Whats Left Liberal American Catholics:

What's Left? Mary Jo Weaver, 1999 What's Left employs a thoroughly in house approach in which self identified liberal Catholics examine various facets of liberal Catholicism this book explores some of the most prominent threads of leftist Catholic aspiration and dissent Choice What's Left is the most comprehensive study to date of liberal American Catholics in the generation following the second Vatican council 1962-65 The main features of liberal American Catholicism feminist theology and practice contested issues of sexual conduct new social locations of academic theology liturgy spirituality ministry race and ethnicity and public Catholicism are presented here in their historical and social contexts **Religion, the Secular, and the Politics of Sexual Difference** Linell E. Cady, Tracy Fessenden, 2013-11-05 Global struggles over women's roles rights and dress increasingly cast the secular and the religious in tense if not violent opposition When advocates for equality speak in terms of rights and modern progress or reactionaries ground their authority in religious and scriptural appeals both tend to presume women's emancipation is ineluctably tied to secularization Religion the Secular and the Politics of Sexual Difference upsets this certainty by drawing on diverse voices and traditions in studies that historicize question and test the implicit links between secularism and expanded freedoms for women Rather than position secularism as the answer to conflicts over gender and sexuality this volume shows both religion and the secular collaborate in creating the conditions that generate them *Religion and Politics in America* Robert Booth Fowler, Allen D Hertzke, Laura R. Olson, Kevin R. Den Dulk, 2013-12-24 Religion and politics are never far from the headlines but their relationship remains complex and often confusing In this fifth edition of Religion and Politics in America the authors offer a lively accessible and balanced treatment of religion in American politics They explore the historical cultural and legal contexts that underlie religious political engagement while also highlighting the pragmatic and strategic political realities that religious organizations and people face Incorporating the best and most up to date scholarship the authors assess the politics of Roman Catholics evangelical mainline and African American Protestants Jews Muslims and other conventional and not so conventional American religious movements The author team also examines important subjects concerning religion and its relationship to gender race ethnicity and class The fifth edition has been revised to include the 2012 elections in particular Mitt Romney's candidacy and Mormonism as well as a fuller assessment of the role of religion in President Obama's first term In depth treatment of core topics contemporary case studies and useful focus study boxes provides students with a real understanding of how religion and politics relate in practice and makes this fifth edition essential reading for courses in political science religion and sociology departments Transforming Communication About Culture Mary Jane Collier, 2002 The 24th volume addresses how people's lives and experiences across the world are being transformed by technological changes media institutions political ideologies and social forces Nine articles consider such topics as implications of the privatization of television in India diasporic cinema and media definitions of Indian femininity the construction of Latinos and
