Transitional Justice And Reconciliation Lessons From The Balkans:

Transitional Justice and Reconciliation Martina Fischer, Olivera Simic, 2015-11-06 Scholars and practitioners alike agree that somehow the past needs to be addressed in order to enable individuals and collectives to rebuild trust and relationships. However, they also continue to struggle with critical questions: When is the right moment to address the legacies of the past after violent conflict? How can societies address the past without deepening the pain that arises from memories related to the violence and crimes committed in war? How can cultures of remembrance be established that would include and acknowledge the victims of all sides involved in violent conflict? How can various actors deal constructively with different interpretations of facts and history? Two decades after the wars in Bosnia, Serbia, and Croatia, albeit to different degrees, are still facing the legacies of the wars of the 1990s on a daily basis. Reconciliation between and within these societies remains a formidable challenge given that all three countries are still facing unresolved disputes, either at a cross-border level or amongst parallel societies that persist at a local community level. This book engages scholars and practitioners from the regions of former Yugoslavia as well as international experts to reflect on the achievements and obstacles that characterise efforts to deal with the past. Drawing variously on empirical studies, theoretical discussions, and practical experience, their contributions offer invaluable insights into the complex relationship between transitional justice and conflict transformation.

Truth, Justice and Reconciliation in Colombia Fabio Andres Diaz Pabon, 2018-05-11 The signing of the peace agreements between the FARC EP and the Colombian Government in late November 2016 has generated new prospects for peace in Colombia, opening the possibility of redressing the harm inflicted on Colombians by Colombians. Talking about peace and transitional justice requires us to think about how to operationalize peace agreements to promote justice and coexistence for peace. This volume brings together reflections by Colombian academics and practitioners alongside pieces provided by researchers and practitioners in other countries where transitional justice initiatives have taken place: Bosnia and Herzegovina, South Africa, Sri Lanka, and Peru. This volume has been written in the south by the south for the south. The book engages with the challenges ahead for the coming generations of Colombians. Rivers of ink have dealt with the end goals of transitional justice, but victims require us to take the quest for human rights beyond the normative realm of theorizing justice and into the practical realm of engaging how to implement justice initiatives. The tension between theory, the legislative frameworks guaranteeing human rights, and practice, the realization of these ideas, will frame Colombia's success or failure in consolidating the implementation of the peace agreements with the FARC EP.

Transitional Justice, International Assistance, and Civil Society Paige Arthur, Christalla Yakinthou, 2018-03-29 In recent years, transitional justice has become increasingly international in its scope. Due to ongoing animosities, lack of political will, and the absence of credible governing or judicial institutions, international organizations, donors, and NGOs advocate for transitional justice initiatives like truth commissions or special tribunals alongside national actors like civil

society and victims groups This book examines how international assistance affects transitional justice and where power truly lies in making decisions about justice for victims of massive human rights abuse The book finds that government donors typically lack strategies for transitional justice they struggle with information deficits and they are constrained by short term approaches that do not give enough attention to what is often a weak and divided civil society sector All the authors have both practical and scholarly perspectives on transitional justice Country case studies are provided including descriptions of the challenges in developing data on transitional justice financing

Oxford Handbook of Transitional Justice

, 2025-08-15 The Oxford Handbook of Transitional Justice is an authoritative guide to the rapidly growing domain of transitional justice the practices and processes of reckoning pursued in the aftermath of historic injustice Since the neologism s coining in the late 1990s transitional justice has become one of the 21st century s most influential practices of international humanitarianism However transitional justice projects often conceal the very violence they are intended to address or even inflict further violence on victims of atrocities Across 48 genre bending chapters the Handbook explores articulates and advances a multifaceted critique of transitional justice Ranging innovatively across space and time it interrogates the nature and legacies of the justice cascade that the prosecution of international crimes is said to have inspired An interdisciplinary cast of leading scholars questions the meaning and efficacy of transitional justice s modalities which range from archives to courts from memorials to reparations In so doing this volume s authors critically challenge the panglossian orthodoxies that have accumulated and ossified around efforts to come to terms with violent pasts from colonialism to genocide This global endeavor is not one of tear down however

Rather it points toward a reimagined project that is more clear eyed about the promises of transitional justice and its inherent limits A definitive work on the subject The Oxford Handbook of Transitional Justice is essential reading for students scholars and practitioners interested in practices of reckoning An Introduction to Transitional Justice Olivera Simić,2016-11-25 An Introduction to Transitional Justice provides the first comprehensive overview of transitional justice judicial and non judicial measures implemented by societies to redress legacies of massive human rights abuse Written by some of the leading experts in the field it takes a broad interdisciplinary approach to the subject addressing the dominant transitional justice mechanisms as well as key themes and challenges faced by scholars and practitioners Using a wide historic and geographic range of case studies to illustrate key concepts and debates and featuring discussion questions and suggestions for further reading this is an essential introduction to the subject for students **Intangible Cultural**

Heritage and Reconciliation in the Western Balkans Miloš Milenković,2024-08-01 This book considers the sensitive heritage elements linked to the very issue of the origins of nations Beliefs rituals and traditional knowledge are examples of intangible cultural heritage ICH which communities globally regard as the core of their cultural identity When it is unclear which element of heritage belongs to whom like in the Western Balkans where the majority of heritage elements are shared ICH disputes exacerbate conflict Its mishandling is especially acute when minority heritage is excluded from governmental cultural policies With a focus on Serbia Croatia Bosnia and Herzegovina and Montenegro this book has a global thematic scope theoretical depth and policy relevance to the scholars of anthropology and heritage studies as well as to those interested in cultural diversity human rights and cultural and educational policies It will serve as a guide for those who professionally use cultural heritage or want to start doing so in the processes of reconciliation stabilization and development

Transitional Justice in Latin America Elin Skaar,Jemima Garcia-Godos,Cath Collins,2016-10-27 This book addresses current developments in transitional justice in Latin America effectively the first region to undergo concentrated transitional justice experiences in modern times Using a comparative approach it examines trajectories in truth justice reparations and amnesties in countries emerging from periods of massive violations of human rights and humanitarian law The book examines the cases of Argentina Brazil Chile Colombia Guatemala El Salvador Paraguay Peru and Uruguay developing and applying a common analytical framework to provide a systematic qualitative and comparative analysis of their transitional justice experiences More specifically the book investigates to what extent there has been a shift from impunity towards accountability for past human rights violations in Latin America Using thick but structured narratives which allow patterns to emerge rather than being imposed the book assesses how the quality timing and sequencing of transitional justice mechanisms along with the context in which they appear have mattered for the nature and impact of transitional justice processes in the region Offering a new approach to assessing transitional justice and challenging many assumptions in the established literature this book will be of enormous benefit to scholars and others working in this area **Restoring**

Justice and Security in Intercultural Europe Brunilda Pali,Ivo Aertsen,2017-09-14 The intercultural contexts and new configurations in Europe offer fertile ground for social conflict tensions and threat This book challenges predominant and fear inducing approaches of justice and security as they appear in intercultural contexts and develops alternative understandings by exploring both theoretically and empirically the potential of dialogic and restorative justice oriented actions in sensitive areas of living together The book offers unique opportunities for rethinking frames of in justice in security and their intersections and for reshaping European practices and policies in a more sustainable way This book is based on an innovative and exploratory action research project in four European countries which challenges the obsessive focus on security concerns the merging of the security discourse with intercultural contexts and the emphasis on technology and surveillance as a way to conceive the doing of security Both the project and the book offer another vision on what security means and how it can be done by multiplying participatory encounters between different groups in society promoting opportunities for deliberations and dialogue about alternative forms of conviviality The book is one of two volumes resulting from the work by a group of researchers in six European countries having cooperated intensively during four years in ALTERNATIVE an action research project funded under the EU Seventh Framework Programme *The Transitional Justice Citizen* Briony Jones,2023-03-02 Building a thorough and comprehensive understanding of the limits of transitional justice theory in historically understudied regions this innovative book proposes a new concept of the transitional justice citizen as both an active seeker and receiver of justice Briony Jones addresses contemporary criticism of transitional justice theory and practice in order to improve our understanding of the agency of people at times of transition Engaging Displaced Populations in a Future Syrian Transitional Justice Process Grace Mieszkalski,Benjamin Zyla,2021-08-23 This book offers an analysis of a prospective transitional justice process in Syria As the Syrian conflict enters into its tenth year this book asks how the sustained human rights violations and war crimes could possibly be addressed in a post conflict setting particularly in the context of the widespread displacement crisis Despite a recent movement in scholarship toward bottom up peacebuilding approaches and participatory transitional justice models the transitional justice and local peacebuilding nexus remains under theorized particularly as it relates to the engagement of displaced populations This book seeks to address this gap through the conceptualization of a locally driven transitional justice process for Syria that is founded on the integration of refugees and displaced populations Through offering a series of policy recommendations on how to implement such a process it aims to make a contribution to building a bridge of exchange between the policy practitioner world and the academy in this area of study Violence, Law and the Impossibility of Transitional Justice Catherine Turner,2016-07-07 The field of transitional justice has expanded rapidly since the term first emerged in the late 1990s Its intellectual development has however tended to follow practice rather than drive it Addressing this gap Violence Law and the Impossibility of Transitional Justice pursues a comprehensive theoretical inquiry into the foundation and evolution of

transitional justice Presenting a detailed deconstruction of the role of law in transition the book explores the reasons for resistance to transitional justice It explores the ways in which law itself is complicit in perpetuating conflict and asks whether a narrow vision of transitional justice underpinned by a strictly normative or doctrinal concept of law can undermine the promise of justice Drawing on case material as well as on perspectives from a range of disciplines including law political science anthropology and philosophy this book will be of considerable interest to those concerned with the theory and practice of transitional justice

Theology in Motion Aimee Allison Hein,2024-11-19 Christian responses to global migration are as loud as they are numerous With voices evoking either the injunction to love the stranger or a commitment to the rule of law this polarized cacophony has become yet another theater in the culture war But migration is not an idea It is not an abstraction Migration is about people present in our midst or encountered at our

edges Their presence at our borders forces us to consider the core values we want most to uphold and the stories that taught us those values in the first place In the United States our most popular origin stories tell of a nation that fought off tyranny and committed itself to liberty democracy and the dream of an unencumbered pursuit of happiness of a life lived on one's own terms But is this the whole story Whose perspectives have shaped the stories we tell and which perspectives have been ignored Theology in Motion tracks the story of the United States how it formed and how it came to dominate the land that now rests between its borders to consider more fully what type of nation the US has been and the type of global neighbor it has chosen to be From a Christian moral perspective this history helps us look to the future by analyzing how our past choices have left us with present responsibilities Taking these responsibilities seriously and pursuing more just global relationships provides a way forward in which all people might participate and to which Christians are called

Educational Exchanges between Rival Societies Chuing Prudence Chou,Jonathan Spangler,2018-09-26 This book stimulates discussions on cultural and educational exchanges between rival states and societies raises awareness of the potential positive and negative impacts of such exchanges and serves as a basis for future research and program design Cultural and educational exchanges in various forms have existed for millennia Yet it was not until the unprecedented human devastation of two world wars catalyzed a sense of urgency around the world that a new era of cultural and educational exchange programs emerged as a means of easing tensions between rival states and societies This book is motivated by the need for critical research that can contribute to building a more comprehensive understanding of the issues at stake It begins with a historical overview of cultural and educational exchanges between rival societies an assessment of their positive and negative impacts and a review of some of the most prominent theories in relevant fields It then presents a diverse set of case studies in which authors consider not only the real or expected benefits of such exchanges but also the potentially negative impacts challenges faced along the way and broader effects on the rival societies at large The states and societies considered include North Korea and the West Bosnia and Herzegovina Israel and the Palestinian territories India and Pakistan China and Taiwan Cuba and the US and China and the US Taken together the chapters demonstrate that exchanges have observable impacts on the individuals and institutions involved Moreover they reveal that exchanges have the capacity in some cases to affect broader social and political change at the family community society or state level but these impacts are indirect and typically require long term concerted efforts by those involved A Tale of Two Narratives Grace Wermenbol,2021-05-27

The Holocaust and the Nakba are foundational traumas in Israeli Jewish and Palestinian societies and form key parts of each respective collective identity This book offers a parallel analysis of the transmission of these foundational pasts in Israeli Jewish and Palestinian societies by exploring how the Holocaust and the Nakba have been narrated since the signing of the 1993 Oslo Accords The work exposes the existence and perpetuation of ethnocentric victimhood narratives that serve as the theoretical foundations for an ensuing minimization or even denial of the other's past Three established realms of societal memory transmission provide the analytical framework for this study official state education commemorative acts and mass

mediation Through this analysis the work demonstrates the interrelated nature of the Israeli Palestinian conflict and the contextualization of the primary historical events while also highlighting the universal malleability of mnemonic practices
