What Is Cool Understanding Black Manhood In America:

What is Cool? Marlene K. Connor, 1995 Understood only vaguely by white America as a matter of style cool is in fact an American black man's way of staying alive Writing from a woman's perspective Marlene Connor reveals what cool is today and why it is such an important factor in African American life

The Origins of Cool in Postwar America Joel Dinerstein, 2017-05-17 Cool It was a new word and a new way to be and in a single generation it became the supreme compliment of American culture The Origins of Cool in Postwar America uncovers the hidden history of this concept and its new set of codes that came to define a global attitude and style As Joel Dinerstein reveals in this dynamic book cool began as a stylish defiance of racism a challenge to suppressed sexuality a philosophy of individual rebellion and a youthful search for social change Through eye opening portraits of iconic figures Dinerstein illuminates the cultural connections and artistic innovations among Lester Young Humphrey Bogart Robert Mitchum Billie Holiday Frank Sinatra Jack Kerouac Albert Camus Marlon Brando and James Dean among others We eavesdrop on conversations among Jean Paul Sartre Simone de Beauvoir and Miles Davis and on a forgotten debate between Lorraine Hansberry and Norman Mailer over the white Negro and black cool We come to understand how the cool worlds of Beat writers and Method actors emerged from the intersections of film noir jazz and existentialism Out of this mix Dinerstein sketches nuanced definitions of cool that unite concepts from African American and Euro American culture the stylish stoicism of the ethical rebel loner the relaxed intensity of the improvising jazz musician the effortless physical grace of the Method actor To be cool is not to be hip and to be hot is definitely not to be cool This is the first work to trace the history of cool during the Cold War by exploring the intersections of film noir jazz existential literature Method acting blues and rock and roll Dinerstein reveals that they came together to create something completely new and that something is cool

What's Black about It? Pepper Miller, Herb Kemp, 2005 At last in depth qualitative insights paint an eye opening picture of Black culture and the Black lifestyle and how to connect your products and services with Black consumers What's Black About It presents historical psychological and cultural influences that delve far deeper into the Black experience than the demographics that are at the heart of other ethnic marketing books and market research reports Now you will be able to break through stereotypes to better understand and relate to African American consumers Other ethnic marketing books may include a general chapter or two on Black consumers What's Black About It focuses on African American consumers and engages you with bold graphics pop culture sidebars insights from focus groups and examples from current advertising and marketing campaigns

The Rhetoric of Cool Jeff Rice, 2007-05-11 The Rhetoric of Cool Composition Studies and New Media offers a historical critique of composition studies rebirth narrative using that critique to propose a new rhetoric for new media work Author Jeff Rice returns to critical moments during the rebirth of composition studies when the discipline chose not to emphasize technology cultural studies and visual writing which are now fundamental to composition studies Rice redefines these moments in order to invent a new electronic practice

The Rhetoric of Cool addresses the disciplinary claim that composition studies underwent a rebirth in 1963. At that time three writers reviewed technology, cultural studies and visual writing outside composition studies and independently used the word cool to describe each position. Starting from these three positions, Rice focuses on chora, appropriation, commutation, juxtaposition, nonlinearity and imagery, rhetorical gestures conducive to new media work to construct the rhetoric of cool. An innovative work that approaches computers and writing issues from historical, critical, theoretical and practical perspectives. The Rhetoric of Cool challenges current understandings of writing and new media and proposes a rhetorical rather than an instrumental response for teaching writing in new media contexts.

Black Masculinity and the U.S. South Riché Richardson, 2010-01-25. This pathbreaking study of region, race and gender reveals how we underestimate the South's influence on the formation of black masculinity at the national level. Many negative stereotypes of black men often contradictory ones have emerged from the ongoing historical traumas initiated by slavery. Are black men emasculated and submissive or hypersexed and violent? Nostalgic representations of black men have arisen as well: think of the philosophical hardworking sharecropper or the abiding upright preacher. To complicate matters, says Rich Richardson, blacks themselves appropriate these images for purposes never intended by their mostly white progenitors. Starting with such well-known caricatures as the Uncle Tom and the black rapist, Richardson investigates a range of pathologies of black masculinity that derive ideological force from their associations with the South: Military policy, black liberation discourse and contemporary rap, she argues, are just some of the instruments by which egregious pathologies of black masculinity in southern history have been sustained. Richardson's sources are eclectic and provocative, including Ralph Ellison's fiction, Charles Fuller's plays, Spike Lee's films, Huey Newton's and Malcolm X's political rhetoric, the O. J. Simpson discourse and the music production of Master P, the Cash Money Millionaires and other Dirty South rappers. Filled with new insights into the region's role in producing hierarchies of race and gender in and beyond their African American contexts, this new study points the way toward more epistemological frameworks for southern literature, southern studies and gender studies.

The Cultural Career of Coolness Ulla Haselstein, Irmela Hijiya-Kirshner, Catrin Gersdorf, Elena Giannoulis, 2013-10-10. Cool is a word of American English that has been integrated into the vocabulary of numerous languages around the globe. Today it is a term most often used in advertising trendy commodities or more generally in promoting urban lifestyles in our postmodern age. But what is the history of the term cool? When has coolness come to be associated with certain modes of contemporary self-fashioning? On what grounds do certain nations claim a privilege to be recognized as cool? These are some of the questions that served as a starting point for a comparative cultural inquiry which brought together specialists from American Studies and Japanese Studies but also from Classics, Philosophy and Sociology. The conceptual grid of the volume can be described as follows: 1. Coolness is a metaphorical term for affect control. It is tied in with cultural discourses on the emotions and the norms of their public display and with gendered cultural practices of subjectivity. 2. In the course of the cultural

transformations of modernity the term acquired new importance as a concept referring to practices of individual ethnic and national difference 3 Depending on cultural context coolness is defined in terms of aesthetic detachment and self irony of withdrawal dissidence and even latent rebellion 4 Coolness often carries undertones of ambivalence The situational adequacy of cool behavior becomes an issue for contending ethical and aesthetic discourses since an ethical ideal of self control and a strategy of performing self control are inextricably intertwined 5 In literature and film coolness as a character trait is portrayed as a personal strength as a lack of emotion as an effect of trauma as a mask for suffering or rage as precious behavior or as savvy This wide spectrum is significant artistic productions offer valid insights into contradictions of cultural discourses on affect control 6 American and Japanese cultural productions show that twentieth century notions of coolness hybridize different cultural traditions of affect control
