Annandale: A Short Walk Marghanita da Cruz, 2014-06-30 1920s Annandale was a busy place There was the retail strip along Parramatta Road the timber businesses on the harbour In between there were builders fibrous plasterers stonemasons and the Pictures Confectionery Jam Pianos and Radios were all being made in Annandale Though change was coming motor vehicles were crashing into pedestrians and posts and injuring their occupants Annandale remembered those who did not return from the War The Angel of Durban came to say hello to some who did Annandale is a small suburb in Sydney whose

history dates back to the arrival of the first fleet in Australia 1920s Annandale is the fourth book in a series of walks Each book covers a decade of Annandale s History Marghanita da Cruz has been recording an Anecdotal History of Annandale since 1998 Marghanita guided this short walk at the 2014 Annandale Heritage Festival *What's Beyond That Star* Richard Leviton,2002-08-29 Carlos Castaneda meets Jack Kerouac in an unforgettable true story a metaphysical quest for the Grail through initiation and inner vision Disillusioned with his life as an entrepreneur in the mid 1980s Richard Leviton headed for the ancient Celtic town of Glastonbury England on a quest for meaning Arriving on Easter Sunday his rebirth as a modern Grail knight was soon to begin What s Beyond That Star records the true story of Leviton s spiritual awakening and his subsequent adventures on a metaphysical search for the Holy Grail tracing his inner and outer journeys Guided by a psychic friend and the family of angels whom he comes to know as Blaise Leviton finds himself initiated into new realms of consciousness One day he is an ordinary person relying on the relatively dense perception of the five senses the next he is living in a world full of angels gnomes demons and dragons **Theosophon 2033** Richard Leviton,2015-08-20 Its September 29 2033 and the Earth and humanity have entered a cathedral of Light 1 000 light years tall and wide One Saturday morning in June 2040 Boston editor Edward Burbage is visited by an enigmatic traveller calling himself Blaise Hes been off the planet for 20 years helping to orchestrate a unique event called the Theosophon Now hes here to tell his story and what happened in 2033 when Earth reality changed This Blaisehes clearly a human age about 90 yet hes not in a human body anymore at least not a physical one He claims to have spent much of the last 20 years commuting from his home planet in the Celaeno system in the Pleiades to Earth Why the Pleiades Because thats where the prime designers of the Earth reside and the Theosophon a kind of galactic musical event a song fest of the gods is the next step in the perfection of this design for consciousness The only reason Burbage believes him is that he has had a bit of a wild adventure himself Copies of his newly published book describing this sit on his coffee table Hes seen this intriguing Blaise a few times in the past and in fact hes edited two of his posthumous books Burbage notes It wasnt that Blaise had a mystery to reveal to me he was the mystery Everything about him As the narration ripens over the next three years Burbage is astonished to learn he was a key participant in the event even though up until this moment he had no memory of it Blaise changes all that The Theosophon he says was like a subtle slow motion psychic earthquake rumbling just beyond the border of normal perception like a band of angels were shaking the Earth It lasted a day in terms of peak intensity but it is still happening years later **The Blaise Conjunction** Richard Leviton,2013-07-18 The councilors had placed a book upon the table its cover pale blue edged in silver The title was The Theosophon They slid it towards me Philomena Wilcox Ph D retired professor of music pianist passionate devotee of Russian composers like Scriabin and Rachmaninov thinks she is merely editing a series of prolix journals by the desert recluse Blaise One day in 2029 she took delivery of 7 000 pages of his arcane diary entries spanning a 20 year period His storywhat he thinks and writes aboutis exceedingly odd mystical and perplexing He is anticipating a planetary event to

take place in 2033 Soon enough Philomena discovers she impossibly is part of this story in fact will be a keystone in this epochal event Its as if through the journal pages Blaise talks directly to her and pulls her into his world of wisdom angels geomantic patterns and designer planets The pages are encoded with activation triggers Over a three year period she starts to remember her true story her astonishing past Its a nonstop tutorial in the Mysteries Taught by the human Blaise and his angelic mentors also called Blaise seemingly right now in the present moment Except upwards of 35 years or more separate them in the world of linear time Her familiar world starts to fall apart The event is called the Theosophon Blaise writes about it but she designed it Thats startling enough but Philomena is astonished to remember that she designed it eons ago in another galaxy The Earth was created as a performance stage for it The Theosophon is a multidimensional musical event involving the collective consciousness of humanity the Earth and the spiritual world The overture of the fulfillment of the purpose of the Earth and humanity Yes Philomena is an integral part of this unique event but it will cost her more than she ever thought possible

Laws of the State of New York Passed at the ... Session of the Legislature New York (State),1896 **The Hierophancy Files** Richard Leviton,2018-09-27 Beneath the surface details of our planet lies a numbers matrix and somebody just stole its key putting our world in jeopardy In 2050 geomancers and Light grid engineers at the Hierophancy in Sun Valley Idaho perfected an algorithm that runs all the Earth s psychic affairs In 2065 somebody stole it This is the account of how they got it back They had to get it back because in the wrong hands this math formula could take over or end the planet The Hierophancy is a secret group that works with the planet s subtle energy terrain You ll know its outer expression as a landscape of sacred sites Their job is to reveal the Holy Light that comes out of these many nodes and to fix it when there s a problem Why They re Hierophants think of them as engineers of the planet s Light grid In April 2065 they discovered there was problem a big one Hierophancy staff member Frederick Atkinson narrates what they did about it It s a fairly wild ride involving unsuspected levels of planetary reality routine cooperation of extraterrestrial colleagues lots of angels Ascended Masters and even a guest consultation with the Chief Architect of All Reality The result is a concentrated detective hunt across time and space to find that stolen mathematics The quest for the stolen arithmetic takes the team to sites in Bolivia Canada Japan and Iceland and back to the planet s earliest days and other key moments in its geomantic life as they probe

the engineering intricacies that comprise the Earth's esoteric reality. An awful lot is at stake namely the fate of five related planets across this and other galaxies because they're directly tied into the Earth and they need those numbers back too.

Welcome to Your Designer Planet! Richard Leviton, 2007-09-05 We now live in the time of the Gaian hierophant. This is the one who reveals and shows us how to relate to the sacred aspects of Gaia, our planet. Who is this hierophant? Each of us when we join the campaign with Gaia against the desecration of our natural environment. But first we have to discover what the Earth really is. The Earth's thousands of sacred sites hold a secret: they are functional parts of the planet's geomantic body consciousness nodes in the Earth's subtle body. Each veils a Light temple, each once known widely and remembered in myth. And *Welcome to Your Designer Planet* documents 165 different kinds. The Earth is not an accident of the cosmos but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness. And the designers intended that humans help maintain it. Want to help the ecosystem and modulate global warming and climate change? Plug yourself into the Earth's Light grid through your nearest sacred site and start helping Earth Mysteries researcher Richard Leviton presents a working model of the Earth's geomantic reality based on 24 years of research. The world's myths are the doorway into this fantastic domain of the Earth's visionary geography showing us where to go and what to do and even what kinds of spiritual beings to expect to see. The future of the Earth is in our hands. Here are some pages from its design manual showing us how to fine-tune our wonderful host planet.

Routes and Rates for Summer Tours ... Rome, Watertown & Ogdensburg Railroad Company, 1886 **Jerusalem** William Blake, 1904 Blake: The Complete Poems W.H. Stevenson, 2014-05-12 William Blake 1757-1827 is one of the great figures in literature by turns poet, artist and visionary. Profoundly libertarian in outlook, Blake's engagement with the issues of his day is well known and this along with his own idiosyncratic concerns flows through his poetry and art. Like Milton before him, the prodigality of his allusions and references is little short of astonishing. Consequently his longer visionary poems can challenge the modern reader who will find in this avowedly open edition all they might need to interpret the poetry. W.H. Stevenson's Blake is a masterpiece of scrupulous scholarship. It is as the editor makes clear in his introduction designed to be widely and fluently read and this Third Edition incorporates many changes to further that aim. Many of the headnotes have been rewritten and the footnotes updated. The full texts of the early prose tracts *All Religions are One* and *There is no Natural Religion* are included for the first time. In many instances Blake's capitalisation has been restored better to convey the expressive individuality of his writing. In addition a full colour plate section contains a representation of Blake's most significant paintings and designs. As the 250th anniversary of his birth approaches, Blake has perhaps more readers than ever before. *Blake: The Complete Poems* will stand those readers new and old in good stead for many years to come.

understand that at one level we are the planet and that both we and it have an intimate relationship with our galaxy I found myself living inside the myths of the world as if they were expert scripts for real life inner adventures I never once thought I was crazy Why should I Quite the opposite I believed I was finally getting grounded in something real But it would take me twenty years to make sense of it That sense is embodied in The Emerald Modem The Emerald Modem includes direct correspondences between human chakras and the Earth s energy features and the galactic originalstables listing locations of sacred sites around the planet where you may experience this relationshipexplanations of world myths which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception sacred sites energy points vertexes etc into a global interactive model that ties human consciousness directly to it Leviton describes 85 subtle features in the planetary landscape places you can go for mystical experiences They are features of the Earth s energy body almost all invisible to conventional sight But psychic cognition can be trained and you can usefully interact with any of these types of sites today without seeing what you re doing Your intent to interact for the benefit of yourself and the planet is all that s required Just as modems dial us into the Internet so the features of the Earth s energy body described in The Emerald Modem help us get online with the galaxy You can learn to visit Grail Castles experience a Mount Olympus or walk through the stars in a landscape zodiac and you can learn enough to become confident that you re not traveling alone
