

The background of the book cover is a deep green. It is decorated with numerous thin, white, curved lines that sweep across the page from the bottom left towards the top right. These lines are more densely packed on the right side. In the upper right corner, there is a series of small, white, circular dots that appear to be the endpoints of the curved lines, creating a sense of motion or a trail.

Wallace Stevens And The Limits Of:

Wallace Stevens and the Limits of Reading and Writing Bart Eeckhout, 2002 Often considered America's greatest twentieth century poet Wallace Stevens is without a doubt the Anglo modernist poet whose work has been most scrutinized from a philosophical perspective Wallace Stevens and the Limits of Reading and Writing both synthesizes and extends the critical understanding of Stevens's poetry in this respect Arguing that a concern with the establishment and transgression of limits goes to the heart of this poet's work Bart Eeckhout traces both the limits of Stevens's poetry and the limits of writing as they are explored by that poetry Stevens's work has been interpreted so variously and contradictorily that critics must first address the question of limits to the poetry's signifying potential before they can attempt to deepen our appreciation of it In the first half of this book the limits of appropriating and contextualizing Stevens's *The Snow Man* in particular are investigated Eeckhout does not undertake this reading with the negative purpose of disputing earlier interpretations but with the more positive intention of identifying the intrinsic qualities of the poetry that have been responsible for the remarkable amount of critical attention it has received

The Academic Avant-Garde Kimberly Quogue Andrews, 2023-01-10 The surprising story of the relationship between experimental poetry and literary studies In *The Academic Avant Garde* Kimberly Quogue Andrews makes a provocative case for the radical poetic possibilities of the work of literary scholarship and lays out a foundational theory of literary production in the context of the university In her examination of the cross pollination between the analytic humanities and the craft of poetry writing Andrews tells a bold story about some of today's most innovative literary works This pathbreaking intervention into contemporary American literature and higher education demonstrates that experimental poetry not only reflects nuanced concern about creative writing as a discipline but also uses the critical techniques of scholarship as a cornerstone of poetic practice Structured around the concepts of academic labor such as teaching and methodological work such as theorizing the book traces these practices in the works of authors ranging from Claudia Rankine to John Ashbery providing fresh readings of some of our era's most celebrated and difficult poets

The Limits of Imagination Helen Regueiro, 2019-06-30 This subtle tightly woven study treats the dialectical relationship of imagination and reality in three major poets and through them in the poetry of the past two centuries Professor Regueiro traces the modern poet's attempt to balance imagination and reality his withdrawal from the external and absorption in self consciousness and his ultimate recognition of the temporal and the natural as the only realms where the imagination may survive Through her study of Wordsworth Yeats and Stevens she envisions the modern poet as he comes to recognize the dangers and the limits of the imagination in his dealings with the real world and to accept and affirm the tensions that allow poetry to exist

A Companion to Modernist Literature and Culture David Bradshaw, Kevin J. H. Dettmar, 2008-10-20 *The Companion* combines a broad grounding in the essential texts and contexts of the modernist movement with the unique insights of scholars whose careers have been devoted to the study of modernism An essential

resource for students and teachers of modernist literature and culture Broad in scope and comprehensive in coverage Includes more than 60 contributions from some of the most distinguished modernist scholars on both sides of the Atlantic Brings together entries on elements of modernist culture contemporary intellectual and aesthetic movements and all the genres of modernist writing and art Features 25 essays on the signal texts of modernist literature from James Joyce's *Ulysses* to Zora Neal Hurston's *Their Eyes Were Watching God* Pays close attention to both British and American modernism The New Wallace Stevens Studies Bart Eeckhout, Gül Bilge Han, 2021-07-08 The *New Wallace Stevens Studies* introduces a range of fresh voices and promising topics to the study of this great American poet It is organized into three sections The first explores concepts that have begun to emerge in Stevens criticism imperialism and colonialism his politics of utopia his ideas about community building and audience his secularism and his transnationalism The second section applies recent methodological and theoretical advances that have left a prominent mark on literary studies from world literature and ecocriticism to urban studies queer studies intersectional thinking and cognitive literary studies Essays in the third section reassess issues that have long inspired critics Here investigations include Stevens's reception by later poets his attitude toward modern fiction different modes of his poetic thinking aspects of his rhetoric and style and his lyrical ethics This volume captures a cross section of the most striking recent developments in Stevens criticism *Modernism Revisited*, 2015-06-29 Offering essays from some of the leading academic writers and younger scholars in the field of American studies from both the United States and Europe this volume constitutes a rich and varied reconsideration of Modernist American poetry Its contributions fall into two general categories new and original discussions of many of the principal figures of the movement Frost Pound Eliot Williams Cummings and Stevens and reflections on the phenomenon of Modernism within a broader cultural context the influence of Haiku parallels and connections with Surrealism responses to the Modernist accomplishment by later American poets Because of its mixture of European and American perspectives *Modernism Revisited* will be of vital interest to students and scholars of American literature and Modernism in general and of twentieth century comparative literature and art The Cambridge History of Modernism Vincent Sherry, 2017-01-11 This *Cambridge History of Modernism* is the first comprehensive history of modernism in the distinguished *Cambridge Histories* series It identifies a distinctive temperament of modernism within the modern period establishing the circumstances of modernized life as the ground and warrant for an art that becomes modernist by virtue of its demonstrably self-conscious involvement in this modern condition Following this sensibility from the end of the nineteenth century to the middle of the twentieth tracking its manifestations across pan-European and transatlantic locations the forty-three chapters offer a remarkable combination of breadth and focus Prominent scholars of modernism provide analytical narratives of its literature music visual arts architecture philosophy and science offering circumstantial accounts of its diverse personnel in their many settings These historically informed readings offer definitive accounts of the major work of twentieth century cultural history and provide a

new cornerstone for the study of modernism in the current century *Modernism and Still Life* Claudia Tobin, 2020-03-02
 This book takes an original approach to still life in modern literature and the visual arts by examining the potential for movement and transformation in the idea of stillness and the ordinary **Phenomenology, Modernism and Beyond**
 Carole Bourne-Taylor, Ariane Mildenberg, 2010 From the first stirrings of modernism to contemporary poetics the modernist aesthetic project could be described as a form of phenomenological reduction that attempts to return to the invisible and unsayable foundations of human perception and expression prior to objective points of view and scientific notions It is this aspect of modernism that this book brings to the fore The essays presented here bring into focus the contemporary face of ongoing debates about phenomenology and modernism The contributors forcefully underline the intertwining of modernism and phenomenology and the extent to which the latter offers a clue to the former The book presents the viewpoints of a range of internationally distinguished critics and scholars with diverse but closely related essays covering a wide range of fields including literature architecture philosophy and musicology The collection addresses critical questions regarding the relationship between phenomenology and modernism with reference to thinkers such as Edmund Husserl Maurice Merleau Ponty Martin Heidegger Michel Henry and Paul Ricoeur By examining the contemporary philosophical debates this cross disciplinary body of research reveals the pervasive and far reaching influence of phenomenology which emerges as a heuristic method to articulate modernist aesthetic concerns Restless Secularism Matthew Mutter, 2017-01-01 Cover Half

Approaches to American Cultural Studies Antje Dallmann, Eva Boesenberg, Martin Klepper, 2016-05-20 Approaches to American Cultural Studies provides an accessible yet comprehensive overview of the diverse range of subjects encompassed within American Studies familiarising students with the history and shape of American Studies as an academic subject as well as its key theories methods and concepts Written and edited by an international team of authors based primarily in Europe the book is divided into four thematically organised sections The first part delineates the evolution of American Studies over the course of the twentieth century the second elaborates on how American Studies as a field is positioned within the wider humanities and the third inspects and deconstructs popular tropes such as myths of the West the self made man Manifest Destiny and representations of the President of the United States The fourth part introduces theories of society such as structuralism and deconstruction queer and transgender theories border and hemispheric studies and critical race theory that are particularly influential within American Studies This book is supplemented by a companion website offering

further material for study www.routledge.com/cw/dallmann Specifically designed for use on courses across Europe it is a clear and engaging introductory text for students of American culture **Affect, Psychoanalysis, and American Poetry** John Steen, 2018-07-12 Poetry has often been defined by its closure its condensation of meaning and value into discrete self-referential textual objects *Affect Psychoanalysis and American Poetry* challenges the dominant metaphor of poetic containers by turning to recent poetic texts that represent the contagious and uncontainable feelings of anxiety grief shame and rage From modernists Wallace Stevens to mid-century poets Randall Jarrell Robert Creeley and Ted Berrigan and finally to contemporary practitioners Aaron Kunin and Claudia Rankine John Steen argues that new poetic techniques arise from the poetic productivity of negative affects and that a new model of poetic value can be found in poems that are instead of containers permeable social spaces of intimacy attachment and withdrawal Drawing from object relations psychoanalysis queer theory and affect theory *Affect Psychoanalysis and American Poetry* finds poetry's singularity in its unique capacity to represent anew the transmissible relational and uncontainable valences of feeling that structure and destabilize social life

Physics and the Modernist Avant-Garde Rachel Fountain Eames, 2023-02-09 Developing a reading of modernist poetics centred on the three-way relationship between literature modern physics and avant-garde art movements this book focuses on four key poets William Carlos Williams Mina Loy the Baroness Elsa von Freytag Loringhoven and Wallace Stevens whose lives crossed paths in 20th-century New York This book explores how modernist art movements have shaped these writers thinking about physics in relation to their work demonstrating how science's new ideas about measurement and how to visualize material reality provoked innovative poetic forms and images From Einstein's visit to New York City in 1921 to the impact of the atomic bomb the author traces the flow of ideas about physics through culture linking the new physics with modern approaches to art found in Cubism Futurism Dada and Surrealism **The Ocean, the Bird, and the Scholar** Helen Vendler, 2015-05-11 A Times Higher Education Book of the Week One of our foremost commentators on poetry examines the work of a broad range of nineteenth and twentieth-century English Irish and American poets *The Ocean the Bird and the Scholar* gathers two decades worth of Helen Vendler's essays book reviews and occasional prose including the 2004 Jefferson Lecture in a single volume It's one of Vendler's finest books an impressive summation of a long distinguished career in which she revisits many of the poets she has venerated over a lifetime and written about previously Reading it one can feel her happiness in doing what she loves best There is scarcely a page in the book where there isn't a fresh insight about a poet or poetry Charles Simic New York Review of Books Vendler has done perhaps more than any other living critic to shape I might almost say create our understanding of poetry in English Joel Brouwer New York Times Book Review Poems are artifacts and Vendler shows us often thrillingly how those poems she considers the best specimens are made A reader feels that she has thoroughly absorbed her subjects and conveys her understanding with candor clarity wit John Greening Times Literary Supplement **Fictions of Autonomy** Andrew Goldstone, 2013-02-21 *Fictions of Autonomy* presents a

revisionary account of aesthetic autonomy and transnational modernism with a range of readings that includes works by Wilde Eliot Joyce Barnes and Stevens alongside writings by theorists like Adorno and de Man **Unlikely Muse** Daniel Kornstein,2010 This trail blazing book explores previously uncharted aspects of law and literature as well as the psychology paradoxes and wonderful mystery of creativity A study of artistic inspiration Unlikely Muse examines and analyzes the lives and works of three very different writers who combine law literature and imagination nineteenth century French novelist Honor de Balzac modernist American poet Wallace Stevens and controversial playwright memoirist Lillian Hellman From the literary careers of those three writers emerge two intertwined and exciting new themes The first theme demonstrates unexpected synergy between law and literature Opening original lines of inquiry Unlikely Muse probes the possible relationship between legal training and artistic creativity A surprisingly large number of great creative artists writers such as Balzac poets such as Stevens painters such as Matisse and composers such as Tchaikovsky studied or practiced law This book asks whether such people became great creative artists because of or despite their legal background Others such as Hellman had no legal training but wrote much about the law This book sketches the intellectual atmosphere and biographical background that shaped these three writers creative process highlighting the impact of the law on their work The second theme uses these same three writers to focus on the changing role of imagination in literature From Balzac through Stevens to Hellman and beyond the author traces imagination s arc from a positive artistic quality to something that is sometimes more controversial perhaps deceitful and negative In the last few decades ever since Hellman s memoirs were attacked as untrue journalists memoirists and other writers have palmed off works of fiction as non fiction often causing literary scandals This book offers a new theory why this phenomenon is happening and how it should be regarded [A History of Modernist Poetry](#) Alex Davis, Lee M. Jenkins,2015-04-27 A History of Modernist Poetry examines innovative anglophone poetries from decadence to the post war period The first of its three parts considers formal and contextual issues including myth politics gender and race while the second and third parts discuss a wide range of individual poets including Ezra Pound T S Eliot W B Yeats Mina Loy Gertrude Stein Wallace Stevens William Carlos Williams and Marianne Moore as well as key movements such as Imagism Objectivism and the Harlem Renaissance This book also addresses the impact of both World Wars on experimental poetries and the crucial role of magazines in disseminating and proselytizing on behalf of poetic modernism The collection concludes with a wide ranging discussion of the inheritance of modernism in recent writing on both sides of the Atlantic [Blowing Clover, Falling Rain](#) W. Travis Helms,2020-11-06 The field of theopoetics explores the ways in which we make God present particularly through language This book explores questions of theopoetics as they relate to the central poetry of the American Sublime It offers a fresh theological engagement with what literary critic Harold Bloom terms the American religion transcendentalism Emerson s homespun mysticism Specifically it seeks to rehabilitate Emerson s concept of self reliance from the charge of gross egoism by situating it in the context of normative mysticisms Eastern and Western It

undertakes a more poetic approach to reading theologically inflected poetry by exegeting four poets collectively constituting Bloom's American religious canon Ralph Waldo Emerson Walt Whitman Wallace Stevens and Hart Crane It utilizes a modified version of the ancient fourfold allegorical mode of reading Scripture to draw out theological dimensions of four quintessential texts Nature Song of Myself Sunday Morning Lachrymae Christi in order to offer a more imaginative way of reading imaginative writing Building on Emerson's contention just as there is creative writing there is creative reading and Bloom's claim a theory of poetry must be poetry before it can be of any use in interpreting poems it demonstrates the unique viable ways in which poems are able to do theology and perform or embody theopoetic truths

Desperate Storytelling Roger B. Salomon, 2008-07-01 Desperate Storytelling demonstrates how writers from Byron to Saul Bellow have embraced Cervantes's vision of the artist as creative exile born to tell tales of valor and nobility yet doomed to recognize the world's banal reality Forced to portray adventure in a reductive voice these writers have immersed heroism in madness and narrative in mockery Their fictions reflect an awareness of life's absurdities yet a refusal to forsake the ideal Reassessing the post Romantic literary consciousness Roger B Salomon explores the many permutations of the mock heroic mode the complex aesthetic instrument brought into being by Cervantes one by which a writer takes on a dual role as both nostalgic creator and ironic critic The mock hero is almost by definition an outdated one aligning his deepest emotional attachments to dead mythologies and forgotten codes of ethics he is an alienated figure in a landscape hostile to the possibility of any kind of attainment Just as Don Quixote's noble madness in an ignoble age invites both sympathy and derision so later incarnations of the mock hero immerse the reader in a dialogue between the real and a faded ideal between the sensible and the admirable Describing a literary mode that joins heroic endeavor with its deflating results Desperate Storytelling traces the adventures of literature's misplaced heroes from Nabokov's Berlin to Saul Bellow's Chicago from James Joyce's Dublin to Mark Twain's Mississippi

Law and Literature Richard A. Posner, 2009-04-30 Law and Literature is the only book length treatment of a widely popular subject that is drawing considerable academic attention Leading legal scholar Richard Posner believes that courses and scholarship in law and literature provide an attractive alternative to courses and scholarship in jurisprudence philosophy of law especially since the study of literature can assist lawyers and judges by sharpening their rhetorical skills The revised edition features considerable new material including a consideration of plagiarism as well as discussions of novels that grapple with issues very pertinent today such as illegal immigration global warming bioterrorism surveillance artificial reproduction and virtual reality Posner also discusses the role of the law in popular literature movies and television
