These are exciting times in theological education as old models are being reassessed and teachers and schools are looking for guidance on how best to do the job and how to profitably relate to students in the ministry of teaching Increasingly the motif of hospitality is being used to guide our thinking and practice but it needs a careful assessment if it is to be of maximum use to theological education today This book provides an integrated biblical theological and educational rationale to inform theological educators of the place of hospitality in enhancing their quest to create more effective learning environments for the holistic formation of students Dr Davina Soh explores key elements of hospitality such as inclusion presence care and reciprocity which when combined can deliver the best possible educational experience for theological students and transform an entire institution *Educating for Purposeful Living* Philip Hughes,2017-10-25 This book contains a simple argument

Young people who develop a sense of purpose around contributing to the lives of others and the society will find great personal fulfilment in life and will do more than other young people in creating a better world for all people Living purposefully contributes to better physical and mental health and to resilience as well as to pro social behaviour However surveys of 9 500 secondary school students in non government schools showed that only a little over a third of them 36% definitely had a sense of purpose More needs to be done to help students develop patterns of purposeful living *Keeping Your Children's Ministry on Mission* Jared Kennedy,2022-02-23 Practical Strategies for Gospel Centered Children s Ministry When building a children s ministry at a church there is so much to consider Which curriculum should we use How many volunteers do we need How do we keep parents in the loop And that s before we run into stalled check in computers missing

activity sheets and floors that need to be vacuumed While all of the tasks of children s ministry are important leaders can get easily distracted with the everyday work of doing ministry and lose sight of the main focus the gospel Writing from personal ministry experience Jared Kennedy shares a four fold approach for gospel centered missional children s ministry hospitality teaching discipleship and mission This practical resource covers a variety of topics ranging from creating child protection policies to putting together lesson plans to catechism helpful for children s ministers and volunteers alike as they disciple children with the powerful message of the gospel Applicable Includes questions for reflection and evaluation Helps Leaders Disciple the Next Generation Features advice for sending kids and their families on mission Ideal for Nursery 5th Grade Teachers and Leaders A practical and helpful resource for children s ministries Published in Conjunction with the Gospel Coalition TGC

Christian Worldview and the Academic Disciplines Deane E. D. Downey, Stanley E. Porter, 2009-04-15 This book an edited compilation of twenty nine essays focuses on the difference s that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline *Christian Worldview and the Academic Disciplines* is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful

Faith-Based Education That Constructs HeeKap Lee, 2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In *Faith Based Education* that

Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism
