Deathworlds to Lifeworlds Valerie Malhotra Bentz, James Marlatt, 2021-08-02 Deathworlds are places on planet earth that can no longer sustain life These are increasing rapidly We experience remnants of Deathworlds within our Lifeworlds for example traumatic echoes of war genocide oppression Many practices and policies directly or indirectly are Deathworld Making They undermine Lifeworlds contributing to community decline illnesses climate change and species extinction This book highlights the ways in which writing about and sharing meaningful experiences may lead to social and environmental justice practices decreasing Deathworld Making Phenomenology is a method which reveals the connection between personal suffering and the suffering of the planet earth and all its creatures Sharing can lead to collaborative relationships among strangers for social and environmental justice across barriers of culture politics and language Deathworlds into Lifeworlds wakes people up to how current economic and social forces are destroying life and communities on our planet as I have mapped in my work The chapters by scholars around the world in this powerful book testify to the pervasive consequences of the proliferation of Deathworld making and ways that collaboration across cultures can help move us forward Saskia Sassen is the Robert S Lynd Professor of Sociology at Columbia University and a Member of its Committee on Global Thought Recognizing the inseparability of experience consciousness environment and problematics

in rebalancing life systems this book offers solutions from around the world Four Arrows aka Don Trent Jacobs author of *Sitting Bull's Words for a World in Crisis* et al This unique book brings together 78 participants from 11 countries to reveal the ways in which phenomenology the study of consciousness and phenomena can lead to profound personal and social transformation Such transformation is especially powerful when Deathworlds physical or cultural places that no longer sustain life are transformed into lifeworlds through collaborative sharing even when or perhaps especially when the sharing is among strangers across different cultures The contributors share a truly wide range of human experiences from the death of a child to ecological destruction in offering ways to affirm life in the face of what may seem to be hopeless death affirming challenges Richard P Appelbaum Ph D is Distinguished Research Professor Emeritus and former MacArthur Foundation Chair in Global and International Studies and Sociology at the University of California Santa Barbara He is also a founding Professor at Fielding Graduate University where he heads the doctoral concentration in Sustainability Leadership

Deathworlds is a love letter for the planet our home By documenting places that no longer sustain life the authors collectively pull back the curtain on these places rendering them meaningful by connecting what ails us with what ails the world Katrina S Rogers Ph D conservation activist and author *Deathworlds to Lifeworlds* represents collaboration among Fielding Graduate University the University of Od Poland and the University of the Virgin Islands Students and faculty from these universities participated in seminars on transformative phenomenology and developed rich phenomenologically based narratives of their experiences or others These phenomenological protocol narratives creatively modify and integrate with everyday experience the conceptual frameworks of Husserl Schutz Heidegger Habermas and others The diverse protocol authors demonstrate how phenomenological reflection is transformative first by revealing how Deathworlds which lead to physical mental social or ecological decline imperil invaluable lifeworlds Deathworlds appear on lifeworld fringes such as extra urban trash landfills where unnoticed impoverished workers labor to the destruction of their own health Poignant protocol narratives highlight the plight and noble struggle of homeless people the mother of a dying 19 year old son persons inclined to suicide overwhelmed first responders alcoholics who through inspiration achieve sobriety unravelled We Relationships those suffering from and overcoming addiction or misogynist stereotypes or excessive pressures veterans distraught after combat a military mother those in liminal situations and oppressed indigenous peoples who still make available their liberating spirituality Transformative phenomenology exemplifies that generous responsiveness to the ethical summons to solidarity to which Levinas's Other invites us Michael Barber Ph D Professor of Philosophy St Louis University He has authored seven books and more than 80 articles in the general area of phenomenology and the social world He is editor of *Sch tzian Research* an annual interdisciplinary journal This book helps us notice the Deathworlds that surround us and advocates for their de naturalization Its central claim is that the ten virtues of the transformative phenomenologist allow us to do so by changing ourselves and the worlds we live in In this light the book is an outstanding presentation of the international

movement known as transformative phenomenology. It makes groundbreaking contributions to a tradition in which some of the authors are considered the main referents. Also, it offers an innovative understanding of Alfred Schutz's philosophy of the Lifeworld and a fruitful application of Van Manen's method of written protocols.

Carlos Belvedere, Ph.D. Professor, Faculty of Social Sciences, University of Buenos Aires. *Moving beyond the social phenomenology carved out by Alfred Schütz*: this impressive volume of action-based experiential research displays the efficacy of applying phenomenological protocols to explore Deathworlds, the tacit side of the foundational conception of Lifeworlds. Over twenty-one chapters plus an epilogue, readers are transported by the train of Transformative Phenomenology created during what's been called the Silver Age of Phenomenology. 1996, present at the Fielding Graduate University. An international amalgam of students and faculty from universities in Poland, the United States, the Virgin Islands, Canada, and socio-cultural locations throughout the world, harnessed their collective energy to advance the practical call of phenomenology as a pathway to meaning-making through rich descriptions of lived experience. Topics include dwelling with strangers, dealing with trash, walking with the homeless, death of a young person, overcoming colonialism, precognition, environmental destruction, and so much more. The research collection enhances what counts as phenomenological inquiry while remaining respectful of Edmund Husserl's philosophical roots.

David Rehorick, Ph.D. Professor Emeritus of Sociology, University of New Brunswick, Canada. Professor Emeritus, Fielding Graduate University, U.S.A. Vancouver, British Columbia. **Mindful Inquiry in Social Research** Valerie Malhotra Bentz, James Marlatt, Jeremy J. Shapiro, Luann Droic Fortune, 2025-04-29. The first edition of this classic text introduced researchers and students to a broad range of approaches that are grounded philosophically and are relevant to real contexts. This new edition reflects developments in social research and changes in the global environment. The authors broaden their conception of mindfulness and show how mindful inquirers can maximize positive outcomes for participants, organizations, communities, and themselves. The first five chapters describe the application of mindful inquiry, and the following nine introduce cultures of inquiry and research traditions, theories, methods, and techniques. Chapters contain activities that provide immediate engagement with learning, suggested readings, and lists of skills for researchers.

The Routledge Handbook of Research Methods in Spirituality and Contemplative Studies Bernadette Flanagan, Kerri Clough, 2024-09-03. The Routledge Handbook of Research Methods in Spirituality and Contemplative Studies provides the first authoritative overview of methodology in this growing field. Against the background of the pandemic and other global challenges, spirituality is expanding as an agreed term with which to discuss the efforts people make to be fully present to deeper, invisible dimensions of their personal identity and external reality, but until now there have been few resources exploring the different methodological approaches researchers take. This book explores the primary methodologies emerging: First Person, Second Person, and Third Person, and provides a systematisation of spirituality research in applied contexts for the first time. Comprising 33 chapters by a team of international contributors, the book is divided into seven parts: Foundations, Approaches,

to Contemplative Research Contemplative Research in Education Contemplative Research in Work and Leadership Contemplative Research in Science Health and Healing Contemplative Research in Social Sciences Contemplative Research and the Way Forward The Handbook provides readers practitioners and policymakers with methods and approaches which can facilitate a spiritual and contemplative stance in research activities It is an essential resource for researchers and students of Religion Spirituality and Research Methods *The SAGE Encyclopedia of the Sociology of Religion* Adam Possamai,Anthony J.
