Sacred Places North America Brad Olsen, 2008-03-01 This revised and updated comprehensive travel guide examines North America's most sacred sites for spiritually attuned explorers. Important archaeological, geological, and historical destinations from coast to coast are exhaustively examined from the weathered pueblos of the American Southwest and the medicine wheels of western Canada to Graceland and the birthplace of Martin Luther King Jr. Histories and cultural contexts are objectively surveyed along with the latest academic theories and insightful metaphysical ruminations. Detailed maps, drawings, and travel directions are also included. **Religion in Plain View** Sally M. Promey, 2024-11-18 A revelatory critique of public display in the United States. In *Religion in Plain View* Sally M. Promey analyzes religion's visible saturation of American public space and the histories that shaped this exhibitionary aesthetics. In street art, vehicle decor, signs, monuments, architecture, zoning policy, and more, Promey exposes American display's merger of evangelicalism, capitalism, and imperialism. From this convergence, display materializes a distinctly American drive to advertise, claim territory, invalidate competitors, and fabricate a tractable national heritage. Charting this aesthetics' strategic work as a Protestant technology of White nation formation, *Religion in Plain View* offers a dynamic critique of the ways public display perpetuates deeply ingrained assumptions about the proper shape of life and land in the United States. A Place More Void Paul Kingsbury, Anna J. Secor, 2021-02 This collection presents geography's most in-depth and sustained engagements with the void to date, demonstrating the extent to which related themes such as gaps, cracks, lacks, and emptiness perforate geography's fundamental concepts, practices, and passions. *Tourism, Religion and Spiritual Journeys* Dallen Timothy, Daniel Olsen, 2006-09-27 Religion and spirituality are still among the most common motivations for travel. Many major tourism destinations have developed largely as a result of their connections to sacred people, places, and events. Providing a comprehensive assessment of the primary issues and concepts related to this intersection of tourism and religion, this revealing book gives a balanced discussion of both the theoretical and applied subjects that destination planners, religious organizations, scholars, and tourism service providers must deal with on a daily basis. Bringing together a distinguished list of contributors, this volume takes a global approach and incorporates substantial empirical cases from Hinduism, Islam, Judaism, Roman Catholicism, Mormonism, New Ageism, Sikhism, Buddhism, and the spiritual philosophies of East Asia. On a conceptual level, it considers amongst other topics, contested heritage, the pilgrim/tourist dichotomy, secularization of pilgrimage experiences, religious humanism, educational aspects of religious tourism, commodification of religious icons and services. A vibrant collection of essays, this outstanding book discusses many important practices, paradigms, and problems that are currently being examined and debated. It raises an array of significant and interesting questions and as such is a valuable resource for students, scholars, and researchers of tourism, religion, and cultural studies.
