Transfer Power Princeton Legacy Library:

Sovereign Anxiety Javed Iqbal Wani,2023-11-16 Studies sovereignty and law and argues that public order laws are an expression of sovereign anxiety *Transfer of Power in India* Vapal Pangunni Menon,2015-12-08 This full account of the partition of India and the transfer of power from England begins with the outbreak of war in 1939 and ends with the transfer itself in 1947 Originally published in 1957 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Economics in Two Lessons* John Quiggin,2021-04-13 Since 1946 Henry Hazlitt s bestselling *Economics in One Lesson* has popularized the belief that economics can be boiled down to one simple lesson market prices represent the true cost of everything But one lesson economics tells only half the story It can explain why markets often work so well but it can t explain why they often fail so badly or what we should do when they stumble Quiggin teaches both lessons offering an introduction to the key ideas behind the successes and failures of free markets He explains why market prices often fail to reflect the full cost of our choices to society as a whole Two lesson economics means giving up the dogmatism of laissez faire as well as the reflexive assumption that any economic problem can be solved by government action since the right answer often involves a mixture of market forces and government policy But the payoff is huge understanding how markets actually work and what to do when they don t This book unlocks the essential issues at the heart of any economic question From publisher description *From Consent to Coercion* Bryan Evans,Carlo Fanelli,Leo Panitch,Donald Swartz,2023-02-27 *From Consent to Coercion* examines the increasing assault against trade union rights and freedoms in Canada by federal and provincial governments Centring the struggles of Canadian unionized workers this book explores the diminution of the welfare state and the impacts that this erosion has had on broader working class rights and standards of living The fourth edition witnesses the passing of an era of free collective bargaining in Canada an era in which the state and capital relied on obtaining the consent of workers and unions to act as subordinates in Canada s capitalist democracy It looks at how the last twenty years have marked a return to a more open reliance of the state and capital on coercion on force and on fear to secure that subordination *From Consent to Coercion* considers this conjuncture in the Canadian political economy amid growing precarity poverty and polarization in an otherwise indeterminate period of austerity This important edition calls attention to the urgent task of rebuilding and renewing socialist politics of thinking ambitiously and meeting new challenges with unique solutions to the left of social democracy **War Time** Sten Rynning,Olivier Schmitt,Amelie Theussen,2021-03-02 Perceptions of time contributed to recent Western military failings The decline of the West is once again a frequent topic of speculation Often cited as one

element of the alleged decline is the succession of prolonged and unsuccessful wars most notably those waged in recent decades by the United States This book by three Danish military experts examines not only the validity of the speculation but also asks why the West particularly its military effectiveness might be perceived as in decline Temporality is the central concept linking a series of structural fractures that leave the West seemingly muscle bound overwhelmingly powerful in technology and military might but strategically fragile This temporality the authors say is composed of three interrelated dimensions trajectories perceptions and pace First Western societies tend to view time as a linear trajectory focusing mostly on recent and current events and leading to the framing of history as a story of rise and decline The authors examine whether the inevitable fall already has happened is underway or is still in the future Perceptions of time also vary across cultures and periods shaping socio political activities including warfare The enemy for example can be perceived as belonging to another time being backward or barbarian And war can be seen either as cyclical or exceptional helping frame the public's willingness to accept its violent and tragic consequences The pace of war is another factor shaping policies and actions Western societies emphasize speed the shorter the war the better even if the long term result is unsuccessful Ironically one of the Western world's least successful wars also has been America's longest in Afghanistan This unique book is thus a critical assessment of the evolution and future of Western military power It contributes much needed insight into the potential for the West's political and institutional renewal

Challenged Justice: In Pursuit of Judicial Independence

Shimon Shetreet, Hiram Chodosh, Helland Eric, 2021-08-24 Challenged Justice In Pursuit of Judicial Independence is an academic continuation of the previous volumes on judicial Independence edited by Shimon Shetreet with others Jules Deschenes Christopher Forsyth and Wayne McCormack All books were published by Brill Nijhoff Judicial Independence The Contemporary Debate 1985 The Culture of Judicial Independence Conceptual Foundations and Practical Challenges 2012 The Culture of Judicial Independence Rule of Law and World Peace 2014 and The Culture of Judicial Independence in a Globalised World 2016 This book offers academic articles by distinguished jurists on judicial independence and judicial process in many jurisdictions including indicators of justice and analysis of international Standards on judicial independence and judicial ethics

Smoking Privileges Laura D. Hirshbein, 2015-01-31 Current public health literature suggests that the mentally ill may represent as much as half of the smokers in America In Smoking Privileges Laura D Hirshbein highlights the complex problem of mentally ill smokers placing it in the context of changes in psychiatry in the tobacco and pharmaceutical industries and in the experience of mental illness over the last century Hirshbein a medical historian and clinical psychiatrist first shows how cigarettes functioned in the old system of psychiatric care revealing that mental health providers long ago noted the important role of cigarettes within treatment settings and the strong attachment of many mentally ill individuals to their cigarettes Hirshbein also relates how as the sale of cigarettes dwindled the tobacco industry quietly researched alternative markets including those who smoked for psychological reasons ultimately discovering connections between

mental states and smoking and the addictive properties of nicotine However Smoking Privileges warns that to see smoking among the mentally ill only in terms of addiction misses how this behavior fits into the broader context of their lives Cigarettes not only helped structure their relationships with other people but also have been important objects of attachment Indeed even after psychiatric hospitals belatedly instituted smoking bans in the late twentieth century smoking remained an integral part of life for many seriously ill patients with implications not only for public health but for the ongoing treatment of psychiatric disorders Making matters worse well meaning tobacco control policies have had the unintended consequence of further stigmatizing the mentally ill A groundbreaking look at a little known public health problem Smoking Privileges illuminates the intersection of smoking and mental illness and offers a new perspective on public policy regarding cigarettes
