Week by Week: Plans for Documenting Children's Development Barbara Ann Nilsen, 2022-05-02 Nilsen's WEEK BY WEEK PLANS FOR DOCUMENTING CHILDREN'S DEVELOPMENT 8th Edition provides an overview of accepted observation and recording methods including examples and guidance about the advantages and disadvantages of each. Each chapter summarizes a developmental domain to focus your observation skills as you practice a specific recording method. These are integrated into a concrete systematic plan for recording each child's development in all developmental areas, a plan that can be extended over 40 weeks while in practicum field experiences or your own classroom. It provides numerous practical observation forms and integrates NAEYC standards and Developmentally Appropriate Practices and learning objectives. Real life anecdotes, practical tips, forms with clear instructions and step by step guidelines make this a valuable resource for teachers in training and practicing professionals.

Week by Week Barbara Ann Nilsen, 2009-01-13 *Week by Week Plans for Documenting Children's Development 4e* is a text that not only presents the technical aspects of many various methods of documentation, it also reviews domains of development and the efficiency of each method to capture important information. Early childhood teachers should be keeping written records for every child in their group, documenting events, achievements and concerns. There are many methods or types of documentation to use. The dilemma of both student teachers and experienced teachers is how to manage detailed meaningful documentation while attending to all the functions that a teacher needs to perform to keep children safe and actively involved in learning. This text is an all purpose guide for students and practitioners to gather meaningful developmental information. The new online companion contains forms and additional resources that will assist in using the child assessments to guide curriculum planning. Also added to this new edition are *It Happened To Me* vignettes that illustrate key points and are both entertaining as well as illustrative of the experiences of real teachers. It also includes an expanded discussion of the implications of No Child Left Behind and authentic assessment by portfolio documentation. The text can be useful for courses in observation methods, child development, curriculum planning and practicum. This text is a must have that provides a year's plan for gathering developmental data on every child, something every classroom teacher needs.
