Transitional Justice And The Arab Spring:

Transitional Justice and the Arab Spring Kirsten Fisher, Robert Stewart, 2015-03-24 This book presents a varied and critical picture of how the Arab Spring demands a re examination and re conceptualization of issues of transitional justice It demonstrates how unique features of this wave of revolutions and popular protests that have swept the Arab world since December 2010 give rise to distinctive concerns and problems relative to transitional justice The contributors explore how these issues in turn add fresh perspective and nuance to the field more generally In so doing it explores fundamental questions of social justice reconstruction and healing in the context of the Arab Spring Including the perspectives of academics and practitioners Transitional Justice and the Arab Spring will be of considerable interest to those working on the politics of the Middle East normative political theory transitional justice international law international relations and human rights

Transitional Justice and the Prosecution of Political Leaders in the Arab Region Dr Noha Aboueldahab, 2017 The dramatic uprisings that ousted the long standing leaders of several countries in the Arab region set in motion an unprecedented period of social political and legal transformation The prosecution of political leaders took centre stage in the pursuit of transitional justice following the Arab Spring Through a comparative case study of Egypt Libya Tunisia and Yemen this book argues that transitional justice in the Arab region presents the strongest challenge yet to the transitional justice paradigm This paradigm is built on the underlying assumption that transitions constitute a shift from non liberal to liberal democratic regimes where often legal measures are taken to address atrocities committed during the prior regime The book is guided by two principal questions first what trigger and driving factors led to the decision of whether or not to prosecute former political leaders And second what shaping factors affected the content and extent of decisions regarding prosecution In answering these questions the book enhances our understanding of how transitional justice is pursued by different actors in varied contexts In doing so it challenges the predominant understanding that transitional justice uniformly occurs in liberalising contexts and calls for a re thinking of transitional justice theory and practice Using original findings generated from almost 50 interviews across 4 countries this research builds on the growing critical literature that claims that transitional justice is an under theorised field and needs to be developed to take into account non liberal and complex transitions It will be stimulating and thought provoking reading for all those interested in transitional justice and the Arab Spring

Transitional Justice in the Middle East and North Africa Chandra Lekha Sriram, 2016 The chapters in this volume written largely by experts in the field draw upon pre and post Arab Spring use of transitional justice mechanisms in a range of countries including Algeria Egypt Tunisia Yemen Libya Morocco and Bahrain
