Time Magazine Europe:

Up-to-the-times Magazine ,1913 **The Future of Europe** Jean-Claude Piris,2012 Candid exploration of what Europe needs to do to overcome current crises by a leading figure in the European Union **America's Perceptions of Europe** L. Eliasson,2010-07-05 This book seeks to rectify Americans views of its closest ally Europe an ambitious task but one sorely lacking in the literature Many prejudices about Europe surface in headlines while others remain latent but they are real pervasive and ingrained **Congressional Record** United States. Congress,1984 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **The EU and the Israeli-Palestinian Conflict 1971-2013** Anders Persson,2014-10-21 Just peace has been much talked about in everyday life but it is less well researched by academics The rationale of this book is therefore to probe what constitutes a just peace both conceptually within the field of peacebuilding and empirically in the context of the EU as a peacebuilder in the Israeli Palestinian conflict The EU has used the term just peace in many of its most important declarations on the Israeli Palestinian conflict throughout the years Defining a just peace is about these declaratory efforts by the EU to articulate a common formula of a just peace in the conflict Securing and building a just peace are about the EU s role in implementing this formula for a just peace in the conflict through the creation of a Palestinian state As the EU enters its fifth decade of involvement in the conflict there can be little doubt that in common with the rest of the international community it has failed in its efforts to establish a just peace between Israelis and Palestinians While this is an inescapable overall conclusion from four decades of EC EU peacebuilding in the conflict it is at the same time possible to draw a number of other conclusions from this book Most importantly it argues that the EU is a major legitimizing power in the conflict and that it has kept the prospects of a two state solution alive through its support for the Palestinian statebuilding process **Europe and Its Muslim Minorities** Amikam Nachmani,2010-01-20 The presence of Muslim communities in Europe is a politically charged issue Sporadic attacks by radical Muslims have further highlighted the problem of a deep cultural divide between the Muslims and their host countries This book presents a picture of the causes and effects of Muslim immigration to the West *Jazz in Europe* José Dias,2019-05-30 Should we talk of European jazz or jazz in Europe What kinds of networks link those who make it happen on the ground What challenges do they have to face Jazz is a part of the cultural fabric of many of the European countries *Jazz in Europe Networking and Negotiating Identities* presents jazz in Europe as a complex arena where the very notions of cultural identity jazz practices and Europe are continually being negotiated against an ever changing social cultural political and economic environment The book gives voice to musicians promoters festival directors educators and researchers regarding the challenges they are faced with in

their everyday practices Jazz identities in Europe result from the negotiation between discourse and practice and in the interstices between the formal and informal networks that support them as if Jazz and Europe were blank canvases where diversified notions of what jazz and Europe should or could be are projected

Overview of Security Issues in Europe and Eurasia United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe and Eurasia, 2011

The Politics of Crisis in Europe Mai'a K. Davis Cross, 2017-03-02 The Politics of Crisis in Europe explores the resilience of the European Union in the face of repeated crises perceived to threaten its very existence While it is often observed after the fact that these crises serve as opportunities for integration this is the first critical analysis to suggest that we cannot fully understand the nature and severity of these crises without recognising the role of societal reaction to events and the nature of social narratives about crisis especially those advanced by the media Through a close examination of the 2003 Iraq crisis the 2005 constitutional crisis and the 2010 12 Eurozone crisis this book identifies a pattern across these episodes demonstrating how narratives about crises provide the means to openly air underlying societal tensions that would otherwise remain under the surface impeding further integration

Winning the Peace Nicolaus Mills, 2008-01-28 Politicians of every stripe frequently invoke the Marshall Plan in support of programs aimed at using American wealth to extend the nation's power and influence solve intractable third world economic problems and combat world hunger and disease Do any of these impassioned advocates understand why the Marshall Plan succeeded where so many subsequent aid plans have not Historian Nicolaus Mills explores the Marshall Plan in all its dimensions to provide valuable lessons from the past about what America can and cannot do as a superpower

Upside Down Robert L. Waring, 2012 In the early 1970's feminism promised to remake the world for women and create a new cultural landscape where women have equality with men But forty years later this attempted reboot has not occurred Only a small minority of women have ever self identified as feminists and women overall are less happy today In many ways progress is now stalled Has feminism failed or have we been thinking wrongly about gender issues all along Both are true Feminism sought too little systemic change and didn't build a national consensus that it should succeed While the book *The End of Men* helped encourage the false illusion that we've largely remedied gender inequality in America in fact we've barely begun We need to rethink the effort and on many levels

start over Upside Down draws on insights from biology psychology economics and political science This book itself is paradoxical It embraces the notion of gender differences but does not imagine the world necessarily being better if women were in charge Rather Upside Down proposes a dozen public policy changes that could make the world a better place with the side effect of aiding women s advancement The book delves into the difficult divide of partisan politics and explains how various public policies affect women thus empowering individuals to effect change with their energies their money and their votes To set the stage for a new direction the book relies on peer reviewed scientific studies to describe eleven gender paradoxes circumstances that based on feminism s goals shouldn t have happened but did Each of these paradoxes helps explain the causes of women s continuing inequality in society illuminates the harms and suggests solutions Did you know that as societies are becoming more egalitarian and behavior and opportunity are less constrained by gender personality differences between men and women are becoming greater and increasing advantages men have in attaining power and wealth This runs completely counter to the feminist view that such differences are purely cultural It has huge implications for women s competitiveness Did you know that women in the U S are less happy today than they were forty years ago And that by many measures women s progress in business and government which should be steadily improving has completely stalled in the 21st Century Even more disturbing is research showing that in many workplace settings women discriminate against women more than men do Based on eleven years of meticulous research Upside Down is filled with other surprising facts to support its conclusions For example did you know that mothers to be who skip breakfast are more likely to have daughters than those who don t Even more curious is the way this mechanism explains why women are less prone to violence than men And on the topic of violence many people are aware of the role played by testosterone but did you know that a single dose often makes women more egocentric less trusting and less collaborative The book s proposals would increase women s access to opportunity influence and power For example part time careers should be available to all in every field family responsibilities are too big a counterweight to a full time career for many Changing hearts and minds about gender issues will require advertising and public relations campaigns Adopting the policies of countries where women have greater influence could help women gain influence in government here The book s unique formula for gender quotas in state legislatures also could accelerate change Upside Down charts a course for feminism to regain relevance and create real gender equality This Deluxe Edition gives readers access to original research papers on a wide range of gender issues The endnotes contain hundreds of web links to academic journal articles and newspaper stories

My Fourth Time, We Drowned Sally Hayden, 2023-03-07 A magnificent engag investigative report an act of witness It is clear from Hayden s book that the current politics of immigration have turned twisted human nature against itself and our own kind and are fostering unimaginable maltreatment of those who wish only to survive and live a better life It strongly convey s the urgency of fundamentally rethinking immigration policy It is already late to act but that is a poor reason for inaction The New York

The Palgrave Handbook of EU Crises Marianne Riddervold, Jarle Trondal, Akasemi Newsome, 2020-12-21 This handbook comprehensively explores the European Union's institutional and policy responses to crises across policy domains and institutions including the Euro crisis Brexit the Ukraine crisis the refugee crisis as well as the global health crisis resulting from COVID 19 It contributes to our understanding of how crisis affects institutional change and continuity decision making behavior and processes and public policy making It offers a systematic discussion of how the existing repertoire of theories understand crisis and how well they capture times of unrest and events of disintegration More generally the handbook looks at how public organizations cope with crises and thus probes how sustainable and resilient public organizations are in times of crisis and unrest

[The Pro-Israel Lobby in Europe](#) Elvira King, 2016-03-02 The activities of pro Israel pressure groups and lobbyists in the US are well known But the pro Israel lobby in Europe is less prominent in both academic and media accounts In a unique account Elvira King identifies the pro Israeli groups which attempt to influence policy makers and implementers in the EU specifically examining Christian Zionist groups

Through a detailed study of the European Coalition for Israel ECI the only Christian Zionist lobby in Brussels Elvira King analyses whether and how a religious group can and can fail to influence decision makers in the EU By exploring the context of European relations with Israel as well as the mechanisms through which pressure groups are able to influence EU wide policies King offers an analysis which demonstrates how the EU can be a site where religion and politics meet rather than just being a secular institution It therefore contains vital primary research for both those interested in the pro Israel lobby as well as those examining the role of religion in politics more generally Foreign and Security Policy in the European Union Kjell A Eliassen,1998-10-16 This book provides a comprehensive overview of why European integration in foreign and security policy has proved so difficult The obstacles to developing the common policy in this second pillar of the European Union go to the heart of debates around the sovereignty of the nation state A leading group of international contributors explain how these problems arise and consider the future prospects of developing a more regional based solution Broadly organized around the three areas of policy actors and issues the first section traces the reluctant growth of EU integration in foreign and security policy as it developed from the mid 1980s In the second section the national policies and interests that typically obstruct a **The Future of European Defence** Atlantische Commissie. International Round Table Conference,1986 In May 1985 the Netherlands Atlantic Commission organized its Second International Round Table Conference in the Ridderzaal at the Binnenhof in The Hague The Conference was attended by 52 direct participants from the United States of America the United Kingdom France the Federal Republic of Germany and The Netherlands Amongst these were prominent representatives of politics science media and peace groups Under the chairmanship of Mr Piet Dankert former President of the European Parliament and former Vice Chairman of the Netherlands Atlantic Commission and in the presence of 200 observers the participants discussed the most topical themes of the European security debate The themes of discussion were each introduced by an outstanding member of the international political scene The verbatim texts and subsequent discussions have been edited and printed according to the order of the Conference The editors have furthermore added for the sake of completeness a discourse by Ambassador Maynard Glitman US negotiator in Geneva on Intermediate Range Nuclear Forces on the principles and prospects of the US negotiating position This discourse was held during the annual Study Conference of the Netherlands Atlantic Commission at October 11th 1985 The Atlantic Commission wishes to express its gratitude to the Algemene Loterij Nederland and the European Cultural Foundation for providing funds for its second international Round Table Conference **Europe's Existential Dilemma** GUy Mettan,2021-07-01 While Europe as a whole remains a first world economic power despite Brexit it has been unable to build a truly democratic and efficient state or carry weight as a respected power on the international scene Its splendid intellectual and artistic icons of the past two centuries are dimming in memory No longer is Europe a radiant cultural Mecca for the world Mettan examines in greater depth the problems confronting contemporary Europe its democratic deficit the stifling primacy of economics and law over

politics the sprawling expansion of an ever unsatisfactory governing institutions its inability to secure peace within its territory and far from least the ongoing encroachment on its sovereignty by the United States Europe faces two possible futures It can choose to lapse into insignificance subservient to ever increasing US demands and ascendancy unable to address its unique concerns in defense or energy policy while being denied potential economic benefits from a rising China and forced into ever deeper and dangerous confrontation with Russia Or Europeans fully conscious of what is at stake face up to Europe s problems and create an institutional framework that will enable it to stave off its inevitable decline into vassalization seizing the opportunity of the new space opened by the emerging Chinese power to create a truly democratic and sovereign federal union Switzerland provides a model
