

Weather Maps II: Weather Conditions

MASTER KEY

Read the information below. Then use the weather map and symbols to complete the "Which City" at the bottom of the page.

Weather Maps are a tool used by meteorologists to forecast the weather. Using symbols, colors, and numbers, weather maps show important information that a meteorologist can use to make a weather prediction. A current weather map can show current temperatures, cloud cover, rain or snow showers, High and Low pressures and weather fronts. Different symbols are used on weather maps to make the information easier to understand and interpret.

Complete the "Which City" questions below:

Collier, 1992-04-30 International Weather Radar Networking covers all aspects of the subject in a collection of contributions drawn from all over the world Of particular interest are the papers describing work in Eastern Europe and papers reviewing of the achievements of the Commission of the European Communities COST 73 project During the last twenty years there has been a rapid growth in the number of digital radars deployed for operational use in Western Europe There are now around 100 of which about half have a Doppler capability providing wind as well as reflectivity information The international exchange of the data from these systems promises a great enhancement of the benefits to weather forecasting and commercial users This volume reports work being undertaken to realize those benefits and points the way to future developments of radar technology

Learning Targets Connie M. Moss, Susan M. Brookhart, 2012-07-02 In Learning Targets Connie M Moss and Susan M Brookhart contend that improving student learning and achievement happens in the immediacy of an individual lesson what they call today s lesson or it doesn t happen at all The key to making today s lesson meaningful Learning targets Written from students point of view a learning target describes a lesson sized chunk of information and skills that students will come to know deeply Each lesson s learning target connects to the next lesson s target enabling students to master a coherent series of challenges that ultimately lead to important curricular standards Drawing from the authors extensive research and professional learning partnerships with classrooms schools and school districts this practical book Situates learning targets in a theory of action that students teachers principals and central office administrators can use to unify their efforts to raise student achievement

and create a culture of evidence based results oriented practice Provides strategies for designing learning targets that promote higher order thinking and foster student goal setting self assessment and self regulation Explains how to design a strong performance of understanding an activity that produces evidence of students progress toward the learning target Shows how to use learning targets to guide summative assessment and grading Learning Targets also includes reproducible planning forms a classroom walk through guide a lesson planning process guide and guides to teacher and student self assessment What students are actually doing during today s lesson is both the source of and the yardstick for school improvement efforts By applying the insights in this book to your own work you can improve your teaching expertise and dramatically empower all students as stakeholders in their own learning
