Ron Hirschbein

What If They Gave A Crisis And Nobody Came Interpreting International Crises:

What If They Gave a Crisis and Nobody Came? Ron Hirschbein, 1997-12-09 If wars are too important to be left to the generals crises are too dangerous to be left exclusively to the social scientists Humanistic inquiry has not realized its potential for illuminating these wars of words Crises occur in a realm foreign to prevailing approaches but familiar to interpretive approaches to politics Decision makers are no longer observers of unmistakable threats they are interpreters of cryptic texts and symbolic performances Accordingly analysts quite unwittingly have become interpreters of interpretations crises inquiry occurs in the archives not the laboratory Relying upon a hermeneutic approach used to illuminate crises at other times and places Hirschbein explores the puzzling aspects of defining Kennedy Nixon and Kissinger episodes Why is Kennedy's joust on the brink enshrined as the unforgettable Cuban missile crises while Nixon and Kissinger's prudent resolution of a comparable threat is all but forgotten This novel account of crises construction management and remembrance explores how and why these events were handled so differently and concludes that it is not world that is the source of our crises but our interpretation of the world Questions of crisis construction management and remembrance are at the heart of this study Professor Hirschbein examines why American political figures define an event as a crisis or not He then analyzes why some crises are managed prudently while others are not despite access to comparable information and resources Lastly he tries to determine why some crises are enshrined as templates for future confrontation while others quickly fade into oblivion Hirschbein argues that it is not the world that is the source of our crises but our interpretation of the world Accordingly he explicates those official interpretations of the world known as international crises This fascinating comparative study will be of great interest to students scholars and other researchers of American diplomacy and Peace Studies

The Crisis Management Cycle Christer Pursiainen, 2017-11-22 The Crisis Management Cycle is the first holistic multidisciplinary introduction to the dynamic field of crisis management theory and practice By drawing together the different theories and concepts of crisis management literature and practice this book develops a theoretical framework of analysis that can be used by both students and practitioners alike Each stage of the crisis cycle is explored in turn Risk assessment Prevention Preparedness Response Recovery Learning Stretching across disciplines as diverse as safety studies business studies security studies political science and behavioural science The Crisis Management Cycle provides a robust grounding in crisis management that will be invaluable to both students and practitioners worldwide

Why Not Preempt? Rachel Bzostek, 2016-02-11 Anticipatory military activities which include both preemptive and preventive military actions are at the centre of American strategic doctrine however states rarely use these activities Rachel Bzostek puts forward an integrated analysis to help understand why states have or have not undertaken such activities in the past By exploring what kinds of strategic or structural elements compel states or leaders to take anticipatory military action as well as how these concepts are viewed in both international law and the just war tradition this book uses case studies to examine

those elements that have played an influential role in the decision making process Ideal as a course reader for upper division undergraduate and graduates in security studies international law US foreign policy and those involved in the teaching and training of the military

Putting Peace Into Practice Nancy Nyquist Potter, 2004 This book examines the role and limits of policies in shaping attitudes and actions toward war violence and peace Authors examine militaristic language and metaphor effects of media violence on children humanitarian intervention sanctions peacemaking sex offender treatment programs nationalism cosmopolitanism community and political forgiveness to identify problem policies and develop better ones

The Psychology of Foreign Policy Christer Pursiainen, Tuomas Forsberg, 2021-10-16 This book focuses on foreign policy decision making from the viewpoint of psychology Psychology is always present in human decision making constituted by its structural determinants but also playing its own agency level constitutive and causal roles and therefore it should be taken into account in any analysis of foreign policy decisions The book analyses a wide variety of prominent psychological approaches such as bounded rationality prospect theory belief systems cognitive biases emotions personality theories and trust to the study of foreign policy identifying their achievements and added value as well as their limitations from a comparative perspective Understanding how leaders in world politics act requires us to consider recent advances in neuroscience psychology and behavioral economics As a whole the book aims at better integrating various psychological theories into the study of international relations and foreign policy analysis as partial explanations themselves but also as facets of more comprehensive theories It also discusses practical lessons that the psychological approaches offer since ignoring psychology can be costly decision makers need to be able reflect on their own decision making process as well as the perspectives of the others Paying attention to the psychological factors in international relations is necessary for better understanding the microfoundations upon which such agency is based

Putting Peace into Practice , 2022-06-08 This book examines the role and limits of policies in shaping attitudes and actions toward war violence and peace Authors examine militaristic language and metaphor effects of media violence on children humanitarian intervention sanctions peacemaking sex offender treatment programs nationalism cosmopolitanism community and political forgiveness to identify problem policies and develop better ones

Order and Disorder David Rich, 2001-02-28 After critiquing chaos catastrophe and complexity theories showing their limitations in the contemporary era Rich furthers the development of crisis theory and applies the crisis theory approach to biological and social evolution Treating evolution in the context of crisis theory he shows that as evolution is both genetic and social social evolution is an extension of biological evolution As physical evolution results from problem solving social evolution develops from the solving of historically significant problems bringing about for instance the post World War II era of knowledge In this context Rich discusses the problems of our era with an emphasis on the paradox of industrialization and its consequences for wealthy and poor nations alike The paradox of industrialization is approached in terms of crisis theory and resolved

Peacemaking , 2021-10-25 Peacemaking includes a large array of

activities from local to global attempts to attain peace It includes consideration of international interstate and intertribal conflict resolution communal personal and interpersonal social justice deterrence of the use of nuclear weapons design of international treaties that prevent war or other forms of international conflict disarmament international organizations that secure the order among nations and even from some points of view war As the 20th century drew to a close we have witnessed peacemakers trying to end ethnic cleansing reinstate justly elected political leaders and reach compromises in the ideological differences that perpetuate age old conflicts We also see peacemaking in our schools homes and workplaces Philosophers have long been interested in peacemaking in one form or another and philosophical accounts of peacemaking reflect the variety of perspectives methods and activities developed in pursuing peacemaking In some instances philosophers expand upon the situations activities and methods of the peacemaker in the field The essays in this volume propose some theoretical arguments for various aspects of peacemaking offer nonmilitary alternatives to war and discuss practical examples of peacemaking in daily life The contributors analyze power relations language social groupings and distribution of resources At times they draw insight from social and historical models of conflict and conflict resolution This collection of essays on peacemaking aims to enlighten contemporary social and political discussions and contribute to achieving the ever challenging goal of peace

The United States and Terrorism Ron Hirschbein, 2015-04-21 What is terrorism Academics search in vain for the unholy grail the definition of terrorism that will exonerate or condemn American officials There are many vying definitions and no tribunal to resolve the contest In this unique essay Ron Hirschbein analyzes conflicts in which officials themselves called their actions terrorist He reveals that terrorism didn't always get bad press In fact terror bombing was indispensable to winning World War II Not only did the Allied Forces bomb German cities but they also used the nuclear bomb in Japan killing many noncombatant civilians During the Cold War the threat of nuclear annihilation became the strategy to deter war between the superpowers Many ironies are brought to light in revisiting these conflicts such as the fact that it was accepted that safety depended upon the willingness to detonate weapons of mass destruction Not even American citizens enjoyed noncombatant immunity during the Cold War as they were held hostage to mutually assured destruction and marked for sacrifice in various strategic scenarios Indeed their lives were risked in confronting crises in Berlin and Cuba Subsequent conflicts in Korea Vietnam and Iraq as well as the War on Terror itself are also examined Like World War II all involved killing noncombatants by accident or design Casting these conflicts in an ironic light reveals incongruities in language and situations in which triumphant dreams become self-defeating realities as with the second Iraq war The War on Terror now rebranded as an Overseas Contingency Plan seems to be the answer to a Jihadist's prayer Further U.S. led covert attacks and assassinations by drones raise many discussions of legalities And today the curse of terrorism is fodder for captivating primetime entertainment enjoyed even by the president of the United States

Institutional Violence Deane Curtin, Robert Litke, 2022-05-20 Violence can be physical and psychological It can

characterize personal actions forms of group activity and abiding social and political policy This book includes all of these aspects within its focus on institutional forms of violence Institution is also a broad category ranging from formal arrangements such as the military the criminal code the death penalty and prison system to more amorphous but systemic situations indicated by parenting poverty sexism work and racism Violence is as complex as the human beings who resort to it its institutional forms pervade our relational lives We are all participants in it as victims and perpetrators The chapters in this book were written in the hope that violence can be explicated even if not fully understood and that such clarification can help us in devising less violent forms of living even if it does not lead to its total abolition The studies bring new aspects of violence to light and offer a number of suggestions for its remedy

What If They Gave A Crisis And Nobody Came Interpreting International Crises Introduction

In today's digital age, the availability of What If They Gave A Crisis And Nobody Came Interpreting International Crises books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through

What If They Gave A Crisis And Nobody Came Interpreting International Crises

pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of What If They Gave A Crisis And Nobody Came Interpreting International Crises books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of What If They Gave A Crisis And Nobody Came Interpreting International Crises books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing What If They Gave A Crisis And Nobody Came Interpreting International Crises versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, What If They Gave A Crisis And Nobody Came Interpreting International Crises books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing What If They Gave A Crisis And Nobody Came Interpreting International Crises books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for What If They Gave A Crisis And Nobody Came Interpreting International Crises books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, What If They Gave A Crisis And Nobody Came Interpreting International Crises books and manuals

What If They Gave A Crisis And Nobody Came Interpreting International Crises

for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of What If They Gave A Crisis And Nobody Came Interpreting International Crises books and manuals for download and embark on your journey of knowledge?
