Jason Allen,Peter Hunn,2022-04-04 Smart Legal Contracts Computable Law in Theory and Practice is a landmark investigation into one of the most important trends at the interface of law and technology the effort to harness emerging digital technologies to change the way that parties form and perform contracts While developments in distributed ledger technology have brought the topic of smart contracts into the mainstream of legal attention this volume takes a broader approach to ask how computers can be used in the contracting process This book assesses how contractual promises are expressed in software and how code based artefacts can be incorporated within more conventional legal structures With incisive contributions from members of the judiciary legal scholars practitioners and computer scientists this book sets out to frame the borders of an emerging area of law and start a more productive dialogue between the various disciplines involved in the evolution of contracts as software It provides the first step towards a more disciplined approach to computational contracts that avoids the techno legal ambiguities of smart contracts and reveals an emerging taxonomy of approaches to encoding contracts in whole or in part Conceived and written during a time when major legal systems began to engage with the advent of contracts in computable form and aimed at a fundamental level of enquiry this collection will provide essential insight into future trends and will provide a point of orientation for future scholarship and innovation **Dr Sunil's One**

Page Solutions for General Practice K Sunil Ravinder Paul,2018-03-31 This new edition provides general practitioners with the latest information and guidance for the management of common conditions and diseases Divided into 20 sections the book consists of 800 clinical cases seen in daily practice Each topic is presented in table format summarising diagnosis investigation and treatment options all on one page Algorithms and charts further enhance the text The second edition has been fully revised and has a completely new look All chapters have been rewritten and many new topics have been added Key points New edition providing GPs with latest information and guidance for management of common conditions and diseases Provides 800 cases seen in daily practice each topic presented in table format on one page All chapters have been fully revised and new topics added Previous edition 9788184481013 published in 2008 **Integrated Solutions with DB2** Rob

Cutlip, John Medicke, 2003 Now two leading IBM solution architects show you how to use DB2 to create flexible infrastructures that simplify the construction of any enterprise class business solution **Transforming Serials** Susan L. Scheiberg, Shelley Neville, 2021-03-24 Get an inside look at the changing world of serials management Transforming Serials The Revolution Continues Parts I and II will help you navigate the changing landscape in serials with a unique collection of fresh insights new techniques and tools and practical solutions The book documents NASIG's 17th Annual Conference 2002 Williamsburg Virginia examining the ongoing effects technology has on scholarly communications and serial publications the rapid changes in presentation of information and seamless interfaces the evolving skills publishers vendors and librarians need in dealing with information seekers and the need for cooperation and communication among publishers vendors and librarians Topics addressed in the conference's workshops and presentations included MARC21 e journals ILS conversion AACR2 subsidized unmediated ordering SUMO aggregated databases library and Internet standards and Web based tracking systems Transforming Serials examines the future of information access and distribution the future of digitized materials and new roles for public service librarians These conference proceedings of the North American Serials Interest Group Inc NASIG reflect the diverse interests of the serials community promoting communication information and continuing education about serials and the broader issues of scholarly communication Topics discussed in the book include the future of information access and distribution the future of digitized materials open URL and SFX open linking e journal subscription management systems managing electronic serials outsourcing and new products in the marketplace e journals and citation patterns cataloging serials reproductions cataloging serials for consortium catalogs periodical check in and much more Transforming Serials The Revolution Continues Parts I and II is an essential resource for anyone who's joined the revolution in serials management including librarians publishers vendors educators database producers and library systems representatives *The New Normal* Denise Tillery, Ed Nagelhout, 2016-12-05 As colleges and universities across the country continue to deal with regular decreases in state funding technical communication programs in particular are being forced to do more with less As budget cuts become the new normal the long term health of technical communication depends on our ability to evolve and adapt to an array of internal external and technological pressures The New Normal Pressures on Technical Communication Programs in the Age of Austerity explores the ways technical communication programs are responding to conditions of economic austerity and investigates how smaller programs or programs situated in smaller institutions use increasingly limited resources to meet the challenges of increased student demand the responsibilities of teaching service courses effectively the technological demands for online education and the constant pressure to prepare our students appropriately for the ever changing needs of the job market in technical communication More specifically the contributors to this collection are overtly conscious of the marginalized peripheral status of technical communication programs within both small and large institutions This awareness allows them to articulate specific ways that austerity has

had a direct and local effect on a particular technical communication program and to describe short and long term strategies for creating sustainable futures for a technical communication program despite cuts and marginalization *Signal*, 2009
