What Should I Read:

What Else Should I Read? Matthew L. Berman, 1996-08-15 In answer to the perennial question What else should I read these innovative resources go beyond linear listings of suggestions to help students find books through a variety of directions including subject author and genre Each guide contains approximately 30 displayable bookwebs that can be used as posters with reproducible bookmarks that list related titles and fit into pockets on the posters Each web leads users to 8 to 14 related topics that have lists of relevant books with their authors and brief LC descriptions Detailed author title and subject indexes make further exploration easy Hundreds of the best fiction books for young readers titles commonly found in school library collections are covered in the webs The visual nonlinear features of these books make them unique and user friendly tools for educators and students alike Perfect for the bulletin board the bookwebs are a great way to stimulate reading **180**

Any Child Can Read Better Harvey S. Wiener, 1996-05-16 Reading however fundamental the task may seem to everyday life is a complex process that takes years to master Yet learning to read in the early stages is not an overwhelming problem for most children especially when their classroom learning is coupled with a nurturing home environment in which reading is cherished and pencil and paper are always available and fun to use In fact studies have shown that children score higher in reading if their parents support and encourage them at home Unfortunately though many parents want to involve themselves actively in their children s education very few know just what to do Now Dr Harvey S Wiener author of the classic *Any Child Can Write* provides an indispensable guide for parents who want to help their children enter the magic realm of words In *Any Child Can Read Better* Second Edition Dr Wiener offers practical advice on how to help children make their way through the maze of assignments and exercises related to classroom reading In this essential book parents learn how to be reading helpers without replacing or superseding the teacher by supporting a child s reading habits and sharing the pleasures of fiction poetry and prose Home learning parents also will find a wealth of information here Through comfortable conversation and

enjoyable exercises that tap children's native abilities parents can help their child practice the critical thinking and reading skills that guarantee success in the classroom and beyond For example Dr Wiener explains how exercises such as prereading warm ups like creating word maps a visual scheme that represents words and ideas as shapes and connects them will allow youngsters to create a visual format and context before they begin reading He shows how pictures from a birthday party can be used to create patterns of meaning by arranging them chronologically to allow the party's story to emerge or how they might be arranged by order of importance a picture of Beth standing at the door waiting for her friends to arrive could be displayed first Beth blowing out the birthday cake placed toward the middle of the arrangement and the pictures of Beth opening her gifts especially the skates she's been begging for all year would surely go toward the end of the sequence Dr Wiener shows how these activities and many others such as writing games categorizing toys or clothes or favorite foods and reading journals will help children draw meaning out of written material This second edition includes a new chapter describing the benefits of encouraging children to keep a journal of their personal reactions to books the value of writing in the books they own underlining writing in the margins and making a personal index and a variety of reading activities to help children interact with writers and their books Dr Wiener has also expanded and updated his fascinating discussion of recommended books for children of all ages complete with plot summaries Written in simple accessible prose Any Child Can Read Better offers sensible advice for busy parents concerned with their children's education
