthony Kennedy cited the U S Constitution of course But he also linked the decision to the Magna Carta Why would a twenty first century judge even under the extraordinary circumstances of the war on terror invoke a document signed by an English king in the thirteenth century To address this question as Robert Pallitto does in this clarifying book is to probe the history of modern civil liberties and to explore the process by which judges decide individual rights cases Pallitto's work with its insight into competing ideas about interpreting the Constitution originalism versus constitutional common law is of critical importance to our understanding of the nation's founding document Of far more than symbolic significance the Magna Carta exerts immediate practical influence on legal outcomes as Justice Kennedy's opinion demonstrates To explain this Pallitto first goes into the Charter's origins history and nature especially its explicit use of the law of the land to protect subjects rights and liberty The Magna Carta's legacy in the United States reaches back to the nation's founding with even the colonial charters reflecting its influence But it is in the Supreme Court's reference to the Charter spanning the institution's full two hundred years that Pallitto finds the greatest impact most frequently in the principles of due process in criminal proceedings and habeas corpus but in many other provisions as well And the weight of this impact registers most deeply and clearly in the development of the constitutional common law the theory that courts should and do interpret and expand on constitutional texts by reference to tradition and precedent rather than to the drafter's original intent Charting the Magna Carta's influence on the contemporary jurisprudence of individual rights from the legal thought of the American colonies through exemplary cases over the history of the Supreme Court this book offers resounding

evidence of the evolution and value of abiding principles through which American liberty endures **Immovable Object** A. B. Abrams, 2020-10-01 North Korea and the United States have been officially at war for over 70 years one of the longest lasting and most unbalanced conflicts in world history in which a small East Asian state has held its own against a Western superpower for over three generations With the Western world increasingly pivoting its attention towards Northeast Asia and the region likely to play a more central role in the global economy North Korea's importance as a strategically located country potential economic powerhouse and major opponent of Western regional hegemony will only grow over the coming decades This work is the first fully comprehensive study of the ongoing war between the two parties and covers the history of the conflict from the first American clashes with Korea's nationalist movement in 1945 and imposition of its military rule over southern Korea to North Korea's nuclear deterrence program and ongoing tensions with the U S today The nature of the antagonism between the two states one profoundly influenced by both decolonisation and wartime memory and the other uncompromising in its attempts to globally impose its leadership and ideology is covered in detail Northern Korea is one of very few inhabited parts of the world never to have been placed under Western rule and its fiercely nationalist identity as a deeply Confucian civilization state has made it considerably more difficult to tackle than almost any other American adversary This work elucidates the conflicting ideologies and the discordant designs for the Korean nation which have fueled the war and explores emerging fields of conflict which have become increasingly central in recent years such as economic and information warfare Prevailing trends in the conflict and its global implications including the multiple wars that have been waged by proxy are also examined in detail An in depth assessment of the past provides context key to understanding the future trajectories this relationship could take and how a continuing shift in global order away from Western unipolarity is likely to influence its future To understand where the Korean Peninsula might go in the rest of the 21st century Abrams telling of the story of how the two countries got to where they are today is essential ANKIT PANDA senior editor The Diplomat even those who find his conclusions unpalatable will be forced to weigh them carefully JOHN EVERARD former British Ambassador to North Korea **American Political Culture** Michael Shally-Jensen, Mark J. Rozell, Ted G. Jelen, 2015-04-28 This all encompassing encyclopedia provides a broad perspective on U S politics culture and society but also goes beyond the facts to consider the myths ideals and values that help shape and define the nation Demonstrating that political culture is equally rooted in public events internal debates and historical experiences this unique three volume encyclopedia examines an exceptionally broad range of factors shaping modern American politics including popular belief political action and the institutions of power and authority Readers will see how political culture is shaped by the attitudes opinions and behaviors of Americans and how it affects those things in return The set also addresses the issue of American exceptionalism and examines the nation's place in the world both historically and in the 21st century Essays cover pressing matters like congressional gridlock energy policy abortion politics campaign finance Supreme Court rulings immigration

crime and punishment and globalization Social and cultural issues such as religion war inequality and privacy rights are discussed as well Perhaps most intriguingly the encyclopedia surveys the fierce ongoing debate between different political camps over the nation s historical development its present identity and its future course By exploring both fact and mythology the work will enable students to form a broad yet nuanced understanding of the full range of forces and issues affecting and affected by the political process

Just Babies Paul Bloom,2014-11-11 A leading cognitive scientist argues that a deep sense of good and evil is bred in the bone From John Locke to Sigmund Freud philosophers and psychologists have long believed that we begin life as blank moral slates Many of us take for granted that babies are born selfish and that it is the role of society and especially parents to transform them from little sociopaths into civilized beings In Just Babies Paul Bloom argues that humans are in fact hardwired with a sense of morality Drawing on groundbreaking research at Yale Bloom demonstrates that even before they can speak or walk babies judge the goodness and badness of others actions feel empathy and compassion act to soothe those in distress and have a rudimentary sense of justice Still this innate morality is limited sometimes tragically We are naturally hostile to strangers prone to parochialism and bigotry Bringing together insights from psychology behavioral economics evolutionary biology and philosophy Bloom explores how we have come to surpass these limitations Along the way he examines the morality of chimpanzees violent psychopaths religious extremists and Ivy League professors and explores our often puzzling moral feelings about sex politics religion and race In his analysis of the morality of children and adults Bloom rejects the fashionable view that our moral decisions are driven mainly by gut feelings and unconscious biases Just as reason has driven our great scientific discoveries he argues it is reason and deliberation that makes possible our moral discoveries such as the wrongness of slavery Ultimately it is through our imagination our compassion and our uniquely human capacity for rational thought that we can transcend the primitive sense of morality we were born with becoming more than just babies Paul Bloom has a gift for bringing abstract ideas to life moving seamlessly from Darwin Herodotus and Adam Smith to The Princess Bride Hannibal Lecter and Louis C K Vivid witty and intellectually probing Just Babies offers a radical new perspective on our moral lives

2011 Massimo Mastrogregori,2015-11-27 Every year the Bibliography catalogues the most important new publications historiographical monographs and journal articles throughout the world extending from prehistory and ancient history to the most recent contemporary historical studies Within the systematic classification according to epoch region and historical discipline works are also listed according to author s name and characteristic keywords in their title

O que nos faz bons ou maus Paul Bloom,2014-09-05 UMA PERSPECTIVA RADICALMENTE NOVA SOBRE NOSSAS VIDAS MORAIS Em O que nos faz bons ou maus Paul Bloom importante cientista cognitivo afirma que um os seres humanos j v m ao mundo com uma no o de moralidade Baseando se em pesquisas inovadoras realizadas na Universidade de Yale Bloom demonstra que antes mesmo de poderem falar ou andar os beb s julgam a bondade e a maldade das a es dos outros sentem empatia e compaix o agem para acalmar os que est o

angustiados e t m um senso rudimentar de justi a Ainda assim essa moralidade inata apresenta algumas vezes tr gicas limita es Reunindo conhecimentos de psicologia economia comportamental biologia evolutiva e filosofia Bloom investiga a forma como aprendemos a superar tais limita es Brilhante descomplicado espirituoso e intelectualmente investigativo *Global Hakka* Jessieca Leo,2015-08-25 In *Global Hakka* Hakka Identity in the Remaking Jessieca Leo offers a needed update on Hakka history and a reassessment of Hakka identity in the global and transnational contexts Leo gives fresh insights into concepts such as ethnicity identity Han Chineseness overseas Chinese and migration in relation to Hakka identity Globalization transnationalism deterritorialization and migration drive the rapid transformation and reformation of Hakka identity to the point of no return Dehakalization through cultural adaptation or genetic transfer has created an elastic identity in the global Hakka and different kinds of Hakka communities around the world Jessieca Leo convincingly shows that the concept of being Hakka in the twenty first century is better referred to as Hakkaness a quality determined by lifestyle and personal choices Among the Chinese tradition long resisted the idea of migration In practice however there were many layers of adaptation to different circumstances The Hakka have been exceptional in having always been conscious of their migratory successes This book explores with great sensitivity how Hakka history outside China influences the way they respond to the new global environment Combining careful scholarship with self discovery Jessieca Leo captures the processes by which one group of Chinese became migrants who consider migration as normal Her fascinating and original work takes the study of the Hakka to a higher level and offers fresh insights for understanding how other migratory Chinese are transforming tradition today Professor Wang Gungwu National University of Singapore **Crimes of the Centuries** Steven Chermak Ph.D.,Frankie Y. Bailey,2016-01-25 This multivolume resource is the most extensive reference of its kind offering a comprehensive summary of the misdeeds perpetrators and victims involved in the most memorable crime events in American history This unique reference features the most famous crimes and trials in the United States since colonial times Three comprehensive volumes focus on the most notorious and historically significant crimes that have influenced America s justice system including the life and wrongdoing of Lizzie Borden the bombing of the Sixteenth Street Baptist Church the killing spree and execution of Ted Bundy and the Columbine High School shootings Organized by case the work includes a chronology of major unlawful deeds fascinating primary source documents dozens of sidebars with case trivia and little known facts and an overview of crimes that have shaped criminal justice in the United States over several centuries Each of the 500 entries provides information about the crime the perpetrators and those affected by the misconduct along with a short bibliography to extend learning opportunities The set addresses a breadth of famous trials across American history including the Salem witch trials the conviction of Sacco and Vanzetti and the prosecution of O J Simpson Documentary Filmmaking in Contemporary Brazil Gustavo Procopio Furtado,2019 This book examines the vibrant field of documentary filmmaking in Brazil from the transition to democracy in 1985 to the present Marked by significant efforts toward the

democratization of Brazil's highly unequal society this period also witnessed the documentary's rise to unprecedented vitality in quantity, quality, and diversity of production which includes polished auteur films as well as rough hewn collaborative works, films made in major metropolitan regions as well as in indigenous villages and in remote parts of the Amazon, intimate first person documentaries as well as films that dive headfirst into struggles for social justice. The transformations of Brazilian society and of filmmaking coalesce and become entangled in this cinema's preoccupation with archives. Historically linked to the exercise and maintenance of power, the concept of the archive is critical for the documentary as a cultural practice that preserves images from the present for the future, unearths and repurposes visual materials from the past and is historically invested in filmic images as records of the real. Contemporary films incorporate, reflect on, and rework a variety of archives such as documents produced by official institutions, ethnographic images, home movies, and photo albums, and engage not only with what is preserved but also with lacunas in the record and with alternate forms of remembering, retrieving, and transmitting the past. Through its interaction with archives, this book argues the contemporary documentary reflects on and intervenes in the distribution of visibilities and invisibilities, centers and margins, silences and speech, living memory and its preservation in the record, thus locating the documentary on archival borders that concern Brazilian society and filmmaking alike.

A Book about the Film Monty Python's Life of Brian Darl Larsen, 2018-02-15 As a follow up to their first true feature film *Monty Python and the Holy Grail*, the comic troupe next decided to tackle a shadow version of the Christ story. Shot in the Middle East and produced during Margaret Thatcher's ascendant years, the film satirized, among other matters, authoritarianism and religious zealotry. Upon its release, *Monty Python's Life of Brian* was both a critical and commercial success and has been since hailed as one of the greatest comedies of all time. But the film also faced backlash from religious groups for its blasphemy, perceived or otherwise. In *A Book about the Film Monty Python's Life of Brian*, All of the References from Assyrians to Zeffirelli, Darl Larsen identifies and examines the plethora of cultural, historical, and topical allusions in the film. In this resource, Larsen delineates virtually every allusion and reference that appears in the film from first century Jerusalem through 1970s Great Britain. Organized chronologically by scene, the entries in this cultural history cover literary and metaphoric allusions, symbolisms, names, peoples, and places, as well as the many social, cultural, and historical elements that populate this film. By closely examining each scene, this book explores the Pythons' comparisons of the Roman and British Empires and of Pilate and Margaret Thatcher. In addition, Larsen helps to situate *Life of Brian* in the Jesus re-examination of the postwar period while also taking a close look at the terror groups of first century Judea and the modern world. *A Book about the Film Monty Python's Life of Brian* will appeal to scholars of history, film, British culture, and pop culture, as well as to the many fans of this iconic group.

Journal of the House of Representatives of the United States United States Congress, House, 2007 Some vols include supplemental journals of such proceedings of the sessions as during the time they were depending were ordered to be kept secret and respecting which the injunction of secrecy was afterwards

taken off by the order of the House Queer Sinister Things: The Hidden History of Iran Tomas B. Phillips, 2011-02-16
Phillips delivers a refreshingly honest and deeply compelling narrative of the history of modern Iran With the feel of a great historical novel Phillips pierces through the ideological biases which have shaped our understanding of the Middle East Cold War and the Iranian people On every page we witness the complexity of governing a developing nation torn internally by the demands of liberal constitutional republicans radical Socialists and radical Islamists and externally between the opposing powers of East and West In *Queer Sinister Things* Phillips bypasses the version of events dominant in today's academic and media circles relying instead on the stories provided by those who documented developments in and about Iran as they happened This living history highly recommended for students educators journalists policy makers and lovers of history everywhere will forever change your understanding of this ancient land and its people *Women and Capital Punishment in the United States* David V. Baker, 2015-12-07 The history of the execution of women in the United States has largely been ignored and scholars have given scant attention to gender issues in capital punishment This historical analysis examines the social political and economic contexts in which the justice system has put women to death revealing a pattern of patriarchal domination and female subordination The book includes a discussion of condemned women granted executive clemency and judicial commutations an inquiry into women falsely convicted in potentially capital cases and a profile of the current female death row population
