We Are All Migrants Political Action And The Ubiquitous Condition Of Migrant Hood:

We Are All Migrants Gregory Feldman, 2015-05-27 Now more than ever questions of citizenship migration and political action dominate public debate In this powerful and polemical book Gregory Feldman argues that We Are All Migrants By challenging the division between those considered citizens and migrants Feldman shows that both subjects confront disempowerment uncertainty and atomization inseparable from the rise of mass society the isolation of the laboring individual and the global proliferation of rationalized practices of security and production Yet this very atomization the ubiquitous condition of migrant hood pushes the individual to ask an existential and profoundly political question do I matter in this world Feldman argues that for particular individuals to answer this question affirmatively they must be empowered to jointly constitute the places they inhabit with others Feldman ultimately argues that to overcome the condition of migrant hood people must be empowered to constitute their own sovereign spaces from their particular standpoints Rather than base these spaces on categorical types of people these spaces emerge only as particular people present themselves to each other while questioning how they should inhabit it

Immigrant and Migrant Workers Organizing in Canada and the United States Jorge Frozzini, Alexandra Law, 2017-11-08 Across Canada and the United States immigrant workers face important obstacles at work and in the broader society whether their immigration status is temporary permanent or nonexistent Hyper precarious workers of all status groups and their allies in unions and worker centers are organizing to improve their conditions In this book Jorge Frozzini and Alexandra Law two longtime volunteers with a Canadian worker center draw on their own experience in depth interviews and academic work from the fields of law communication studies and social movement theory to produce a tactically focused theoretically informed introduction to immigrant worker organizing in a neoliberal era Frozzini and Law describe the phenomenon of employment precarity in the context of U S and Canadian labor history explaining how union certification and collective bargaining function under the law Without directing activists toward any single best strategy they cover tactical and ethical questions raised when organizers offer casework as a recruitment and research tool The royalties from this book will go to the Immigrant Workers Centre Montreal

The Subject of Sovereignty Gregory Feldman, 2023-10-13 Seeking new forms of democracy progressive politics raises a fundamental question what is the alternative to the allegedly coherent self contained liberal subject that represents the project of modernity Exploring the themes of nature race and the divine this book identifies the more realistic alternative in the relational subject a subject that is inseparable from the global field of relations through which it emerges and yet distinct from that field because it lives a life that no one else ever has Recognizing ourselves as such subjects allows us not only to rethink politics but more profoundly to envision sovereignty as the means by which we each rejuvenate ourselves and the polities we constitute with others

Downtown Juárez Howard Campbell, 2021-11-09 At least 200 000 people have died in Mexico s so called drug war and the worst suffering has been in Ciudad Ju rez across the border from El Paso Texas How did

it get so bad After three decades studying that question Howard Campbell doesn't believe there is any one answer Misguided policies corruption criminality and the borderland economy are all factors But none of these reasons explain how violence in downtown Ju rez has become heartbreakingly normal A rigorous yet moving account Downtown Ju rez is informed by the sex workers addicts hustlers bar owners human smugglers migrants and down and out workers struggling to survive in an underworld where horrifying abuses have come to seem like the natural way of things Even as Ju rez's elite northeast section thrives on the profits of multinational corporations and law abiding citizens across the city mobilize against crime and official malfeasance downtown's cantinas barrios and brothels are tyrannized by misery Campbell's is a chilling perspective suggesting that over time violent acts feed off each other losing their connection to any specific cause Downtown Ju rez documents this banality of evil and confronts it with the stories of those most affected

Loving Music Till it Hurts

William Cheng, 2020 Loving Music Till It Hurts explores how people's intense love and protectiveness of music can lead to interpersonal conflicts societal injustices and violence But how might we love music even embrace it as vital to human thriving without weaponizing this love What can we do when loving music and loving people seem at odds

Geometries of Experience Massimo Ciavolella, Efraim Kristal, Heather Renee Sottong, 2025-12-01 The first volume of essays in English on one of the most renowned contemporary Italian philosophers Remo Bodei 1938-2019 was one of Italy's most influential philosophers of the past half century His intellectual influence was wide reaching as he guided the search for rational explanations of seemingly irrational phenomena and the philosophical underpinnings of poetry Diverse both in their disciplinary approach and theoretical style yet following a logical and coherent progression the essays within Geometries of Experience begin with an exploration of Bodei's methodology followed by an analysis of his interest in the crisis of subjectivity in modern culture his engagement with Spinoza especially in his work Geometria delle passioni his treatment of the body framed as a materialistic spirituality and his engagement with the relationship between philosophy and poetry Overall the book provides a rich and nuanced view of Bodei's intellectual legacy demonstrating his distinctive approach to philosophy and literature

The Gray Zone

Gregory Feldman, 2019-01-08 Based on rare in depth fieldwork among an undercover police investigative team working in a southern EU maritime state Gregory Feldman examines how taking action against human smuggling rings requires the team to enter the gray zone a space where legal and policy prescriptions do not hold Feldman asks how this seven member team makes ethical judgments when they secretly investigate smugglers traffickers migrants lawyers shopkeepers and many others He asks readers to consider that gray zones create opportunities both to degrade subjects of investigations and to take unnecessary risks for them Moving in either direction largely depends upon bureaucratic conditions and team members willingness to see situations from a variety of perspectives Feldman explores their personal experiences and daily work in order to crack open wider issues about sovereignty action ethics and ultimately being human Situated at the intersection of the EU migration apparatus and the global clandestine networks it

identifies as security threats this book allows Feldman to outline an ethnographically based theory of sovereign action

The Figure of the Migrant Thomas Nail, 2015-09-23 This book offers a much needed new political theory of an old phenomenon The last decade alone has marked the highest number of migrations in recorded history Constrained by environmental economic and political instability scores of people are on the move But other sorts of changes from global tourism to undocumented labor have led to the fact that to some extent we are all becoming migrants The migrant has become the political figure of our time Rather than viewing migration as the exception to the rule of political fixity and citizenship Thomas Nail reinterprets the history of political power from the perspective of the movement that defines the migrant in the first place Applying his kinopolitics to several major historical conditions territorial political juridical and economic and figures of migration the nomad the barbarian the vagabond and the proletariat he provides fresh tools for the analysis of contemporary migration

Migrant Politics and Mobilisation Davide Però, John Solomos, 2010-08-03 The book examines issues of change and impact in migrants and minorities civic and political practices It draws on theoretically informed engaged and detail rich case studies from a number British European and North American experiences It was published as a special issue of *Ethnic and Racial Studies*
