MCEE: The Power of a Common Language

The Model Code of Ethics for Educators (MCEE), supported by national education organizations that undergird our profession, was developed by a diverse and representative task force of educational practitioners. The MCEE connects the aspirations of professional ethics with the day-to-day realities of the practicing educator.

The MCEE facilitates a shared understanding of what constitutes ethical best practice and helps ensure that educators are equipped with a framework for ethical decision-making.

The MCEE, which can be adopted, adapted, or endorsed, provides a basis for conversations across the profession about the importance of having a common language rooted in professional ethics. These conversations have power.

The Model Code of Ethics for Educators – Giving the profession a common language to guide professional decision-making.

Established by NASDTEC, the National Council for the Advancement of Education Ethics (NCAEE) consists of practitioners and educational partners that represent the profession. NCAEE's mission is to promote and foster an intentional and thoughtful focus on professional ethics for educators. Its role is to provide national leadership in advancing ethical understanding and practice, while promoting awareness and use of the MCEE.

Founded in 1908, NASDTEC represents professional standards boards, commissions and state departments of education that are responsible for the preparation, licensure, and discipline of educational personnel. Associate members include constituent groups with an interest in the preparation, continuing development, and certification of educational personnel.

More information on NASDTEC and the development of the MCEE may be found at www.nasdtc.net.

OVERVIEW Model Code of Ethics for Educators

2nd Edition

The Model Code of Ethics for Educators (MCEE) serves as a guide for future and current educators as they encounter the complexities of P-12 education. The Code establishes principles for ethical best practices, negotiations, self-reflection and decision-making. The establishment of this professional code of ethics for educators honors the public trust and upholds the dignity of the profession.

WELCOME

There is a movement growing within the greater P-12 and educator preparation educational communities to ensure educators and prospective educators understand how professional decision-making can impact all aspects of the schooling community. This movement focuses on examining and understanding our profession's norms and values as a critical part of the mission of the National Association of State Directors of Teacher Education and Certification (NASDTEC). A professional code of ethics establishes a higher threshold of responsibility than policy, statutes or law. Adhering to the regulations that govern one's employment and licensure – as well as aligning one's professional practice to the Model Code of Ethics for Educators – will reinforce the risks and vulnerabilities inherent in our profession.
