Transition Without End Nigerian Politics And Civil Society Under Babangida:

Transition Without End Larry Diamond, Anthony Kirk-Greene, Oyeleye Oyediran, 2022 The authors examine the rise and fall of democratic transition and structural adjustment in Nigeria during the eight year regime of General Ibrahim Babangida 1985 1993 chronicling the country's descent from the promise of reform and renewal to an unprecedented political and economic depression *Transition Without End* Larry Diamond and Anthony Kirk-Greene, *Liberal Democracy and Its Critics in Africa* Tukumbi Lumumba-Kasonga, 2008-02-29 Democratic institutional forms and processes are increasingly widespread in Africa as dictatorial regimes have been forced to give way as a result of popular mobilization and external donor pressure However the premises of the African scholars whose empirical research and analytical explorations are included in this volume are that democratic form and democratic substance are two different things Western derived institutional forms are neither necessarily the most appropriate nor the most practical in the current African context and rooting democratic norms in the political cultures of African polities raises socio cultural issues with which political scientists must engage This book explores various critical questions in the context of particular elections and particular countries as diverse as Ghana Nigeria Kenya the Congo Cameroon and the Central African Republic They include the continuing impact of police state apparatuses following democratic transition factors influencing African voters attitudes and behaviour the impact of incumbency on electoral competition women's electoral participation the phenomenon of often very limited party programmatic choice in the context of huge social diversity and multi party competition and the controversial issues around the transplantation of liberal democratic institutions Underlying these issues is the fundamental question of whether democratic processes as currently practised in Africa are really making any significant difference to the African struggle for economic social and cultural progress This volume is valuable for the original perspectives of its African contributors the issues it explores and the concrete democratic experiences it analyses and the challenges it makes to the existing concepts paradigms and practices of liberal democracy **Breakdown and Reconstitution** Abu Bakarr Bah, 2005-01-01 Breakdown and Reconstitution analyzes the interplay between democratization nation state building and ethnicity in Nigeria as well as the challenges of transforming a post colonial multiethnic state into a stable democracy This work draws attention to the intrinsic relation between the breakdown of quasi democracy and the reconstitution of a more inclusive democracy and nation state Breakdown and Reconstitution is an essential source for scholars of politics in Africa *Civil Society, Conflict Resolution, and Democracy in Nigeria* Darren Kew, 2016-05-31 African nations have watched the recent civic dramas of the Arab Spring and Occupy Wall Street asking if they too will see similar civil society actions in their own countries Nigeria Africa's most populous nation has long enjoyed one of the continent's most vibrant civil society spheres which has been instrumental in political change Initially viewed as contributing to democracy's development however civil society groups have come under increased scrutiny by scholars and policymakers Do some civil society groups promote democracy more

effectively than others And if so which ones and why By examining the structure organizational cultures and methods of more than one hundred Nigerian civil society groups Kew finds that the groups that best promote democratic development externally are themselves internally democratic Specifically the internally democratic civil society groups build more sustainable coalitions to resist authoritarian rule support and influence political parties more effectively articulate and promote public interests in a more negotiable fashion and most importantly inculcate democratic norms in their members which in turn has important democratizing impacts on national political cultures and institutions Further internally democratic groups are better able to resolve ethnic differences and ethnic based tensions than their undemocratically structured peers This book is a deeply comprehensive account of Nigerian civil society groups in the late twentieth and early twenty first centuries Kew blends democratic theory with conflict resolution methodologies to argue that the manner in which groups and states manage internal conflicts provides an important gauge as to how democratic their political cultures are The conclusions will allow donors and policymakers to make strategic decisions in their efforts to build a democratic society in Nigeria and other regions

Conspiracy of Silence Azukaoma Uche Osakwe, 2022-08-28 Nigeria is rife with divisions particularly between Christians and Muslims Both groups aim at converting others and so they are in direct conflict with each other The bitterness came to a head when Goodluck Jonathan a Christian succeeded his former boss Musa Yar Adua upon his death Jonathan would serve as president from 2010 to 2015 The northern oligarchy was infuriated because they depended on rent and patronage which they knew would not be feasible under a Christian president They employed every tactic they could to destabilize his regime and in 2015 he lost the presidential election to the former military head of state Gen Muhammadu Buhari In this book the author lays out how politics in Nigeria is no longer based on what politicians can do for the community Rather the focus is on what they can do for themselves There is no more catching fish for God The religion they follow is based on stealing from the people Buhari was presented as an agent of change but his seven years in charge have only brought pain bloodshed anarchy and more turmoil Something must be done to move Nigeria away from the precipice Praise for Conspiracy of Silence Azukaoma Uche Osakwe s book is another in a growing list of sad narratives on the failure of leadership in Nigeria under the leadership of Muhammadu Buhari s Administration The book painstakingly combs through the many ills of Nigerian society under Buhari and the collapse of such institutions as the police army electoral body government officials and the various ethnic nationalities He accuses these people of conspiring to stay mum amid terrible governance The author charges the citizenry as well as the Igbo Nation which he says are marginalized to buckle up and take what remains of their destiny in their own hands Jude Atupulazi editor in chief Fides Newspaper Awka Nigeria Conspiracy of Silence this book must necessarily take a long title It would indeed be difficult to capture the Muhammadu Buhari era as president of Nigeria with an elegantly titled book The simple reason is that the Buhari tenure was devoid of neither elegance nor finesse Conspiracy of Silence encapsulates this rather dark epoch in fine detail warts and all It s a racy report of Africa s

giant caught in the vice grips of mediocrity and mendacity in equal measures It s stranger than fiction Steven Osuji columnist and former member of the editorial board The Nation Nigeria *Urban Africa* Abdou Maliqalim Simone, Abdelghani Abouhane, 2005-05 Including case studies from Dakar Addis Ababa Cape Town Kisangani Jos Zaria Cairo and Marrakesh this text presents the complex social dynamics of human survival in African cities today *Nigeria's Struggle for Democracy and Good Governance* Adigun A. B. Agbaje, Larry Jay Diamond, Ebere Onwudiwe, Oyeleye Oyediran, 2004 A collection of essays commissioned to honour one of Nigeria s and Africa s most outstanding political scientists of his generation brings together twenty six contri butions from scholars of all generations who all have connections with the University of Ibadan These include Wale Adebaniwale Adigun Agbaje LaRay Denzer L Adele Jinadu Richard Sklar Rotimi Suberu and Adebayo Williams The essays are organised into four sections the structure history processes and dynamics of Nigeria s federal system governance issues the formulations and transformations of identity politics and global contexts of the production and reproductions of the Nigerian state and society *Democracy and Civil Society in Nigeria* Matthew Hassan Kukah, 1999 A pioneering and challenging book which has been highly acclaimed since first publication in Africa and an important addition to the relatively sparse serious political literature on civil society in Africa The author is a political scientist priest and prominent in national public life and abroad as a lecturer and journalist He draws on his diverse spheres of expertise to look afresh at debates about political and societal failure in Africa since independence abysmal and sometimes worsening indicators of development life expectancy decreasing infrastructure in decay and relentless poverty He debates what he considers the most radical and plausible views on the subject that the development project undermined by the colonial legacy and military rule never existed that Africa seeks some form of democracy civil society and the associated institutions as a matter of survival which the present political elite and the development agencies are unable to deliver that cynicism distrust of government and fatalism dominate the popular mindset that the SAP with all the opportunities that the programme opened up was subverted by a political class which draws its economic lifeblood from the subversion of the national economy that religious bodies may assuage the violence and psychological anomie generated by years of militarism but manipulation of ethnic identity is used to gain political mileage The author formerly received an honorary mention in the Noma Award for Publishing in Africa **The Politics of Neoliberal Democracy in Africa** Usman A. Tar, 2009 Since the late 1980s the changing dynamic of global development has driven the tide of democratic expansion in the developing world In Africa western donors have sought to impose neo liberal visions of socio economic and political institution building spreading political reforms and economic liberalisation with far reaching consequences Associated with external interventions but also sometimes conflicting with them are internal protests against authoritarianism which have problematically reinforced and or undermined the donor agenda for democratic reform Here Usman Tar questions the assumption that Africa was lacking the essential components for a spontaneous transition to democracy He explores the dynamic but contradictory links between external and internal

dimensions of neo liberal democratic expansion in Africa focusing on Nigeria Tar dissects the struggles for democracy and for democratic policy and practice in a country with rich economic potential but a troubled political dispensation CASS Newsletter ,2003 **Afrika und die Globalisierung** Vereinigung von Afrikanisten in Deutschland.
