Conduct Unbecoming Scott Baron, James Wise, Jr., 2016-03-18 Men and women who serve in the armed forces are subject to a different legal code than those they protect Throughout American history some have through action or failure to act or by circumstances found themselves facing prosecution by the United States military One measure of a nation's sense of justice is how it treats those who surrender some of their rights to defend the rights of fellow citizens Beginning with the first court martial predating the nation itself and continuing to the recent wars in Iraq and Afghanistan and the War on Terror this book examines the proceedings of 15 courts martial that raised such important legal questions as When does advocacy become treason Who bears ultimate responsibility when troops act illegally What are the limits in protesting injustice The defendants include such familiar names as Paul Revere and William Calley The authors examine such overlooked cases as the Somers Mutiny the trial of the San Patricios and the Port Chicago Mutiny These trials demonstrate that guaranteeing military justice especially in the midst of armed conflict is both a challenge and a necessity in a free society

Translating Guilt Cassandra Steer, 2017-02-26 This book seeks to understand how and why we should hold leaders responsible for the collective mass atrocities that are committed in times of conflict It attempts to untangle the debates on modes of liability in international criminal law ICL that have become truly complex over the last twenty years and to provide a way to identify the most appropriate model for leadership liability A unique comparative theory of ICL is offered which clarifies the way in which ICL develops as a patchwork of different domestic criminal law notions This theory forms the basis for the comparison of some influential domestic criminal law systems with a view to understanding the policy and cultural reasons for their differences There is a particular focus on the background of the German law which has influenced the International Criminal Court so much recently This helps to understand and seek a solution to the current impasses in the debates on which model of liability should be applied An entire chapter of the book is devoted to considering why leaders should be held responsible for crimes committed by their subordinates from legal moral and pragmatic perspectives The moral responsibility of leaders is translated into criminal liability and the different domestic models of liability are translated to the international context in such a way as to appeal to advanced students of ICL academics and practitioners who want to understand the complexities of leadership liability in international criminal law today and identify the best way to approach it Cassandra Steer is Executive Director of Women in International Security Canada and Junior Wainwright Fellow at McGill

University Canada She holds a Ph D in Law from the University of Amsterdam The Netherlands **Conspiring with the Enemy** Yvonne Chiu,2019-10-08 Despite the strong influence of just war theory in military law and practice warfare is commonly considered devoid of morality Yet even in the most horrific of human activities there is frequent communication and cooperation between enemies One remarkable example is the Christmas truce unofficial ceasefires between German and English trenches in December 1914 in which soldiers even mingled in No Man s Land In **Conspiring with the Enemy** Yvonne Chiu offers a new understanding of why and how enemies work together to constrain violence in warfare Chiu argues that what she calls an ethic of cooperation is found in modern warfare to such an extent that it is often taken for granted The importance of cooperation becomes especially clear when wartime ethics reach a gray area To whom should the laws of war apply Who qualifies as a combatant Should guerrillas or terrorists receive protections Fundamentally Chiu shows the norms of war rely on consensus on the existence and content of the laws of war In a wide ranging consideration of pivotal instances of cooperation Chiu examines weapons bans treatment of prisoners of war and the Geneva Conventions as well as the tensions between the ethic of cooperation and the pillars of just war theory An original exploration of a crucial but overlooked phenomenon **Conspiring with the Enemy** is a significant contribution to military ethics and political philosophy

The War Criminal's Son Jane Singer,2019-05-01 **The War Criminal's Son** brings to life hidden aspects of the Civil War through the sweeping saga of the firstborn son in the infamous Confederate Winder family who shattered family ties to stand with the Union Gen John H Winder was the commandant of most prison camps in the Confederacy including Andersonville When Winder gave his son William Andrew Winder the order to come south and fight desert or commit suicide William went to the White House and swore his allegiance to President Lincoln and the Union Despite his pleas to remain at the front it was not enough Winder was ordered to command Alcatraz a fortress that became a Civil War prison where he treated his prisoners humanely despite repeated accusations of disloyalty and treason because the Winder name had become shorthand for brutality during an already brutal war John Winder died before he could be brought to justice as a war criminal Haunted by his father s villainy William went into a self imposed exile for twenty years and eventually ended up at the Rosebud Reservation in South Dakota to fulfill his longstanding desire to better the lot of Native Americans In **The War Criminal's Son** Jane Singer evokes the universal themes of loyalty shame and redemption in the face of unspeakable cruelty [Trials for International Crimes in Asia](#) Kirsten Sellars,2015-10-22 The issue of international crimes is highly topical in Asia with still resonant claims against the Japanese for war crimes and deep schisms resulting from crimes in Bangladesh Cambodia and East Timor Over the years the region has hosted a succession of tribunals from those held in Manila Singapore and Tokyo after the Asia Pacific War to those currently running in Dhaka and Phnom Penh This book draws on extensive new research and offers the first comprehensive legal appraisal of the Asian trials As well as the famous tribunals it also considers lesser known examples such as the Dutch and Soviet trials of the Japanese the Cambodian trial of the Khmer Rouge and the

Indonesian trials of their own military personnel It focuses on their approach to the elements of international crimes and their contribution to general theories of liability In the process this book challenges some orthodoxies about the development of international criminal law
