What Is Honor A Question Of Moral Imperatives:

What is Honor? Alexander Welsh, 2008-01-01 In this book Alexander Welsh considers the history and meaning of honor and dismisses the idea that we live in a post honor culture He notes that we have words other than honor such as respect self respect and personal identity that show we do indeed care deeply continuing process of respect that continuing process of respect that motivates or constrains members of a peer group Honor s dictates function as moral imperatives Surprisingly little systematic study of the history of honor in Western culture has been attempted Offering a welcome remedy Welsh provides a genealogy of approaches to the subject mining some of the most influential texts of the Western tradition Jacket

Honor: A Phenomenology Robert L. Oprisko, 2012-07-26 Honor is misunderstood in the social sciences The literature lacks both accuracy and precision in its conceptual development such that we no longer say what we mean because we have no idea what we re saying We use many terms to mean honor and mean many different ideas when we refer to honor Honor A Phenomenology is designed to fix all of these problems A ground breaking examination of honor as a metaphenomenon this book incorporates various structures of social control including prestige face shame and affiliated honor and the rejection of said structures by dignified individuals and groups It shows honor to be a concept that encompasses a number of processes that operate together in order to structure society Honor is how we are inscribed with social value by others and the means by which we inscribe others with social honor Because it is the means by which individuals fit in and function with society the main divisions internal within the psyche of the individual and external within the norms and institutions of society Honor is the glue that holds groups together and the wedge that forces them apart it defines who is us and who them It accounts for the continuity and change in socio political systems

Revolution and the Historical Novel John McWilliams, 2017-12-15 John McWilliams has written the first much needed account of the ways the promise and threat of political revolution have informed masterpieces of the historical novel The jolting sense of historical change caused by the French Revolution led to an immense readership for a new kind of fiction centered on revolution counter revolution and warfare which soon came to be called the historical novel During the turbulent wake of The Declaration of the Rights of Man promptly followed by the phenomenon of Napoleon Bonaparte the historical novel thus served as a literary hybrid in the most positive sense of that often dismissive term It enabled readers to project personal hopes and anxieties about revolutionary change back into national history While immersed in the fictive lives of genteel often privileged heroes readers could measure their own political convictions against the wavering loyalties of their counterparts in a previous but still familiar time McWilliams provides close readings of some twenty historical novels from Scott and Cooper through Tolstoy Zola and Hugo to Pasternak and Lampedusa and ultimately to Marquez and Hilary Mantel but with continuing regard to historical contexts past and present He traces the transformation of the literary conventions established by Scott s Waverley novels showing both the continuities and the changes needed to meet contemporary times and perspectives Although the progressive hopes imbedded

in Scott's narrative form proved no longer adaptable to twentieth century carnage and the rise of totalitarianism the meaning of any single novel emerges through comparison to the tradition of its predecessors A foreword and epilogue explore the indebtedness of McWilliams's perspective to the Marxist scholarly tradition of Georg Lukacs and Frederic Jameson while defining his differences from them This is a scholarly work of no small ambition and achievement **Chivalry and the**

Ideals of Knighthood in France during the Hundred Years War Craig Taylor, 2013-10-10 Craig Taylor's study examines the wide ranging French debates on the martial ideals of chivalry and knighthood during the period of the Hundred Years War 1337-1453 Faced by stunning military disasters and the collapse of public order writers and intellectuals carefully scrutinized the martial qualities expected of knights and soldiers They questioned when knights and men at arms could legitimately resort to violence the true nature of courage the importance of mercy and the role of books and scholarly learning in the very practical world of military men Contributors to these discussions included some of the most famous French medieval writers led by Jean Froissart Geoffroi de Charny Philippe de Mézières Honorat Bovet Christine de Pizan Alain Chartier and Antoine de La Sale This interdisciplinary study sets their discussions in context challenging modern romantic assumptions about chivalry and investigating the historical reality of debates about knighthood and warfare in late medieval France The Routledge International Handbook of Domestic Violence and Abuse John Devaney, Caroline

Bradbury-Jones, Rebecca J. Macy, Carolina Øverlien, Stephanie Holt, 2021-03-17 This book makes an important contribution to the international understanding of domestic violence and shares the latest knowledge of what causes and sustains domestic violence between intimate partners as well as the effectiveness of responses in working with adult and child victims and those who act abusively towards their partners Drawing upon a wide range of contemporary research from across the globe it recognises that domestic violence is both universal but also shaped by local cultures and contexts Divided into seven parts Introduction Theoretical perspectives on domestic violence and abuse Domestic violence and abuse across the life course Manifestations of domestic violence and abuse Responding to domestic violence and abuse Researching domestic violence and abuse Concluding thoughts It will be of interest to all academics and students working in social work allied health sociology criminology and gender studies as well as policy professionals looking for new approaches to the subject *Locke*

and Rousseau Laurie M. Johnson, 2012-01-01 Johnson continues her analysis of the place of honor in modernity with a close examination of honor's treatment by two Enlightenment philosophers Locke and Rousseau concluding that Enlightenment thought is inherently problematic when it comes to developing moral obligation Political scientists students of philosophy and communitarians alike will find intriguing questions in this book which calls on us to recognize the flaws of the Enlightenment liberalism that not only determines how we govern ourselves but how we think about our family society and economy The Emerald Handbook of Feminism, Criminology and Social Change Sandra Walklate, Kate Fitz-Gibbon, Jude

McCulloch, Jane Maree Maher, 2020-07-02 Emerald Studies in Criminology Feminism and Social Change offers a platform for

innovative engaged and forward looking feminist informed work to explore the interconnections between social change and the capacity of criminology to grapple with the implications of such change

Honour, Violence and Emotions in History
Carolyn Strange, Robert Cribb, Christopher E. Forth, 2014-04-10 Honour Violence and Emotions in History is the first book to draw on emerging cross disciplinary scholarship on the study of emotions to analyse the history of honour and violence across a broad range of cultures and regions Written by leading cultural and social historians from around the world the book considers how emotions particularly shame anger disgust jealousy despair and fear have been provoked and expressed through culturally embedded and historically specific understandings of honour The collection explores a range of contexts from 17th century China to 18th century South Africa and 20th century Europe offering a broad and wide ranging analysis of the interrelationships between honour violence and emotions in history This ground breaking book will be of interest to all researchers studying the relationship between violence and the emotions

Honour, Exchange and Violence in Beowulf
Peter Stuart Baker, 2013 Argues for a new reading of Beowulf in its contemporary context where honour and violence are intimately linked This book examines violence in its social setting and especially as an essential element in the heroic system of exchange sometimes called the Economy of Honour It situates Beowulf in a northern European culture where violence was not stigmatized as evidence of a breakdown in social order but rather was seen as a reasonable way to get things done where kings and their retainers saw themselves above all as warriors whose chief occupation was the pursuit of honour and where most successful kings were those perceived as most predatory Though kings and their subjects yearned for peace the political and religious institutions of the time did little to restrain their violent impulses Drawing on works from Britain Scandinavia and Ireland which show how the practice of violence was governed by rules and customs which were observed with variations over a wide area this book makes use of historicist and anthropological approaches to its subject It takes a neutral attitude towards the phenomena it examines but at the same time describes them fortnightly avoiding euphemism and excuse making on the one hand and condemnation on the other In this it attempts to avoid the errors of critics who have sometimes been led astray by modern assumptions about the morality of violence PETER S BAKER is Professor of English at the University of Virginia

Male Suicide and Masculinity in 19th-century Britain
Lyndsay Galpin, 2022-04-07 This book shows how interpretations of suicidal motives were guided by gendered expectations of behaviour and that these expectations were constructed to create meaning and understanding for family friends and witnesses Providing an insight into how people of this era understood suicidal behaviour and motives it challenges the assertion that suicide was seen as a distinctly feminine act and that men who took their own lives were feminized as a result Instead it shows that masculinity was understood in a more nuanced way than gender binaries allow and that a man's masculinity was measured against other men Focusing on four common narrative types the love suicide the unemployed suicide the suicide of the fraudster or speculator and the suicide of the dishonoured soldier it provides historical context to modern discussions about the crisis of

masculinity and rising male suicide rates It reveals that narratives around male suicides are not so different today as they were then and that our modern model of masculinity can be traced back to the 19th century
