Web 2.0 technologies in education. A brief study Serafeim A. Triantafyllou, 2020-10-06 Essay from the year 2014 in the subject Didactics E Learning grade 10 University of Macedonia language English abstract This study investigates the second generation of the World Wide Web called Web 2 0 The revolution of Web 2 0 over Web 1 0 was that it allowed Internet users not to be passive recipients who simply read the digital content of a web page but enabled them to add digital content share information and collaborate online The blast of Web 2 0 is therefore largely based on the electronic sharing of knowledge and information In this paper the basic features of Web 2 0 its basic services functions and tools will be firstly described Next concepts such as social networking services and social networks will be analyzed and the application of Web 2 0 in education as well as the benefits it can bring will be studied In conclusion a summary of the possibilities of Web 2 0 is made and the advantages disadvantages and its role in the educational process are presented through a critical point of view One of the major differences between Web 2 0 and the traditional World Wide Web is the greater collaboration between Internet users and other users such as digital service providers and businesses While Web 1 0 was software organized around pages technologies and businesses Web 2 0 was organized around ordinary people and services In the Web 1 0 era internet users had the ability to read the digital content of a web page but could not create their own since the only person who could update the web page content was its webmaster In other words we would say that Web 1 0 was not oriented towards the creation of digital content by internet users

Beheshti, 2011-09 Master's Thesis from the year 2011 in the subject Engineering Industrial Engineering and Management grade 1 Vienna University of Technology course Business Engineering and Computer Science language English abstract Climate change and the impact it has on our lives have forced many governmental and also non governmental organizations to conceive of new rules regulations and standards to control CO₂ and greenhouse gas GHG emissions Calculating the energy efficiency and reducing the electricity consumption in data centers are important steps towards greening the IT in organizations Several studies have shown that by migrating into the cloud companies in most cases could reduce their costs in addition to decreasing their greenhouse gas emissions Unfortunately lack of guidelines and varying and limited services from different cloud providers have made the adoption of appropriate Cloud services a challenge for many organizations In this regard there is a vital need to study and analyze available services from different cloud vendors and provide enterprises with the best solutions available regarding their specific business requirements This thesis focuses on cloud computing and its efficiency for individual organizations It attempts to study the potential benefits of cloud computing by taking the environmental and energy consumption advantages into consideration Cloud Computing is not a new concept and has been a hype term in recent years Cloud computing is based on the available technologies and it is all about using a new term for the existing technologies But the question is why to create a new name for what already exists The answer to this question is

closely related to the potential that Cloud computing has for organizations It is all about conversion of capital expenditure CAPEX to the operational expenditure OPEX and the possible advantages that this conversion could have for any organization that chooses to migrate into the Cloud *Studyguide for Web 2. 0* Cram101 Textbook Reviews,2013-05 Never HIGHLIGHT a Book Again Virtually all testable terms concepts persons places and events are included Cram101 Textbook Outlines gives all of the outlines highlights notes for your textbook with optional online practice tests Only Cram101 Outlines are Textbook Specific Cram101 is NOT the Textbook Accompanys 9780521673761 **What is Web 2.0** Tim O'Reilly,2009-09-23 The concept of Web 2 0 began with a conference brainstorming session between O Reilly and MediaLive International Dale Dougherty web pioneer and O Reilly VP noted that far from having crashed the web was more important than ever with exciting new applications and sites popping up with surprising regularity What's more the companies that had survived the collapse seemed to have some things in common Could it be that the dot com collapse marked some kind of turning point for the web such that a call to action such as Web 2 0 might make sense We agreed that it did and so the Web 2 0 Conference was born In the year and a half since the term Web 2 0 has clearly taken hold with more than 9 5 million citations in Google But there's still a huge amount of disagreement about just what Web 2 0 means with some people decrying it as a meaningless marketing buzzword and others accepting it as the new conventional wisdom This article is an attempt to clarify just what we mean by Web 2 0 **ASP.NET 2.0 Black Book**,2006 This comprehensive reference goes far beyond the first wave of tutorial and intermediate level books published on ASP NET and provides unique programming tips and insight that can't be easily found in other sources From Valence to Emotions Robert Kohtes,2013-06-04 Diploma Thesis from the year 2012 in the subject Business economics Miscellaneous grade 1 7 University of Cologne Lehrstuhl f r Handel und Kundenmanagement course Business economics language English abstract The growing number of user generated content online has led to a huge amount of data that can be used for scientific research This thesis investigates the prediction of certain human related events using valences and emotions expressed in user generated content with due regard to past and current research First the theoretical framework of user generated content and sentiment detection and classification methods is explained before empirical literature is categorized into three specific prediction subjects This is followed by a comprehensive analysis including a comparison of prediction methods consistency and limitations with respect to each of the three predictive sources It was found that the research results and prediction accuracies analyzed significantly differ from each other according to the sources of data and prediction methods they employed In addition a comparison of fine grained and coarse sentiments as predictive data sources shows that fine grained sentiments improve prediction accuracy Theoretical concepts are used also for evaluation purposes because empirical data on fine grained sentiment approaches is scarce
