The Written Dead Kyle William Bishop, Angela Tenga, 2017-06-29 From Victor Halperin's White Zombie 1932 to

George A Romero's landmark *Night of the Living Dead* 1968 and AMC's hugely successful *The Walking Dead* 2010 zombie mythology has become an integral part of popular culture. In a reversal of the typical pattern of adaptation the zombie developed onscreen before appearing in short stories and comic books during the 20th century and more recently as subjects of more traditional novels. This collection of new essays examines some of the most influential and inventive zombie literature from the early stories to the most recent narratives including some told from a zombie perspective.

Time Joel Burges, Amy Elias, 2016-08-02 The critical condition and historical motivation behind Time Studies The concept of time in the post millennial age is undergoing a radical rethinking within the humanities. Time A Vocabulary of the Present newly theorizes our experiences of time in relation to developments in post 1945 cultural theory and arts practices. Wide ranging and theoretically provocative the volume introduces readers to cutting edge temporal conceptualizations and investigates what exactly constitutes the scope of time studies. Featuring twenty essays that reveal what we talk about when we talk about time today especially in the areas of history measurement and culture each essay pairs two keywords to explore the tension and nuances between them from past future and anticipation unexpected to extinction adaptation and serial simultaneous. Moving beyond the truisms of postmodernism the collection newly theorizes the meanings of temporality in relationship to aesthetic cultural technological and economic developments in the postwar period. This book thus assumes that time not space as the postmoderns had it is central to the contemporary period and that through it we can come to terms with what contemporaneity can be for human beings caught up in the historical present. In the end Time reveals that the present is a cultural matrix in which overlapping temporalities condition and compete for our attention. Thus each pair of terms presents two temporalities yielding a generative account of the time or times in which we live.

Horrors of War Cynthia J. Miller, A. Bowdoin Van Riper, 2015-05-14 Battlefields have traditionally been considered places where the spirits of the dead linger and popular culture brings those thoughts to life. Supernatural tales of war told in print on screen and in other media depict angels demons and legions of the undead fighting against or alongside human soldiers. Ghostly war ships and phantom aircraft carry on their never to be completed missions and the spirits sometimes corpses of dead soldiers return to confront the enemies who killed them comrades who betrayed them or leaders who sacrificed them. In *Horrors of War: The Undead on the Battlefield* Cynthia J Miller and A Bowdoin Van Riper have assembled essays that explore the meaning and significance of these tales. Among the questions that the volume seeks to answer are How do supernatural stories engage with cultural attitudes toward war? In what ways do these stories reflect or challenge the popular memories of particular wars? How do they ask us to think again about battlefield heroism military ethics and the politics of sacrifice? Divided into four sections chapters examine undead war stories in film *Carol for Another Christmas* *The Devil's Backbone* television *The Twilight Zone* literature *The Bloody Red Baron* *Devils of D Day* comics *Weird War Tales* *The Haunted Tank* graphic novels *The War of the Trenches* and gaming *Call of Duty* *World at War*. Featuring contributions from a diverse group of international scholars these essays

address such themes as monstrous enemies and enemies made monstrous legacies and memories of war and the war dead who refuse to rest Drawing together stories from across wars branches of service and generations of soldiers and featuring more than fifty illustrations Horrors of War will be of interest to scholars of film popular culture military history and cultural history

Death on the Small Screen Jonathan F. Bassett, 2022-10-17 Mortality remains a taboo topic in much of Western society but death and violence continue to be staples of popular television We can better understand the appeal of violence by investigating psychological theories surrounding anxiety about death and the defenses we use to manage that anxiety This book examines five recent television series Game of Thrones The Punisher Jessica Jones Sons of Anarchy and Hannibal and shows how fictional characters motivations teach viewers about both the constructive and destructive ways we try to deal with our own mortality Instead of dismissing violent television as harmless entertainment or completely condemning it as a dangerous trigger of hostile behavior this book shows its effects on viewers in a more nuanced manner It provides a new perspective on the enjoyment of violent television enhancing fans appreciation and sparking ongoing discussions about their value to both the individual and society

Race, Oppression and the Zombie Christopher M. Moreman, Cory James Rushton, 2011-08-31 The figure of the zombie is a familiar one in world culture acting as a metaphor for the other a participant in narratives of life and death good and evil and of a fate worse than death the state of being undead This book explores the phenomenon from its roots in Haitian folklore to its evolution on the silver screen and to its radical transformation during the 1960s countercultural revolution Contributors from a broad range of disciplines here examine the zombie and its relationship to colonialism orientalism racism globalism capitalism and more including potential signs that the zombie hordes may have finally achieved oversaturation Instructors considering this book for use in a course may request an examination copy [here](#)
