Conversations at the Well Jung Eun Sophia Park, Teresa Maya, 2019-08-29 Are religious women in the United States disappearing and finally dying out Or is there any new way of religious life emerging Conversations at the Well tries to respond to this question In the twenty first century of the global world newly emerging religious life would be rooted with the Jesus Movement and develop in the spirit of collaboration networking and intercultural living As the liminal space religious life is located at the margins subverting the existing social order and creating a new vision for the world This book explores an alternative meaning of religious life within the context of the apostolic mission In this new religious life the concept of

community is not limited to living as a community in the convent but extended into collaborating friendship. Primarily the apostolic religious life is deeply related to social justice, delinking the global capitalism in which many people suffer from human trafficking, immigration and exile. The new leader of religious women would require skill in handling uncertainty, amplifying resources and opening to the new reality. In this new religious life, spirituality would be articulated as freedom and liberation to let go of the old frame as well as letting the new life become reality. In this way, as radical disciples, religious women in the twenty-first century embody the Jesus Movement, building bridges between different cultures and people.

Education, Identity and Women Religious, 1800-1950 Deirdre Raftery, Elizabeth M. Smyth, 2015-10-08. This book brings together the work of eleven leading international scholars to map the contribution of teaching Sisters who provided schooling to hundreds of thousands of children globally from 1800 to 1950. The volume represents research that draws on several theoretical approaches and methodologies. It engages with feminist discourses, social history, oral history, visual culture, post-colonial studies, and the concept of transnationalism to provide new insights into the work of Sisters in education. Making a unique contribution to the field, chapters offer an interrogation of historical sources as well as fresh interpretations of findings, challenging assumptions. Compelling narratives from the USA, Canada, New Zealand, Africa, Australia, South East Asia, France, the UK, Italy, and Ireland contribute to what is a most important exploration of the contribution of the women religious by mapping and contextualizing their work. *Education, Identity and Women Religious, 1800-1950*. Convents, classrooms, and colleges will appeal to academics, researchers, and postgraduate students in the fields of social history, women's history, the history of education, Catholic education, gender studies, and international education. Beyond the Altar Christine L.M. Gervais, 2018-04-26. *Beyond the Altar* illustrates how women religious overcome sexist subjugation by sidestepping the patriarchal power of the Roman Catholic Church. This book counters the stereotypical image of Catholic nuns as

being loyally compliant with their church by showing how a number of current and former women religious in Canada challenge their institutional religion's precepts and engage in transformative strategies to effect change both within and outside the Roman Catholic Church. The sisters' testimonials reveal never before shared details about their painful experiences of male domination, their courageous efforts to move beyond such sexist stifling, and the women-led and women-centered spiritual governance and activist practices they have engendered in the late twentieth and early twenty-first centuries. Featuring many examples of the sisters' resourcefulness, resilience, and resistance, this book fills a void in international scholarship on what Canadian Catholic women religious have endured and accomplished. Through interviews and in-depth accounts of the complexities and nuances present in the current and former sisters' lives, readers will discover their steadfast indomitability as they strategically and sometimes subversively innovate their spiritual spaces.
