

Living Things & their Habitats

Lesson 5 - How are living things adapted to their habitat?

Habitats

Some animals are better suited to the habitat they live in because they have special features.

They have long eyelashes to help keep sand out of their eyes.

They have large fat stores in their humps so they can go a week without water and months without food.

They have thick lips so they can eat spiky plants.

Camels live in the desert.

They are a sandy colour to avoid being seen by predators.

They have thick eyelashes that hang over to help protect their eyes from the sun.

They have large wide feet so they can walk well on the sand.

Activity

Write down the adaptations the camel has in its habitat.

Next Stop
How well does the camel fit into its habitat?
Why are certain features useful in its habitat?

Challenge

Write your own habitat that a camel could live in.

C.W. Adams

What Is An Elephant Science Of Living Things:

What is an Elephant? John Crossingham, Bobbie Kalman, 2001-10 Despite its immense strength the elephant is a timid creature that uses its power only to defend itself against predators Kids will be fascinated by these gentle pachyderms and will discover how they use their trunks the herd's social structure and the threat posed by poachers and the ivory trade

Science Spectrum 5' 2004 Ed. , The Science of Truth C.W. Adams, Modern scientific theory has proposed to us an accidental existence and evolution without an ultimate purpose or reason This has forced upon each of us the need to balance our personal feelings of faith and spirituality with the basic assumptions of modern science The Science of Truth draws upon the relevant research together with timeless revelations to demonstrate that life truly does have meaning and purpose In this exploration Dr Adams provides a pragmatic review of the prominent scientific theories regarding evolution creation identity genetics quantum physics and even the scientific method itself Practical and verifiable conclusions are accomplished substantiating some of our deepest emotions The Science of Truth successfully bridges the gap between true faith and real science providing resolution to some of the greatest debates of our generation **Science and Life: Food**

understanding through the new online resources **Return to Nature** James K. Alford, 2025-09-05 Return to Nature offers a refreshing and informative twist that explores a version of the truth where both scientific facts and biblical information are equally true and are also known as the big bang theory Return to Nature is about a debate as old as time itself how did we humans get here Well what if science has already proven that the Creator exists Science argues that there is a specific sequence of events that took place starting at a microscopic level known as evolution Return to Nature will unveil a fascinating second revelation the Bible may hold the key to unlocking life's scientific mystery Return to Nature is a harmonious blend of these two perspectives both shimmering with undeniable truth I believe it to be true that the answers to all of life's scientific wonders can be found within the stories of the Bible Do you ever wonder why after thousands of years

the Bible is still the most talked about book on the planet Every human knows of it and millions swear by its teachings But this is not a book about the Bible You won't find rules on how to behave and consequences for if you don't Instead you'll come along to understand how scientifically metaphysical energy transforms into physical existence just as spiritual energy transformed to create us Return to Nature is not fiction and it is not meant to convince you to join or abide by any religion nor is it to convince you that the Creator is real This book is simply meant to provide you with real facts real science and leave you with information that will change how you view the world and hopefully inspire you to be a Creator of your own reality
