Wam Canoes Of The Marshall Islands:

WAM: Canoes of the Marshall Islands WAM Students of 2012, 2012-12-19 Waan Ael in Majel Canoes of the Marshall Islands or WAM runs a program for youth at risk using the medium of canoe and boat building WAM students from the 2012 2013 group wrote and illustrated this book about the program Life in the Republic of the Marshall Islands Anono Lieom Loeak, Veronica C. Kiluwe, Linda Crowl, 2004 A joint publication with the USP Centre in Majuro this book recounts people's experiences and reflections on life in their country Among the accounts are chapters dealing with specific legends and traditions memories of growing up in the Marshals and more contemporary issues such as off island adoption and the ongoing struggle of Rongelap survivors Publisher's description The Handbook of Critical Intercultural Communication Thomas K. Nakayama, Rona Tamiko Halualani, 2023-12-13 An up to date and comprehensive resource for scholars and students of critical intercultural communication studies In the newly revised second edition of The Handbook of Critical Intercultural Communication a lineup of outstanding critical researchers delivers a one stop collection of contemporary and relevant readings that define delineate and inhabit what it means to do critical intercultural communication In this handbook you will uncover the latest research and contributions from leading scholars in the field covering core theoretical methodological and applied works that give shape to the arena of critical intercultural communication studies The handbook's contents scaffold up from historical revisitings to theorizings to inquiry and methodologies and critical projects and applications This work invites readers to deeply immerse themselves in and reflect upon the thematic threads shared within and across each chapter Readers will also find Newly included instructors resources including reading assignments discussion guides exercises and syllabi Current and state of the art essays introducing the book and delineating each section Brand new sections on critical inquiry practices and methodologies and contemporary critical intercultural projects and topics such as settler colonialism intersectionalities queerness race identities critical intercultural pedagogy migration ecologies critical futures and more Perfect for scholars researchers and students of intercultural communication intercultural studies critical communication and critical cultural studies The Handbook of Critical Intercultural Communication 2nd edition stands as the premier resource for anyone interested in the dynamic and ever evolving field of study and praxis critical intercultural communication studies Waiting for the East Wind Elise Van Loon, This dissertation explains stick charts from the Marshall Islands and how each one is unique to the navigator who created it Stick charts are navigational tools that map the ocean's geography by illustrating how the atolls interrupt the ocean swells without giving any significant detail to the landmasses themselves Examining these instruments may lead to an understanding of how the Marshallese people perceive maritime space The stick charts are frequently compared to cartesian maps and the physical geography of the area However as time is a large factor in sailing I examined the varied elements of several stick charts as a matter of time rather than space The geographic distance between two atolls is constant but the placement of the atolls on each chart

fluctuates The possibility for the different placements is due to the influences of the sea causing an outward journey to take more or less time than the return Through investigating the charts and linking elements of seafaring the artefacts may convey abstract illustrations or literal representations of their environment This dissertation aims to not only analyse the Marshallese stick charts but to collate components of their culture and heritage in order to explain the environment these charts were used in This supports the idea that maritime space can be derived from how these charts were created Based on each person's view of the sea the information they deliver will be built on perception of time distance and obstacles

Wayfinding M. R. O'Connor, 2024-03-26 In this marvel of storytelling a journalist pursues the mysteries of human navigation across continents and deep within the brain Kirkus Reviews starred review Biologists have been trying to solve the mystery of how organisms have the ability to migrate and orient with such precision especially since our own adventurous ancestors spread across the world without maps or instruments In *Wayfinding* M R O Connor goes to the Arctic the Australian bush and the South Pacific to talk to masters of their environment who seek to preserve their traditions at a time when anyone can use a GPS to navigate O Connor explores the neurological basis of spatial orientation within the brain and how exercising our cognitive mapping skills can improve the health of our hippocampus She also talks to scientists studying how atrophy in the hippocampus is associated with afflictions such as impaired memory dementia Alzheimer's Disease depression and PTSD *Wayfinding* is a captivating book that charts how our species' profound capacity for exploration memory and storytelling results in topophilia the love of place *Pacific Magazine*, 2001 **Linking Lifetimes** Matt Kaplan, Nancy Zimmerman Henkin, Atsuko T. Kusano, 2002 In many developing and post industrialized nations there are powerful demographic and social changes that are endangering the natural ways that old and young have traditionally interacted The current growth in the young and elderly segments of the population of most countries is leading to new challenges in terms of providing health care education financial support and social support systems for the young as well as the elderly An important set of strategies for addressing these trends and the quality of life concerns they generate is the facilitation of intergenerational programs The National Council on the Aging has defined intergenerational programming as activities or programs that increase cooperation interaction or exchange between any two generations In *Linking Lifetimes* the contributors explore the range of intergenerational programs and policies found across the globe and examine their role in ensuring the transmission of cultural values from generation to generation By illustrating the rich diversity of intergenerational program models the contributors discover how the common goal of promoting intergenerational interaction and understanding unfolds into differential trends social issues and human service systems **Statistical Yearbook**, 2004

Vaka Moana, Voyages of the Ancestors K. R. Howe, 2007-08-08 The most comprehensive and complete account yet of those ancient seafarers who developed the world's first ocean going vessels and the advanced navigational systems to guide them and discovered the last habitable lands on earth the islands of the mighty Pacific Ocean P 4 of cover **Psychology in**

Oceania and the Caribbean Grant J. Rich, Neeta A. Ramkumar, 2021-12-15 The Caribbean and Oceania are understudied areas from a psychological perspective and this book is designed to fill that knowledge gap. In addition to diverse rich cultural traditions and abundant economic opportunity for some, these regions also reflect the challenges of modernity including crime, poverty, ethnic tensions, adaptations to climate change, and disparities in health education and access to care. With contributions from noted psychologists in the Caribbean and Oceania as well as experts from around the globe, this book provides a nuanced examination of significant psychological issues in nations such as Fiji, Guyana, Belize, Haiti, Jamaica, and more. Psychologists, psychiatrists, and other mental health professionals with an interest in this part of the world will find this volume a rich resource, as will those generally interested in the relationship between culture and psychology. This book takes you on an outstanding journey of what is occurring in cultural psychology in the 21st century. It addresses the abundance of each nation through a transformational lens of current practices in psychology in Oceania and the Caribbean. I would absolutely recommend it to anyone interested in sailing the high seas connecting the present with the endless possibilities of those who dare to journey into the waters of a divine future.

Florence Denmark, Past President American Psychological Association, Chock full of expert knowledge and insights. Psychology in Oceania and the Caribbean is an indispensable resource for psychologists. A must read that will expand your understanding of life in these regions and beyond.

Pamela A. Hays, PhD, Author of *Addressing Cultural Complexities in Practice*. This is a breath-taking book in its coverage of the uniquely endowed psychology worlds of Oceania and the Caribbean. Now that Dr. Rich, Dr. Ramkumar, and colleagues have produced this awesome book volume on the cultural psychology of the rim water nations, I have a palpable sense of relief from their having addressed a huge gap in cultural psychology scholarship. This volume opens hitherto undreamed-of opportunities for further studies on cultural practices in psychology in Oceania and the Caribbean.

Elias Mpofu, PhD, DE D, CRC MAPS, Professor of Health Sciences at the University of North Texas, Honorary Professor of Health Sciences at the University of Sydney, and Executive Board member of the Australian Psychological Society's Rehabilitation Psychology Interest Group. This book represents a vital exploration into the purpose and practice of Psychology in island nations. It is a welcome compilation of academic writings from sociocultural perspectives within Oceania and the Caribbean and serves as a landmark account of the unique forces shaping the development and evolution of Psychology in these states.

Gerard Hutchinson, MD, Professor of Psychiatry, University of the West Indies, St. Augustine, Trinidad and Tobago.
