Wace Standards Guide:

Guide to Standard Floras of the World David G. Frodin, 2001-06-14 This 2001 book provides a selective annotated bibliography of the principal floras and related works of inventory for vascular plants. The second edition was completely updated and expanded to take into account the substantial literature of the late twentieth century and features a more fully developed review of the history of floristic documentation. The works covered are principally specialist publications such as floras, checklists, distribution atlases, systematic iconographies and enumerations or catalogues, although a relatively few more popularly oriented books are also included. The Guide is organised in ten geographical divisions with these successively divided into regions and units, each of which is prefaced with a historical review of floristic studies. In addition to the bibliography, the book includes general chapters on botanical bibliography, the history of floras and general principles and current trends, plus an appendix on bibliographic searching, a lexicon of serial abbreviations and author and geographical indexes.

World Guide to Special Libraries Marlies Janson, Helmut Opitz, 2011-12-22 The World Guide to Special Libraries lists about 35 000 libraries world wide, categorized by more than 800 key words including libraries of departments, institutes, hospitals, schools, companies, administrative bodies, foundations, associations and religious communities. It provides complete details of the libraries and their holdings and alphabetical indexes of subjects and institutions.
