It argues that some contemporary Euro American social values of gender equality non discrimination rationality ecumenicism and democracy permeate not only the organizational aspects of the Kwan Um School of Zen case study but soteriological processes and goals of the training more widely. Each chapter showcases the ways important facets of Zen education from meditation to curriculum development to school management have absorbed Euro American cultural and social ideals in both community and educational practices. Giving dedicated scholarly attention and conceptualising new adaptations in transnational Zen communities it constitutes an important and timely addition to the literature and will appeal to researchers and scholars of religion and education Asian pedagogies contemporary Buddhism transnational Zen and Zen education.

History, Biography, and the Genre of Luke-Acts Andrew W. Pitts, 2019-07-15 Unlike contemporary literary linguistic configurations of genre current methodologies for the study of the Gospel genre are designed only to target genre similarities not genre differences. This basic oversight results in the convoluted discussion we witness in Lukan genre study today. Each recent treatment of the genre of Luke Acts represents a distinct effort to draw parallels between Luke Acts and a specific or multiple literary tradition s. These studies all underestimate the role of literary divergence in genre analysis leveraging much

if not all of their case on literary proximity This monograph will show how attention to literary divergence from a number of angles may bring resolution to the increasingly complex discussions of the genre s of Luke Acts

The Long Shadow of Emile Cailliet Abigail Rian Evans, Clemens Bartollas, Gordon Graham, Kenneth Henke, 2011-09-23 This book aims to examine the importance of Christian philosophy in theological education through the prism of the life and teachings of Emile Cailliet The book s primary focus is on his years of teaching at Princeton Theological Seminary to which all the authors are connected This work examines Cailliet as a believer teacher scholar and philosopher Although Cailliet wrote over twenty books none of them articulated his formal position on the nature of theological education However it is clear from his teaching at seminary and his writings on philosophy especially Pascal that he saw philosophy as an integral part of seminary training We want to preserve his work because he was a seminal but neglected thinker whose influence extends from science to literature and from philosophy to spirituality and theology We believe that Emile Cailliet was one of the most influential Christians of the twentieth century We invite the reader to stand in the long shadow of Cailliet and consider how his life and thought can help us tackle some of the knotty questions that face us today

The Logic of Intersubjectivity Darren M. Slade, 2020-08-27 To survey harsh criticisms against Brian Douglas McLaren 1956 readers gain the inaccurate impression that he is a heretical relativist who denies objective truth and logic While McLaren s inflammatory and provocative writing style is partly to blame this study also suspects that his critics base much of their analyses on only small portions of his overall corpus The result becomes a caricature of McLaren s actual philosophy of religion What is argued in this book is that McLaren s philosophy of religion suggests a faith based intersubjective relationship with the divine ought to result in an existential appropriation of Christ s religio ethical teachings When subjectively internalized this appropriation will lead to the assimilation of Jesus kingdom priorities thereby transforming the believer s identity into one that actualizes Jesus kingdom ideals The hope of this book is that by tracing McLaren s philosophy of Christian religion future researchers will not only be able to comprehend and perhaps empathize

with McLaren's line of reasoning but they will also possess a more nuanced discernment of where they agree and disagree with his overall rationale *A Legacy of Learning in Near Eastern Archaeology* Peter Lacovara, 2025-01-23 Helene J Kantor July 15 1919 January 13 1993 was one of the last of the great generalists of the ancient world This volume celebrates her scholarship with articles covering her wide ranging interests with important studies on ancient Egypt the Aegean Iran and Classical civilization
