

REPEAT AND REDO: EXERCISE, STYLE, AND BILDUNG IN 19TH CENTURY GERMAN LITERATURE AND CULTURE

Max Kade Workshop
Dr. Jakob Heller

Daß dies mit Verstand geschah,
War Herr Lehrer Lämpel da. —

The workshop addresses the question of what became of rhetorical teachings after their abandonment in the 19th century; that is: How was the way we analyze and interpret literature and aesthetic education conceived after the foundation that had been in place since antiquity was discarded? What role should literature and language instruction still play? Could they still shape subjects? How was “humanistic education” conceptualized?

Hidden Multilingualism in 19th-Century European Literature Jana-Katharina Mende, 2023-08-21 The disparagement of multilingualism is a European development of the 18th and 19th centuries in which one national language and national literature were advocated established and institutionalised Multilingual writers made use of the creative potential of several languages even then However they often adapted to an increasingly monolingual book market which made their individual multilingualism invisible This is evident in literary historiography which established a monolingual national canon Researching hidden multilingualism is often difficult since multilingual texts by multilingual writers were often not published or were published in a monolingual version sources are scarce Literary histories of the time often do not mention multilingualism Furthermore many multilingual writers were members of minority groups women Jewish Non European and thus often neglected The volume offers methods and theories to systematically approach this hidden material as well as case studies on authors and national literatures in a multilingual context It thus contributes to the restructuring of a multilingual transnational literary history that is applicable to different philologies *Precarious Times* Anne Fuchs, 2019-10-15 In *Precarious Times* Anne Fuchs explores how works of German literature film and photography reflect on the profound temporal anxieties precipitated by contemporary experiences of atomization displacement and fragmentation that bring about a loss of history and of time itself and that is peculiar to our current moment The digital age places premiums on just in time deliveries continual innovation instantaneous connectivity and around the clock availability While some celebrate this 24/7 culture others see it as profoundly destructive to the natural rhythm of day and night and to human happiness Have we entered an era of a perpetual present that depletes the future and erodes our grasp of the past Beginning its examination around 1900 when rapid modernization was accompanied by comparably intense reflection on changing temporal experience *Precarious Times* provides historical depth and perspective to current debates on the digital now Expanding the modern discourse on time and speed Fuchs deploys such concepts as attention slowness and lateness to emphasize the uneven quality of time around the world **Annual Report of the Department of the Interior** United

leading experts in many different fields this book charts a comparative history of the literary draft in Europe and beyond It is organised according to eight categories of comparison distributed over the volume s two parts devoted respectively to Text i e the textual aspects of creative processes and Beyond Text i e aspects of creative processes that are not necessarily textual Across geographical temporal linguistic generic and media boundaries to name but a few this book uncovers idiosyncrasies and parallels in the surviving traces of human creativity while drawing the reader s attention to the materiality of literary drafts and the ephemerality of the writing process they capture The Internationality of National Literatures in Either America Armin Paul Frank, Helga Essmann, 1999 *Annual Report of the Commissioner of Education* United States. Jews and Germans in Eastern Europe Tobias Grill, 2018-09-24 For many centuries Jews and Germans were economically and culturally of significant importance in East Central and Eastern Europe Since both groups had a very similar background of origin Central Europe and spoke languages which are related to each other German Yiddish the question arises to what extent Jews and Germans in Eastern Europe share common historical developments and experiences This volume aims to explore not only entanglements and interdependences of Jews and Germans in Eastern Europe from the late middle ages to the 20th century but also comparative aspects of these two communities Moreover the perception of Jews as Germans in this region is also discussed in detail *The Warner Library: The student's course in literature. General index* Charles Dudley Warner, John William Cunliffe, Ashley Horace Thorndike, Harry Morgan Ayres, Helen Rex Keller, Gerhard Richard Lomer, 1917 Topographies of Popular Culture Maarit Piipponen, Markku Salmel, 2016-08-17 Topographies of Popular Culture departs from the deceptively simple notion that popular culture always takes place somewhere By studying the spatial and topographic imaginations at work in popular culture the book identifies and illustrates several specific tendencies that deserve increased attention in studies of the popular In combining the study of popular texts with a broad variety of geographical contexts the volume presents a global and cross cultural approach to popular culture s topographies In part Topographies of Popular Culture takes its cue from recent theorisations of spatiality in the field of critical theory and from such global transformations as the processes and after effects of decolonisation and globalisation It contemplates the spatiality of genre and the interactions between the local and the global as well as the increasing circulation and adaptation of popular texts across the globe The ten individual chapters analyse the spaces of popular culture at a scale that extends from an individual s everyday experience to genuinely global questions offering new theoretical and analytical insights into the relation between spatiality and the popular Nature in the Middle Ages and the Early Modern Times Albrecht Classen, 2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners

have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches Theatre in the Berlin Republic Denise Varney, 2008 This work s focus is on theatre at the intersection of culture and politics during and after German reunification and the evolution of the Berlin Republic It contains the proceedings of a symposium that took place in Melbourne in September 2006
