Transitions From Authoritarian Rule Vol 4 Tentative Conclusions About Uncertain Democracies:

Civil Society in Democratization Peter J. Burnell, Peter Calvert, 2004 Featuring a broad range of perspectives on the democratic process this collection of essays explores the development of civil society and how civil societies manage democratic change around the world

Perestroika In The Soviet Republics Charles F Furtado, Andrea Chandler, 2019-06-04 The political and economic changes that occurred in the Soviet Union in the six and one half years of Mikhail Gorbachev's tenure as General Secretary were breathtaking in their scope and rapidity going far beyond most observers' expectation. Certainly the process of reform which we call perestroika transformed the ossified one party socialist state that had prevailed under Gorbachev's predecessors. The reasons for embarking on such a course of reform were varied economic crisis and a decline in the Soviet state's ability to provide social welfare services for its citizens an increasingly apathetic population and a tense international environment all of these factors convinced the Soviet leadership of the necessity of drastic change. The policies of Gorbachev set reform in motion freeing public expression greatly encouraging economic decentralization and private initiative and creating a more cooperative relationship with the West

Democracy and Democratization Michael Moran, Geraint Parry, 2015-04-29 Following the collapse of the former regimes of Eastern and Central Europe and Latin America the choice of all of the democratising countries was to move towards liberal democracy. Likewise in Africa many authoritarian regimes seem to be in retreat perhaps most significantly in South Africa. Democracy seems to be the only valued political system of the late twentieth century so that even China for example describes itself as the people's democratic dictatorship. So have we really as Francis Fukuyama suggested reached the end of history? Should we not look seriously at the tension between liberalism and democracy which have led to dissatisfaction with the liberal model in countries such as Britain and France? Is it not important to discuss the real problems of stabilisation and survival which the democratising countries are experiencing? This timely collection examines questions of central concern to scholars and practitioners of politics. It looks at both the concept of democracy and the process of democratisation combining theoretical chapters by historians of ideas and political theorists with empirical chapters on the process of democratisation in Eastern Europe, China, The Middle East and Latin America as well as in established democracies such as Britain and France

The Routledge International Handbook of European Social Transformations Pieter Vihalemm, Anu Masso, Signe Opermann, 2017-11-22 This book focuses on social transformations as one of the central topics in the social sciences. space compression focusing particularly on change processes in Europe during the last two decades The book consists of four main parts beginning with an overview of the theoretical and methodological approaches and then focusing separately on post communist transformations institutional drivers of social transformations in the European Union and European transformations in the context of global processes The book presents current theoretical empirical and methodological approaches that complement the scientific literature on social transformations This book is both an invaluable resource for scholars and an indispensable teaching tool for use in the classroom and will be of interest to students academics and policy makers studying how this diverse region has changed over recent years

Conflict Prevention and Peace-building in Post-War Societies T. David Mason, James D. Meernik, 2006-05-02 This volume provides an overview of the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and conflict resolution as well as policy makers and analysts

Jus Post Bellum Carsten Stahn, Jennifer S. Easterday, Jens Iverson, 2014-02 Jus post bellum is the body of international legal norms and rules of international law that applies to a post conflict situation as it moves to a status of peace This book provides a detailed legal analysis of all aspects of jus post bellum and uses case studies to show its relevance to the reality of situations on the ground

Contemporary Authoritarianism in Southeast Asia William Case, 2013-09-27 Over the past two decades book length analyses of politics in Southeast Asia like those addressing other parts of the developing world have focused closely on democratic change election events and institution building But recently democracy's fortunes have ebbed in the region In the Philippines the progenitor of people power democracy has been diminished by electoral cheating and gross human rights violations In Thailand though the former Prime Minister Thaksin Shinawatra scored successive electoral victories he so committed executive abuses that he served up the pretext by which royalist elements in the military might mount a coup one that even gained favour with the new middle class And in Indonesia lauded today as the region's only democracy still standing the government's writ over the security forces has remained weak with military commanders nestling in unaccountable domains there to conduct their shadowy business dealings Elsewhere dominant single parties persist in

Malaysia Singapore Vietnam Cambodia and Laos while a military junta perpetuates its brutal control over Burma This volume the first to bring together a series of country cases and comparative narratives about the recent revival of authoritarian rule in Southeast Asia identifies the structural and voluntarist dynamics that underlie this trend and the institutional patterns that are taking shape This book was published as a special issue of The Pacific Review

Regression of Democracy? Gero Erdmann, Marianne Kneuer, 2013-06-21 Democratization since the implosion of the communist bloc displays a mixed balance While the neo democracies in Central Eastern European Countries can be seen as largely consolidated many other processes of democratization in other parts of the world such as Africa Asia and Latin America got stuck as unconsolidated or became defective democracies some regressed into hybrid regimes or were even turned into autocracies While transitology dealt with the transition from authoritarian rule the reverse process the transition from democratic rule remained almost completely outside the scholarly attention This special issue will address the problems of the regression of democracy and aims at closing the gap between research on democracy and democratization on one side and the emergence of authoritarian regimes on the other The contributions of this volume analyse the different phenomena in which decline of democracy fans out the loss of quality which means a silent regression the backslide into hybrid regimes hybridization and the breakdown of democracy

Struggling for Recognition Doron Shultziner, 2010-11-18

Dynamics of Transformation, Elite Change and New Social Mobilization Muriel Asseburg, Heiko Wimmen, 2018-02-02 The political transformations initiated by the so called Arab Spring in Egypt Libya Tunisia and Yemen have been marked by strong political contention continued social mobilization and albeit to different degrees weak central state institutions This book proposes that rather than agreed roadmaps of institutional change e g elections drawing up new constitutions and centrally crafted transition processes it has been the competition of key political actors for resources of political power and control that has set the pace and influenced the direction and depth of the transformation processes Hence the contributions in this volume use an actor centred approach Two perspectives are assumed first key political actors referring to the Politically Relevant Elite PRE are identified and their motivations as well as their strategies and capacities to steer the transformation process Secondly the authors investigate the capacity of politically Mobilized Publics to exert influence on agenda setting and decision making ask to what extent popular and social movements have emerged as political actors in their own right and to what extent such forms of bottom up participation have constituted a fundamental change to the political culture of these countries Both avenues of inquiry analyze how the elites are constrained by continued social mobilization how they engage with mobilized publics to promote their own agendas and whether the extended scope of popular participation contributes to the legitimacy and stability of the emerging political orders or causes disruption fragmentation and conflict This book was previously published as a special issue of Mediterranean Politics
