

The background of the book cover is a deep green. It is decorated with numerous thin, white, curved lines that sweep across the frame from the bottom left towards the top right. These lines are of varying lengths and curves, creating a sense of movement and depth. In the upper right corner, a series of small, white, circular dots are arranged in a curved path, following the general direction of the lines.

Kimberly Quiogue Andrews

Wallace Stevens And The Limits Of:

Wallace Stevens and the Limits of Reading and Writing Bart Eeckhout, 2002 Often considered America's greatest twentieth century poet Wallace Stevens is without a doubt the Anglo modernist poet whose work has been most scrutinized from a philosophical perspective Wallace Stevens and the Limits of Reading and Writing both synthesizes and extends the critical understanding of Stevens's poetry in this respect Arguing that a concern with the establishment and transgression of limits goes to the heart of this poet's work Bart Eeckhout traces both the limits of Stevens's poetry and the limits of writing as they are explored by that poetry Stevens's work has been interpreted so variously and contradictorily that critics must first address the question of limits to the poetry's signifying potential before they can attempt to deepen our appreciation of it In the first half of this book the limits of appropriating and contextualizing Stevens's *The Snow Man* in particular are investigated Eeckhout does not undertake this reading with the negative purpose of disputing earlier interpretations but with the more positive intention of identifying the intrinsic qualities of the poetry that have been responsible for the remarkable amount of critical attention it has received

The Academic Avant-Garde Kimberly Quiogue Andrews, 2023-01-10 The surprising story of the relationship between experimental poetry and literary studies In *The Academic Avant Garde* Kimberly Quiogue Andrews makes a provocative case for the radical poetic possibilities of the work of literary scholarship and lays out a foundational theory of literary production in the context of the university In her examination of the cross pollination between the analytic humanities and the craft of poetry writing Andrews tells a bold story about some of today's most innovative literary works This pathbreaking intervention into contemporary American literature and higher education demonstrates that experimental poetry not only reflects nuanced concern about creative writing as a discipline but also uses the critical techniques of scholarship as a cornerstone of poetic practice Structured around the concepts of academic labor such as teaching and methodological work such as theorizing the book traces these practices in the works of authors ranging from Claudia Rankine to John Ashbery providing fresh readings of some of our era's most celebrated and difficult poets

The Limits of Imagination Helen Regueiro, 2019-06-30 This subtle tightly woven study treats the dialectical relationship of imagination and reality in three major poets and through them in the poetry of the past two centuries Professor Regueiro traces the modern poet's attempt to balance imagination and reality his withdrawal from the external and absorption in self consciousness and his ultimate recognition of the temporal and the natural as the only realms where the imagination may survive Through her study of Wordsworth Yeats and Stevens she envisions the modern poet as he comes to recognize the dangers and the limits of the imagination in his dealings with the real world and to accept and affirm the tensions that allow poetry to exist

A Companion to Modernist Literature and Culture David Bradshaw, Kevin J. H. Dettmar, 2008-10-20 The Companion combines a broad grounding in the essential texts and contexts of the modernist movement with the unique insights of scholars whose careers have been devoted to the study of modernism An essential resource for students and

The New Wallace Stevens Studies Bart Eeckhout, Gül Bilge Han, 2021-07-08 The *New Wallace Stevens Studies* introduces a range of fresh voices and promising topics to the study of this great American poet It is organized into three sections The first explores concepts that have begun to emerge in Stevens criticism imperialism and colonialism his politics of utopia his ideas about community building and audience his secularism and his transnationalism The second section applies recent methodological and theoretical advances that have left a prominent mark on literary studies from world literature and ecocriticism to urban studies queer studies intersectional thinking and cognitive literary studies Essays in the third section reassess issues that have long inspired critics Here investigations include Stevens's reception by later poets his attitude toward modern fiction different modes of his poetic thinking aspects of his rhetoric and style and his lyrical ethics This volume captures a cross section of the most striking recent developments in Stevens criticism

Modernism Revisited, 2015-06-29 Offering essays from some of the leading academic writers and younger scholars in the field of American studies from both the United States and Europe this volume constitutes a rich and varied reconsideration of Modernist American poetry Its contributions fall into two general categories new and original discussions of many of the principal figures of the movement Frost Pound Eliot Williams Cummings and Stevens and reflections on the phenomenon of Modernism within a broader cultural context the influence of Haiku parallels and connections with Surrealism responses to the Modernist accomplishment by later American poets Because of its mixture of European and American perspectives *Modernism Revisited* will be of vital interest to students and scholars of American literature and Modernism in general and of twentieth century comparative literature and art

The Cambridge History of Modernism Vincent Sherry, 2017-01-11 This *Cambridge History of Modernism* is the first comprehensive history of modernism in the distinguished *Cambridge Histories* series It identifies a distinctive temperament of modernism within the modern period establishing the circumstances of modernized life as the ground and warrant for an art that becomes modernist by virtue of its demonstrably self-conscious involvement in this modern condition Following this sensibility from the end of the nineteenth century to the middle of the twentieth tracking its manifestations across pan-European and transatlantic locations the forty-three chapters offer a remarkable combination of breadth and focus Prominent scholars of modernism provide analytical narratives of its literature music visual arts architecture philosophy and science offering circumstantial accounts of its diverse personnel in their many settings These historically informed readings offer definitive accounts of the major work of twentieth century cultural history and provide a new cornerstone for the study of

modernism in the current century **Modernism and Still Life** Claudia Tobin, 2020-03-02 This book takes an original approach to still life in modern literature and the visual arts by examining the potential for movement and transformation in the idea of stillness and the ordinary Phenomenology, Modernism and Beyond Carole Bourne-Taylor, Ariane Mildenberg, 2010 From the first stirrings of modernism to contemporary poetics the modernist aesthetic project could be described as a form of phenomenological reduction that attempts to return to the invisible and unsayable foundations of human perception and expression prior to objective points of view and scientific notions It is this aspect of modernism that this book brings to the fore The essays presented here bring into focus the contemporary face of ongoing debates about phenomenology and modernism The contributors forcefully underline the intertwining of modernism and phenomenology and the extent to which the latter offers a clue to the former The book presents the viewpoints of a range of internationally distinguished critics and scholars with diverse but closely related essays covering a wide range of fields including literature architecture philosophy and musicology The collection addresses critical questions regarding the relationship between phenomenology and modernism with reference to thinkers such as Edmund Husserl Maurice Merleau Ponty Martin Heidegger Michel Henry and Paul Ricoeur By examining the contemporary philosophical debates this cross disciplinary body of research reveals the pervasive and far reaching influence of phenomenology which emerges as a heuristic method to articulate modernist aesthetic concerns **Restless Secularism** Matthew Mutter, 2017-01-01 Cover Half Title Title Copyright Contents Acknowledgments List of Abbreviations Introduction Modernist Secularism and Its Discontents ONE The World Was Paradise Malformed Poetic Language Anthropomorphism and Secularism in Wallace Stevens TWO Tangled in a Golden Mesh Virginia Woolf and the Deceptiveness of Beauty THREE Homer Is My Example Yeats Paganism and the Emotions FOUR The Power to Enchant That Comes from Disillusion W H Auden s Anti Magical Poetics Conclusion Evil and the Adequacy of the Earth Notes Bibliography Credits Index A B C D E F G H I J K L M N O P R S T U V W Y
