Narratives of Place, Belonging and Language Máiréad Nic Craith, 2012-02-10 Examining identity in relation to globalization and migration this book uses narratives and memoirs from contemporary authors who have lived in between two or more languages It explores the human desire to find one s own place in new cultural contexts and looks at the role of language in shaping a sense of belonging in society

Through an Artist's Eyes Willa Johnson, 2021-05-31 This book offers visual social historical analyses of paintings and drawings of the renowned German Communist artist Karl Schwesig It follows the course of Schwesig s internments but is dedicated primarily to the plight of foreign Jewish persons and Christians of Jewish descent who were interned at Camps Saint Cyprien Gurs and No in the French free zone The artworks created by Schwesig provide the themes investigated in each chapter The works describe the dehumanizing treatment that contributed to and characterized the racialization of foreign Jewish and mixed race persons in France s free zone and the attempted elimination of political dissidents The volume includes color plates

Narrative Machine Zena Meadowsong, 2018-11-20 Narrative Machine The Naturalist Modernist and Postmodernist Novel advances a new history of the novel identifying a crucial link between narrative innovation and the historical process of mechanization In the late nineteenth century the novel grapples with a new and increasingly acute problem In its attempt to represent the colossal power of modern machinery the steam driven machines of the Industrial Revolution the electrical machines of the modern city and the atomic and digital machines developed after the Second World War it encounters the limitations of traditional representative strategies Beginning in the naturalist novel the machine is typically portrayed as a mythic monster and though that monster represents a potentially horrific reality the superhuman power of mechanization it also disrupts the documentary objectives of narrative realism the dominant mode of nineteenth century fiction The mechanical monster realistic and yet at odds with traditional realist strategies tears the form of the novel apart In doing so it unleashes a series of

innovations that disclose critique and contest the force of mechanization the innovations associated with literary naturalism modernism and postmodernism *Dancing with Georges Perec* Leslie Satin, 2024-06-14 This book explores the relationship of the life and work of the remarkable Parisian Jewish writer Georges Perec 1936 1983 to dance Dancing addresses art making parallels and their personal and sociocultural contexts including Perec s childhood loss of his parents in the Holocaust and its repercussions in the significance of the body everydayness space and attention permeating his work This book emerging from the author Leslie Satin s perspective as a dancer and scholar links Perec s concerns with those of dance and demonstrates that Perec s work has implications for dance and how we think about it Moreover it is framed as a performative autobiographical enactment of the author s relationship to Perec periodically linking their written danced and imagined lives This exploration will be of great interest to dancers dance scholars and dance students interested in contemporary experimental dance and contemporary dance **Narratives of Annihilation, Confinement, and Survival**

Anja Tippner, Anna Artwińska, 2019-05-20 The concept of camp narratives rather than Holocaust narratives or Gulag narratives is based on the assumption that literary accounts of camp experiences share common traits aesthetically as well as thematically The book presents readings of camp literature that underscore the similarities between texts about Soviet gulag camps Nazi camps and about other camp experiences While literature about Nazi concentration camps still serves as a point of reference for camp narratives in the same way that the Holocaust serves as a point of reference for other genocidal operations socialist labor and penal camps have become transnational lieux de mémoire in their own right since 1989 This volume intends to provide a theoretical frame as well as an overview of several important European camp literatures and case studies of iconic camp narratives and to take a comparative and transnational perspective on the genre of the camp narrative **Legacies of Ancient Greece in Contemporary Perspectives** Thomas M. F. Gerry, 2022-04-20 Legacies of

Ancient Greece in Contemporary Perspectives provides readers with opportunities to reconnect with the origins of thought in an astonishingly wide variety of areas politics economics art spirituality gender relations medicine literature philosophy music and so on As the chapters in the book show Classical Greek thought still informs much of contemporary culture There are countless books and articles that deal with ancient Greece historically and a similar number that focus on Greece as a contemporary travel destination There is both a lot of interest in Greece as a place now and in Greece s history and culture which formed the early origins of much of Western civilisation The distinctive attraction of Legacies of Ancient Greece in Contemporary Perspectives is that it brings together by means of fascinating examples the two areas of interest Greece s past in relation to its and our present In addition to the general interest factor the book suggests questions for re examination the individual chapters provide abundant original research on their subjects and in most cases offer critiques on the assumptions about and the interpretations of Greece s ancient and contemporary cultural practices These challenges themselves stimulate far reaching thought and discussion a feature highly attractive to readers and students wishing to

develop a more in depth understanding of the legacies of ancient Greece

W, Or, The Memory of Childhood Georges Perec, 1988 Guaranteed to send shock waves through the literary community Perec's *W* tells two parallel stories The first is autobiographical describing the author's wartime boyhood The second tale denser more disturbing more horrifying is the allegorical story of *W* a mythical island off Tierra del Fuego governed by the thrall of the Olympic ideal where losers are tortured and winners held in temporary idolatry As the reader soon discovers *W* is a place where it is more important to be lucky than to be deserving and you have to fight to live with no recourse no mercy no salvation not even any hope that time will sort things out Here sport is glorified and victors honored but athletes are vilified losers executed stealing encouraged rape common and violence a fact of life Perec's interpretive vision of the Holocaust forces us to ask the question central to our time How did this happen before our eyes How did we look at those shells of skin and bone ashen faced with their backs permanently bent their eyes full of panic and their suppurating sores How did all of this happen not on *W* but before millions of spectators some horrified some cheering some in different but all present at the games watching the events of that grisly arena
