Heidegger's Philosophy of Being Herman Philipse, 1999 This scrupulously researched and rigorously argued book is the first to interpret and evaluate the central topic of Martin Heidegger's philosophy his celebrated question of being in the context of the full range of Heidegger's thought With this comprehensive approach Herman Philipse distinguishes in unprecedented ways the center from the incidental in Heidegger's philosophy Philipse begins by explaining which problems an interpretation of Heidegger's question of being should solve and he specifies which type of interpretation is the best basis for an evaluation of Heidegger's idea of being and shows **Heidegger's Philosophy of Being** Herman

Philipse, 2021-05-11 This scrupulously researched and rigorously argued book is the first to interpret and evaluate the central topic of Martin Heidegger's philosophy his celebrated Question of Being in the context of the full range of Heidegger's thought With this comprehensive approach Herman Philipse distinguishes in unprecedented ways the center from the periphery the essential from the incidental in Heidegger's philosophy Among other achievements this allows him to shed new light on the controversial relationship between Heidegger's life and thought in particular the connections between his philosophy and his involvement with Nazism Philipse begins by explaining which problems an interpretation of Heidegger's question of being should solve and he specifies which type of interpretation is the best basis for an evaluation of Heidegger's thought He then identifies various strands or leitmotifs in Heidegger's idea of being and shows how these strands hang together in the philosopher's work In doing so Philipse offers new insights into Heidegger's views on such subjects as human existence authenticity logic and language and into his readings of such philosophers as Aristotle Kant Hegel and Nietzsche Philipse then integrates into his interpretation of Heidegger's overall theory the latest scholarship about the philosopher's engagement with Nazism Finally Philipse examines the fundamental structures of Heidegger's philosophy and assesses whether Heidegger's views are true probable or possess some other epistemic or existential value As the most thorough interpretation of Heidegger's theory of being now available this work represents a new phase in the vigorous debate about the philosopher's life and works **Wahrheit und Wahrheitsgrund** Margot Fleischer, 2011-08-25 Keine ausführliche

Fay, 2012-12-06 Since his inaugural lecture at Freiburg in 1929 in which Heidegger delivered his most celebrated salvo against logic he has frequently been portrayed as an anti logician a classic example of the obscurity resultant upon a rejection of the discipline of logic a champion of the irrational and a variety of similar things Because many of Heidegger's statements on logic are polemical in tone there has been no little misunderstanding of his position in regard to logic and a great deal of distortion of it All too frequently the position which is attacked as Heidegger's is a barely recognizable

caricature of it Heidegger has from the very beginning of his career written and said much on logic Strangely enough in view of all that he has said his critique of logic has not been singled out as the subject of any of the longer more detailed studies on the various aspects of his thought **Das Problem der Seinsvermittlung bei Nikolaus von Cues** Schwarz,2024-09-16

Ludwig Feuerbach in Seinem Briefwechsel und Nachlass Ludwig Feuerbach,1874 **Thinking with Kierkegaard** Arne Grøn,2022-12-31 Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy Contrary to many approaches to Kierkegaard's authorship Grøn does not read Kierkegaard in opposition to Hegel The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work In Grøn's reading Kierkegaard conceives human selfhood not merely as relational but also a process of becoming the self that one is through the otherness of self experience that is the body the world other people and God This book should be of interest to philosophers theologians literary studies scholars and anyone with an interest not only in Kierkegaard but also in human identity
