The Routledge International Handbook of the Crimes of the Powerful Gregg Barak, 2015-06-05 Across the world most people are well aware of ordinary criminal harms to person and property Often committed by the powerless and poor these individualized crimes are catalogued in the statistics collected annually by the FBI and by similar agencies in other developed nations In contrast the more harmful and systemic forms of injury to person and property committed by powerful and wealthy individuals groups and national states are neither calculated by governmental agencies nor annually reported by the mass media As a result most citizens of the world are unaware of the routinized crimes of the powerful even though they are more likely to experience harms and injuries from these types of organized offenses than they are from the atomized offenses of the powerless Research on the crimes of the powerful brings together several areas of criminological focus involving organizational and institutional networks of powerful people that commit crimes against workers marketplaces taxpayers and political systems as well as acts of torture terrorism and genocide This international

handbook offers a comprehensive authoritative and structural synthesis of these interrelated topics of criminological concern. It also explains why the crimes of the powerful are so difficult to control. Edited by internationally acclaimed criminologist Gregg Barak, this book reflects the state of the art of scholarly research covering all the key areas including corporate global environmental and state crimes. The handbook is a perfect resource for students and researchers engaged with explaining and controlling the crimes of the powerful domestically and internationally. *Migration, Refugees and Human Security in the Mediterranean and MENA* Marion Boulby, Kenneth Christie, 2018-03-15 This book focuses on the Mediterranean MENA migration crisis and explores the human security implications for migrants and refugees in this troubled region. Since the Arab uprisings of 2010-2011, the Middle East and North Africa region has experienced major political transformations and called into question the legitimacy of states in the region. Displaced populations continue to suffer due to the major conflicts in Syria, Iraq and elsewhere, causing fragmentation and disintegration of communities. Contributors to this volume analyze how and why this crisis differs significantly from previous migration/refugee flows in the region, explain the historical and political antecedents of this crisis which have played a part in its shaping and explore the relationship between human security and the protection of vulnerable individuals and groups. **Gender Matters in Global Politics**, 2010

Legalized Prostitution in Germany Annegret Staiger, 2022-02-01 Germany has been infamously dubbed the Brothel of Europe, but how does legalized prostitution actually work? Is it empowering or victimizing, realistic or dangerous? In *Legalized Prostitution in Germany*, Annegret D. Staiger's ethnography engages historical, cultural and legal contexts to reframe the brothel as a place of longing and belonging, of affective entanglements between unlikely partners and of new beginnings across borders, while also acknowledging the increasingly exploitative labor practices. By sharing the stories of sex workers, clients and managers within the larger legal system meant to provide dignity and safety through regulation, Staiger skillfully frames the economic aspects of commercial sex work and addresses important questions about sexual labor, intimacy and relationships. Weaving insightful scholarship with beautiful storytelling, *Legalized Prostitution in Germany* provides readers with a deeper understanding of the complexities of legalized prostitution. **Trafficking and Prostitution Reconsidered: New Perspectives on Migration, Sex Work, and Human Rights**, 2012 **Trafficking and Prostitution Reconsidered** Kamala Kempadoo, Jyoti Sanghera, Bandana Pattanaik, 2015-12-03 Since the 2005 publication of the highly acclaimed first edition of *Trafficking and Prostitution Reconsidered*, human trafficking has become virtually a household phrase. This new edition adds vitally important updates related to recent developments. A new introduction considers the term sex trafficking and its growing use amongst feminist researchers. In a new chapter, Ratna Kapur looks at changes in anti-trafficking legislation, especially under the Obama administration. Jyoti Sanghera reports from her experience as a UN Human Rights commissioner, and Bandana Pattanaik examines feminist participatory research on trafficking. The book concludes with a list of relevant websites, organisations and publications useful for students, researchers and activists. [The British National](#)

Bibliography Arthur James Wells, 2005 Migration, Prostitution, and Human Trafficking Min Liu, 2011 Migration Prostitution and Human Trafficking examines the nature, magnitude and gravity of prostitution and sex trafficking and the relationship between them in contemporary China. By researching the background circumstances and other factors that drive Chinese women to migrate to Shenzhen, China, Liu hopes to shed light on the underlying reasons for their entry into the sex industry. She details Chinese legislation and governmental practices for dealing with human trafficking and prostitution. Prostitution is a global issue; its special dimensions in an expanding market-driven economy encased in a communist political system are explored with candor and understanding. Global Perspectives on Prostitution and Sex Trafficking Rochelle L. Dalla, 2011 Efforts aimed at intervention, service, education and continued scholarship **Sex Trafficking, Human Rights, and Social Justice** Tiantian Zheng, 2010-09-13 The recognition of women's human rights to migrate and work as sex workers is disregarded and dismissed by anti-trafficking discourses of rescue in the latest United Nations definition of trafficking. This volume explores the life experiences, agency and human rights of trafficked women in order to shed light on the complicated processes in which anti-trafficking, human rights and social justice are intersected. In these articles, the authors critically analyze not only the conflation of trafficking with sex work in international and national discourses and its effects on migrant women but also the global anti-trafficking policy and the root causes for the undocumented migration and employment. Featuring case studies on eleven countries including the US, Iran, Denmark, Paris, Hong Kong and South East Asia and offering perspectives from transnational migrant populations, the contributors rearticulate the trafficking discourses away from the state control of immigration and the global policing of borders and reassert the social justice and the needs, agency and human rights of migrant and working communities. This book will be of interest to students and scholars of politics, gender studies, human rights, migration, sociology and anthropology. Global Perspectives on Prostitution and Sex Trafficking Rochelle L. Dalla, Lynda M. Baker, John DeFrain, Celia Williamson, 2011-04-01 This book is part of a two-volume set that examines prostitution and sex trafficking on a global scale, with each chapter devoted to a particular country in one of seven geo-cultural areas of the world. The 16 chapters in this volume, Volume II, are devoted to examination of the commercial sex industry (CSI) in countries within Africa, Asia, Middle East and Oceania, while the 18 chapters comprising Volume I focus exclusively on Europe, Latin America and North America. This volume also includes a global section which includes chapters that are globally relevant rather than those devoted to a particular country or geographic location. The content of each Volume as well as each chapter reflects great diversity in focus, writing style and personal position regarding the commercial sex industry. Diversity extends to the contributors who are comprised of international scholars, service providers and policy advocates representing a variety of fields and disciplines with distinct and varied frames of reference and theoretical underpinnings with regard to the commercial sex industry. In addition to addressing aspects of the CSI across the globe as impacted by geography and culture, authors have also provided a spectrum of implications of their work.

ranging from continued scholarship and research to legislative maneuvers and policy change to suggestions for collaboration across NGOS fieldworkers clinicians and service providers Together the 34 expertly crafted chapters provide a wealth of knowledge from which to more deeply appreciate and contemplate the global commercial sex industry By uniting contributors from around the world this book aims to build a relatively common knowledge base on global prostitution and sex trafficking Viewed from a unified global perspective it is hoped that this common understanding will lead to a grounded theory and integrated view with applicable suggestions for international efforts aimed at interventio
