Waiting For An Army To Die The Tragedy Of Agent Orange:

Waiting for an Army to Die Fred A. Wilcox, 2011-09-13 I died in Vietnam but I didn't even know it said a young Vietnam vet on the Today Show one morning in 1978 shocking viewers across the country *Waiting for an Army to Die The Tragedy of Agent Orange* the first book ever written on the effects of Agent Orange tells this young vet's story and that of hundreds of thousands of other former American servicemen During the war the US sprayed an estimated 12 million gallons of Agent Orange on Vietnam in order to defoliate close to 5 million acres of its land Had anyone predicted that millions of human beings exposed to Agent Orange dioxin would get sick and die scholar Fred A Wilcox writes in the new introduction to his seminal book their warnings would have been dismissed as sci fi fantasy or apocalyptic nonsense Told in a gripping and compassionate narrative style that travels from the war in Vietnam to the war at home and through portraits of many of the affected survivors their families and the doctors and scientists whose clinical experience and research gave the lie to the government whitewash *Waiting for an Army to Die* tells a story that thirty years later continues to create new twists and turns for Americans still waiting for justice and an honest account of what happened to them Vietnam has chosen August 10 the day that the US began spraying Agent Orange on Vietnam as Agent Orange Day to commemorate all its citizens who were affected by the deadly chemical The new second edition of *Waiting for an Army to Die* will be released upon the third anniversary of this day in honor of all those whose families have suffered and continue to suffer from this tragedy *Waiting for an Army to Die* Fred Allen Wilcox, 1983

Scorched Earth Fred A. Wilcox, 2011-09-13 *Scorched Earth* is the first book to chronicle the effects of chemical warfare on the Vietnamese people and their environment where even today more than 3 million people including 500 000 children are sick and dying from birth defects cancer and other illnesses that can be directly traced to Agent Orange dioxin exposure Weaving first person accounts with original research Vietnam War scholar Fred A Wilcox examines long term consequences for future generations laying bare the ongoing monumental tragedy in Vietnam and calls for the United States government to finally admit its role in chemical warfare in Vietnam Wilcox also warns readers that unless we stop poisoning our air food and water supplies the cancer epidemic in the United States and other countries will only worsen and he urgently demands the chemical manufacturers of Agent Orange to compensate the victims of their greed and to stop using the Earth's rivers lakes and oceans as toxic waste dumps Vietnam has chosen August 10 the day that the US began spraying Agent Orange on Vietnam as Agent Orange Day to commemorate all its citizens who were affected by the deadly chemical *Scorched Earth* will be released upon the third anniversary of this day in honor of all those whose families have suffered and continue to suffer from this tragedy *Waiting for an Army to Die* Fred Wilcox, 1989

Investigates the scientific legal and moral issues raised by the use of Agent Orange during the Vietnam War *Pesticides, A Love Story* Michelle Mart, 2018-01-26 Presto No More Pests proclaimed a 1955 article introducing two new pesticides miracle workers for the housewife and back yard farmer Easy to use effective and safe who wouldn't love synthetic pesticides

Apparently most Americans did and apparently still do Why in the face of dire warnings rising expense and declining effectiveness do we cling to our chemicals Michelle Mart wondered Her book a cultural history of pesticide use in postwar America offers an answer America's embrace of synthetic pesticides began when they burst on the scene during World War II and has held steady into the 21st century for example more than 90% of soybeans grown in the US in 2008 are Roundup Ready GMOs dependent upon generous use of the herbicide glyphosate to control weeds Mart investigates the attraction of pesticides with their up to the minute promise of modernity sophisticated technology and increased productivity in short their appeal to human dreams of controlling nature She also considers how they reinforced Cold War assumptions of Western economic and material superiority Though the publication of Rachel Carson's Silent Spring and the rise of environmentalism might have marked a turning point in Americans' faith in pesticides statistics tell a different story Pesticides a Love Story recounts the campaign against DDT that famously ensued but the book also shows where our notions of Silent Spring's revolutionary impact falter where in spite of a ban on DDT farm use of pesticides in the United States more than doubled in the thirty years after the book was published As a cultural survey of popular and political attitudes toward pesticides Pesticides a Love Story tries to make sense of this seeming paradox At heart it is an exploration of the story we tell ourselves about the costs and benefits of pesticides and how corporations government officials ordinary citizens and the press shape that story to reflect our ideals interests and emotions
