Reforming the Scottish Parish John McCallum, 2016-04-08 The Protestant Reformation of 1560 is widely acknowledged as being a watershed moment in Scottish history However whilst the antecedents of the reform movement have been widely explored the actual process of establishing a reformed church in the parishes in the decades following 1560 has been largely ignored This book helps remedy the situation by examining the foundation of the reformed church and the impact of Protestant discipline in the parishes of Fife In early modern Scotland Fife was both a distinct and important region containing a preponderance of coastal burghs as well as St Andrews the ecclesiastical capital of medieval Scotland It also contained many rural and inland parishes making it an ideal case study for analysing the course of religious reform in diverse communities Nevertheless the focus is on the Reformation rather than on the county and the book consistently places Fife's experience in the wider Scottish British and European context Based on a wide range of under utilised sources especially kirk session minutes the study's focus is on the grass roots religious life of the parish rather than the more familiar themes of church politics and theology It evaluates the success of the reformers in affecting both institutional and ideological change and provides a detailed account of the workings of the reformed church and its impact on ordinary people In so doing it addresses important questions regarding the timescale and geographical patterns of reform and how such dramatic religious change succeeded and endured without violence or indeed widespread opposition

Archibald Simpson's Unpeaceable Kingdom Peter N. Moore, 2018-04-05 This book draws on the life of Presbyterian minister and diarist Archibald Simpson 1734-1795 to examine the history of evangelical Protestantism in South Carolina and the British Atlantic during the last half of the eighteenth century Although he grew up in the evangelical heartland of Scotland in the wake of the great mid century revivals Simpson spurned revivalism and devoted

himself instead to the grinding work of the parish ministry At age nineteen he immigrated to South Carolina where he spent the next eighteen years serving slaveholding Reformed congregations in the lowcountry plantation district Here powerful planters held sway over slaves families churches and communities and Simpson was constantly embattled as he sought to impose an evangelical order on his parishes In refusing to put the gospel in the pockets of planters who scorned it and who were accustomed to controlling their parish churches he earned their enmity As a result every relationship was freighted with deceit and danger and every practice sermons funerals baptisms pastoral visits death narratives sickness courtship friendship domestic concerns was contested and politicized In this context the cause of the gospel made little headway in Simpson s corner of the world Despite the great midcentury revivals the steady stream of religious dissenters who poured into the province and all the noise they made about slave conversions Simpson s story suggests that there was no evangelical movement in colonial South Carolina just a tired and frustrating evangelical slog
