Daniel S. Diffey, Ryan A. Brandt, Justin McLendon, 2017-11-03 The Journal of Biblical and Theological Studies JBTS is an academic journal focused on the fields of Bible and Theology from an inter denominational point of view The journal is comprised of an editorial board of scholars that represent several academic institutions throughout the world JBTS is concerned with presenting high level original scholarship in an approachable way Academic journals are often written by scholars for other scholars They are technical in nature assuming a robust knowledge of the field There are fewer journals that seek to introduce biblical and theological scholarship that is also accessible to students JBTS seeks to provide high level scholarship and research to both scholars and students which results in original scholarship that is readable and accessible As an inter denominational journal JBTS is broadly evangelical We accept contributions in all theological disciplines from any evangelical perspective In particular we encourage articles and book reviews within the fields of Old Testament New Testament Biblical Theology Church History Systematic Theology Practical Theology Philosophical Theology Philosophy and Ethics *New Developments in the Cognitive Science of Religion* Hans van Eyghen, 2018-07-14 It is widely thought that the cognitive science of religion CSR may have a bearing on the epistemic status of religious beliefs and on other topics in philosophy of religion Epistemologists have used theories from CSR to argue both for and against the rationality of religious beliefs or they have claimed that CSR is neutral vis vis the epistemic status of religious belief However since CSR is a rapidly evolving discipline a great deal of earlier research on the topic has become dated Furthermore most of the debate on the epistemic consequences of CSR has not taken into account insights from the philosophy of science such as explanatory pluralism and explanatory levels This volume overcomes these deficiencies This volume brings together new philosophical reflection on CSR It examines the influence of CSR theories on the epistemic status of religious beliefs it discusses its impact on philosophy of religion and it offers new insights for CSR The book addresses the question of whether or not the plurality of theories in CSR makes epistemic conclusions about religious belief unwarranted It also explores the impact of CSR on other topics in philosophy of religion like the cognitive consequences of sin and naturalism Finally the book investigates what the main theories in CSR aim to explain and addresses the strengths and weaknesses of CSR **Jesus, Skepticism, and the**

Problem of History Zondervan, 2019-10-08 In recent years a number of New Testament scholars engaged in academic historical Jesus studies have concluded that such scholarship cannot yield secure and illuminating conclusions about its subject arguing that the search for a historically authentic Jesus has run aground Jesus Skepticism and the Problem of History brings together a stellar lineup of New Testament scholars who contend that historical Jesus scholarship is far from dead These scholars all find value in using the tools of contemporary historical methods in the study of Jesus and Christian origins While the skeptical use of criteria to fashion a Jesus contrary to the one portrayed in the Gospels is methodologically unsound and theologically unacceptable these criteria properly formulated and applied yield positive results that support the

Gospel accounts and the historical narrative in Acts This book presents a nuanced and vitally needed alternative to the skeptical extremes of revisionist Jesus scholarship that on the one hand uses historical methods to call into question the Jesus of the Gospels and on the other denies the possibility of using historical methods to learn about Jesus Reason, Revelation, and the Civic Order Carson Holloway, 2014-03-14 While the dominant approaches to the current study of political philosophy are various with some friendlier to religious belief than others almost all place constraints on the philosophic and political role of revelation Mainstream secular political theorists do not entirely disregard religion But to the extent that they pay attention their treatment of religious belief is seen more as a political or philosophic problem to be addressed rather than as a positive body of thought from which we might derive important insights about the nature of politics and the truth of the human condition In a one of a kind collection DeHart and Holloway bring together leading scholars from various fields including political science philosophy and theology to challenge the prevailing orthodoxy and to demonstrate the role that religion can and does play in political life Contributing authors include such important thinkers as Peter Augustine Lawler Robert C Koons J Budziszewski Francis J Beckwith and James Stoner Pragmatism and the Philosophy of Religion Michael R. Slater, 2014-08-14 Michael R Slater argues for the contemporary relevance of pragmatist views in the philosophy of religion 2084 and the AI Revolution, Updated and Expanded Edition John C. Dialectic of Enlightenment as Sport Tom Donovan,2015-10-01 In their Dialectic of Enlightenment Horkheimer and Adorno set out to explain why humanity instead of entering a truly human state is sinking into a new kind of barbarism Philosophy teacher Tom Donovan PhD UCRiverside offers a fresh reading of that classic text showing that it is first and foremost a critique of the metaphysical urge Describing our world of stupid consumption mindless entertainment and perverted games and relationships he notes these sorts of games have no end game as fantasy spectators never really win and yet they don't see it because they are too busy watching the other lose This is the secret of class society As long as there is someone below you then lack of reconciliation doesn't hurt so badly Citing the Super Bowl Clippers owner Donald Sterling basketball players like LeBron James plus the Kardashians mega churches and comedians like Jon Stewart Donovan gives us a new understanding of our age and how the broken threads that are today's Capitalism religion and sports contribute to unraveling the fabric of Modernity Against readings that claim that Dialectic of Enlightenment is a simple critique of instrumental reason that ultimately undermines rationality itself Dr Donovan argues that the real critique is aimed at the metaphysical urge itself As such rationality itself is not the target of attack nor is the notion of enlightenment Taking Adorno's and Horkheimer's example of the Marquis de Sade the author observes Sade can only find pleasure in domination The fear of the outside has morphed into fear of a reconciled world fear of a world where everyone treats each other as ends in themselves A society like this can tolerate porn but not socialism a society like this won't miss the ice caps but wouldn't miss the Super Bowl a society like this lets civilization sink into barbarism so long as they can watch The Bachelor Stylistically this book attempts to rationally mimic the fragmentary nature of Dialectic of Enlightenment so that through form and content the argument of the book will emerge dialectically Readers will see that Dialectic of Enlightenment actually offers a positive conception of enlightenment and a philosophical instance of the use of dialectics The book is for readers interested in critiques of capitalism and religion and sports in America as well as Marxism and Critical Theory It will intrigue academics interested in the Frankfurt School and the idea of the Metaphysical Urge
