 Sam Dubberley, Alexa Koenig, Daragh Murray, 2020 This book covers the developing field of open source research and discusses how to use social media satellite imagery big data analytics and user generated content to strengthen human rights research and investigations The topics are presented in an accessible format through extensive use of images and data visualization #HumanRights Ronald Niezen, 2020-07-28 Social justice and human rights movements are entering a new phase Social media artificial intelligence and digital forensics are reshaping advocacy and compliance Technicians lawmakers and advocates sometimes in collaboration with the private sector have increasingly gravitated toward the possibilities and dangers inherent in the nonhuman HumanRights examines how new technologies interact with older models of rights claiming and communication influencing and reshaping the modern day pursuit of justice Ronald Niezen argues that the impacts of information technologies on human rights are not found through an exclusive focus on sophisticated expert driven forms of data management but in considering how these technologies are interacting with other traditional forms of media to produce new avenues of expression public sympathy redress of grievances and sources of the self Niezen considers various ways that the pursuit of justice is happening via new technologies including crowdsourcing social media facilitated mobilizations and enclosures WhatsApp activist networks and the selective attention of Google s search engine algorithm He uncovers how emerging technologies of data management and social media influence the ways that human rights claimants and their allies pursue justice and the new victimology that prioritizes and represents strategic lives and types of violence over others HumanRights paints a striking and important panoramic picture of the contest between authoritarianism and the new tools by which people attempt to leverage human rights and bring the powerful to account *Non-Governmental Organisations and International Law* Prahlad Rai, 2024-08-27 This book explores how non governmental organizations NGOs with their sphere of influence within the State and beyond enrich the international community by working on critical areas affecting people s lives and expectations to facilitate a more humanising international law It provides ideas highlights issues and identifies actors actions and the scope of NGOs in international law It charts possibilities and limitations of NGOs within the legal framework of a State and its evolution over the years The book highlights how NGOs having obtained consultative status from the UN Economic and Social Council have now extended their access and area of influence to international actors like inter governmental organisations international courts and tribunals It provides an overview of NGO s performance and the important role they play in the making of human rights protection of environment and business ethics The book is primarily doctrinal containing case studies of important NGOs The purview is an inquiry analysis and overview of literature of NGOs in international law from a wide range of sources The book will help shape the debate over power and functions of NGOs in the background of new loci of NGOs work It is useful for students research scholars the NGO community corporations CSR departments and concerned governmental agencies Additionally being interdisciplinary in nature it caters

to the demands of politics sociology management public policy and social work apart from law **The United Nations Special Procedures System** Aoife Nolan, Rosa Freedman, Thérèse Murphy, 2017-01-09 The United Nations Special Procedures system is a key element of the evolving international framework for human rights protection and promotion. However, despite the system's expansion, the range of roles and functions performed by mandate holders and the mounting evidence of its strengths and limitations, there has been very little academic interrogation or analysis of Special Procedures. This lacuna is ever more problematic given the growing profile and effectiveness of the Special Procedures work as well as the increasing attention and challenges that they face both externally from States and internally from within the UN system. Given the current state of play of Special Procedures, it is essential that scholarly attention be focussed upon the system. How does it contribute to international human rights protection? How, when and why does it fail to do so? What steps can and should be taken to address shortcomings both within the system and in terms of the legal and political context within which it operates. Featuring expert contributions from key players within and expert commentators on the Special Procedures system, this volume addresses these questions in an in-depth and rigorous scholarly manner. New Technologies for Human Rights Law and Practice Molly K. Land, Jay D. Aronson, 2018-04-19 Provides a roadmap for understanding the relationship between technology and human rights law and practice. This title is also available as Open Access. Commissions of Inquiry Christian Henderson, 2017-05-18 This timely and pertinent collection looks at the variety of questions involved in the operation of Commissions of Inquiry (CoIs). Traditionally existing as pure fact-finding bodies, in recent times the function of CoIs has arguably shifted and broadened so as to provide a form of legal adjudication. This shift in their application merits scrutiny, and this edited collection of essays addresses institutional and procedural aspects of CoIs as well as issues in regards to the application and interpretation of the substantive law applied to them. Essay topics include the relationship of CoIs with and impact upon traditional forms of adjudication, the influences of international law upon the work of CoIs, through to issues of procedural fairness. Drawing upon the expertise of scholars working within in the field, it offers an insightful and critical analysis of CoIs. *Human Rights and Technological Change* Michael Homberg, Benjamin Möckel, 2022-05-25 ber das Spannungsverhältnis zwischen Menschenrechten und modernen Technologien für die Zeit seit dem Zweiten Weltkrieg. Werkzeug der Unterdrückung oder Vehikel der Emanzipation? Moderne Technologien sind zu einem wichtigen Thema der Menschenrechtspolitik geworden. Überwachungstechnik, militärische Drohnen und digitale Datenanalysen stellen die internationale Menschenrechtsbewegung vor neue Herausforderungen. Gleichzeitig eröffnen diese Techniken auch neue Chancen: Menschenrechtsverletzungen zu dokumentieren, anzuprangern und ein zivilgesellschaftliches Engagement zu fördern. In diesem Band wird diese ambivalente Beziehung in historischer Perspektive analysiert. Gezeigt wird, wie die Verbreitung moderner Technologien die Menschenrechtspolitik herausforderte und unterstützte. Hervorgehoben werden dabei vier Schlüsselbereiche: 1. Entwicklungspolitik, allen voran bei Infrastrukturen und technischen Großprojekten; 2. Be-

lkerungspolitik und demographisches Wissen 3 Medien und Kommunikationstechnologien und 4 die gesellschaftlichen Auswirkungen der Computerisierung Indem diese Debatten f r die Zeit nach 1945 nachgezeichnet werden erhalten aktuelle Diskussionen ber die Herausforderungen neuer technologischer Entwicklungen eine historische Dimension Der Band erscheint vollst ndig in englischer Sprache ____ The volume analyses the ambivalent relationship between human rights and modern technologies since 1945 Tools of suppression or agents of emancipation Modern technologies have become a major subject of human rights policy Surveillance technology the military use of drones and the possibilities of Big Data analysis pose new challenges for the international human rights movement At the same time these techniques offer new ways to document and denounce violations of human rights and to promote mass mobilization The volume analyses this ambivalent relationship between human rights and technological change in a historical perspective Showing how the spread of modern technologies both challenged and served human rights policies the volume focuses on four key areas of technological change 1 development politics infrastructures and large technical systems 2 population politics and demographical knowledge 3 media cultures and communication technologies and 4 the societal impact of computerization By sketching these debates since 1945 the volume adds a historical perspective to current debates about the political and ethical challenges of new technological developments The volume is published entirely in English Research Handbook on Third World Approaches to International Law (TWAIL) Antony Anghie, B. S. Chimni, Michael Fakhri, Karin Mickelson, Vasuki Nesiah, 2025-10-07 This Research Handbook provides a comprehensive overview of Third World Approaches to International Law TWAIL with chapters exploring different facets of TWAIL scholarship It covers major doctrines and topics of international law as well as TWAIL perspectives on central historical and theoretical debates
